REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1913,

AND ON

VACCINATION FOR THE YEAR 1913-1914.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

Rainfall in Ajmer.

1. During the year under report the rainfall of Ajmer was 15·50 inches against 13·87 inches in 1912, the average for the previous six years being 20·12 inches. Owing to the scanty monsoon rainfall, tanks and wells were practically empty. In December, however, 2·34 inches of rain fell, which materially improved the position as regards Ajmer City.

Rainfall in Native States.

2. In almost all the Native States the rainfall recorded was below the average except in Mewar where it was excessive; both the Khariff and Rabi crops suffered and scarcity of fodder prevailed in most of the Native States.

VITAL STATISTICS, BIRTHS AND DEATHS.

Births in Ajmer-Merwara.

3. According to the birth returns 21,656 births were registered in Ajmer-Merwara in 1913 against 23,609 in 1912, a decrease of 1,953.

4. Of the total births registered 11,368 were males and 10,288 females. The birth rate was 43·19 per mille of population against 47·08 per mille in the previous year. The percentage of male to female births was 110·50 as compared with 110·92 in 1912.

5. The recorded birth rate within the Ajmer Municipality, 19·5, shows how poorly birth registration is carried out.

Deaths in Ajmer-Merwara.

6. During the year there were 12,960 deaths registered in this division against 19,178 in 1912, a decrease of 6,218 which is attributed to the absence of plague and malaria. The death rate per mille of population was 25·85 against 38·25 in the previous year.

7. The mortality among children under five years of age was 54 per cent. of the total deaths against 61 per cent. in 1912. The reported deaths from small-pox was *20* against *3,050* in the previous year.

8. Deaths from fevers also show a decrease of 3,040 as compared with 1912.

Number of Cholera cases and deaths reported in Rajputana during the year 1913.

Ajmer-Merwara.

9. There were no cases of Cholera reported during the year.

Native States.

10. In the various States 6,533 cases of Cholera and 4,085 deaths were reported against 644 cases and 414 deaths in 1912.

11. In April, Cholera broke out in Karauli and Jaipur about the same time and extended to Bharatpur, Dholpur, Alwar, Tonk and Kotah and disappeared from the province before the middle of October. In Bharatpur 1,311 cases and 868 deaths were reported from 21st April to 29th September 1913, and in Dholpur 794 cases with 372 deaths.

12. Cholera was in epidemic form in the Jaipur State during the year; 1,473 attacks were reported with 1,099 deaths, of which 125 fatal cases occurred in Jaipur City.

13. The disease appeared in Alwar on the 30th April, having been imported from the Jaipur State. Eight hundred and forty-three cases and 406 deaths were reported up to 29th September; of these 210 cases and 113 deaths occurred in the Alwar City. The State Surgeon, Alwar, reports "that 38 transfusions were done on 24 persons in the city; the results were in many cases most gratifying, especially when a compounder was left in the house to keep a strict watch on the pulse and general condition of the patient. Pills of Potass Permanganate and permanganated water were freely used."

14. In the Kotah State the first case occurred at the village of Ayana in the Itawah Nizamat on the 1st June 1913. In all 506 cases and 201 deaths were reported; of these 42 cases and 23 deaths were in the Kotah City. The Agency Surgeon, Kotah and Jhalawar, writes that "the small number of cases in the Kotah City was due to the active co-operation of the Vice-President and Members of the Municipality with the Medical profession."

15. The usual precautionary and preventive measures were adopted.

SANITATION.

16. Owing to continued scanty rainfall and a consequent insufficient water supply in the Foy Sagar and Pushkar Lake, from which the city and suburbs, as well as the Railway Workshops, are supplied, the scheme for the supplemental supply from Bhaonta was taken in hand, at an estimated cost of ₹5,10,462, and the work is now being pushed on.

17. The improvement of the Ajmer city and suburbs conservancy scheme is being proceeded with; by the end of the rains it is hoped steam traction will be in working order from the Conservancy Tramway Station to the trenching ground. A large and up-to-date supply of rolling stock has been purchased and considerable expenditure has been sanctioned for improvements and renewals of filth and waste water carts, etc.

18. Almost all the latrines and urinals in the city and suburbs are provided with moveable galvanized iron receptacles.

19. Three incinerators are in use at present and sanction for the construction of several more has been accorded.

20. A scheme of replacing masonry latrines and urinals by moveable galvanized iron ones is under consideration.

21. A proper drainage scheme for the whole city of Ajmer is now essential since an improved and augmented water supply will shortly be available.

22. The covered drains in the bazaars and the principal streets, the slaughter house, meat markets, butchers' shops, etc., are still insanitary and need attention and improvement.

23. *Beawar.*—The Municipal Committee supervise sanitation in Beawar. Steps are now being taken for the improvement of the water supply and arrangements for a permanent water supply have at last been made from Jalia, a village about three miles from the town.

Native States.

24. *Jaipur.*—The Light Railway continues to perform valuable work for all conservancy purposes. Rubbish and city sweepings are burnt in incinerators; 70 latrines were newly constructed and 183 old latrines were repaired.

25. *Jodhpur.*—The water supply throughout the year has been good. Tanks and wells in Jodhpur and the districts were not well filled owing to the scanty monsoon rainfall. The sanitary condition of Jodhpur City is being steadily improved.

26. *Bikaner.*—The sanitation is in the hands of the Municipal Committee.

27. *Bharatpur.*—A new slaughter house has been constructed near Birnarain Gate which will be taken into use at an early date. A new cattle pound with enclosure for pigs has also been erected outside the Anah Gate. A fire engine was purchased for R899-6-0; it is kept in the Police Lines.

28. *Kotah.*—Two new meat markets have been constructed, 7 streets have been paved and a good many new drains have been provided to carry off surface water. Two hundred and eighteen kutcha cesspits have been replaced by pacca ones and 34 broken down houses have been removed. Rules for the sale of meat and inspection of animals, etc., have been drawn up. The Local Sanitary Committees in the district towns have worked smoothly.

VACCINATION.

Statement I.

29. In Ajmer-Merwara including Nasirabad the number of primary vaccinations rose from 13,825 in 1912-13 to 15,260 in 1913-14, an increase of 1,435. The number of re-vaccinations fell from 11·7 in 1912-13 to 32 in 1913-14 which is due to the absence of any small-pox outbreak. The total mortality from small-pox was only 20 against 3,050 in the previous year. Of these, 19 deaths were reported in the Ajmer District and one in Merwara.

30. The number of vaccinators was 15, the same as in 1912-13, and one Native Superintendent; each vaccinator performed an average of 1,019 against 911 in 1912-13; and the cost of each successful case fell from 47 pies to 45 pies in 1913-14.

31. The Civil Surgeon, Ajmer, inspected 1,602 vaccinated children, against 820 in the previous year, of whom 1,572 were found successful: and the Superintendent of Nasirabad examined 788 children, against 834 in 1912-13, of whom 775 were successful.

32. The Native Superintendent inspected 373 villages against 309 in the previous season and examined 7,839 vaccination operations as compared with 6,371 in 1912-13. The percentage of success amongst cases seen was 98·27 against 97·68 in the previous year.

33. 28·75 per thousand of the population in Ajmer-Merwara were successfully vaccinated, against 25·94 in 1912-13.

34. The vaccination returns from the Native States show an increase in primary vaccination, *viz.*, 269,136 against 258,958 in 1912-13, which indicates satisfactory progress. No epidemic of small-pox occurred in the Native States during the year under report. Re-vaccination fell from 1,373 in 1912-13 to 603 in 1913-14 owing to the prevalence of small-pox in epidemic form.

General operations in Native States. Statement I.

35. There were 159 vaccinators, the same as in the previous year: Jaipur have reduced its establishment by one, and one vaccinator was employed in the Bundi State. No vaccinator was employed in Deoli Cantonment during the season; vaccinations were performed by the Sub-Assistant Surgeon attached to the Agency Hospital there.

36. In the Marwar State 450 primary vaccinations were performed by Sub-Assistant Surgeons in dispensary towns with a recorded percentage success of 96·09 and 178 vaccination operations by the Sub-Assistant Surgeon, Sirohi.

37. 24·96 per thousand of the population in the Native States were successfully vaccinated, against 23·87 in 1912-13.

STATEMENT II.

Expenditure on vaccination.

38. The total expenditure on vaccination in Native States was R31,750-0-10 as compared with R32,102-12-2 in 1912-13, a decrease of R352-11-4 which is due to decreased travelling allowances to vaccinators. The average cost of each successful vaccination in different States varied from 10 pies in Sirohi to 284 pies in Jaisalmer.

39. The following table shows the number of towns and villages inspected and successful vaccination seen by Residency or Agency Surgeons in Native States :—

Designation.	Number of towns and villages inspected.	Number of successful vaccination cases seen.
The Agency Surgeon, Eastern Rajputana States . . .	553	6,552
The Agency Surgeon, Kotah and Jhalawar	412	5,002
The Residency Surgeon, Western Rajputana States . .	251	4,981
The Principal Medical Officer, Bikaner State . . .	24	4,909
The State Surgeon, Alwar	522	4,813
The Residency Surgeon, Mewar	199	3,111
The Residency Surgeon, Jaipur	47	2,102
The Agency Surgeon, Kherwara, and Medical Officer, Dungarpur	7	189

40. The Native Superintendents of Vaccination or other inspecting officers inspected 110,850 vaccinations against 115,180 in 1912-13. The percentage of inspected cases found successful in total number seen in 1913-14 was 98·50 against 98·40 in 1912-13.

41. Lymph is kept up throughout the year in most of the important States by arm to arm vaccination ; glycerinated vaccine lymph was obtained during the year from the Government Bovine Lymph Depôts and was generally successful.

42. The Residency Surgeon, Jaipur, writes that Calf Vaccine Lymph was manufactured at the Mayo Hospital Bacteriological Laboratory, Jaipur, and the result was good, as 871 vaccinations were done with vaccine paste prepared from buffalo calf out of which 767 were successful. With a small extra cost it could be supplied all over the district to do away with arm to arm vaccination.

SECTION II.—DISPENSARIES.

STATEMENT A.

Number of Dispensaries.

43. During the year there were 174 Hospitals and Dispensaries in Rajputana against 175 in the previous year. The Dispensary at Deolia in Ajmer was closed on the 1st January 1913, owing to want of funds and support from the local Istamrardars.

44. The Dispensaries are classified as under :—

I. State Public	8
II. State Special	12
V. Private non-aided, *i.e.*, Native States	154
TOTAL .	174

45. The Southern Rajputana States Agency Hospital, which was shown formerly as a Native State institution, has now become a Government one.

46. Besides these there are now seven Mission Hospitals and eight Railway Dispensaries.

47. The construction of a new dispensary building at Kishanganj has been sanctioned by the Kotah Durbar and material is being collected for the same.

Improvements and additions to Hospitals and Dispensaries.

48. *Udaipur.*—Some minor improvements have been carried out in the Lansdowne Hospital, Udaipur. The Hospital has been furnished with some more modern surgical instruments and appliances. A scheme for the erection of a new up-to-date Hospital outside the city, in place of the present Lansdowne Hospital, is still under the consideration of the Mewar Durbar.

49. *Jaipur.*—The sum of ₹5,152 was spent in effecting improvements and additions to the buildings of the Mayo Hospital, Jaipur, and the Curzon Wyllie Memorial Wards.

Statement B.

Attendance at Hospitals.

50. During the year 1913 the number of patients treated at State public, State special, and private non-aided, *i.e.*, Native State Dispensaries and Hospitals, amounted to 1,470,483 against 1,500,960 in 1912 which shows a decrease of 30,477 owing to the healthiness of the year. The total in-door attendance fell from 19,233 in 1912 to 18,664 in 1913, and the out-door attendance decreased to 1,451,819 from 1,481,727 in 1912. The ratio of deaths per cent. to total cases treated also fell to 2·99 in 1913 as compared with 3·31 in the previous year.

Statements C (i) and C (ii).

Diseases treated.

51. In Statement (i) the number of deaths under each head of diseases treated in the in-door department is shown; 18,664 in-patients were treated with a mortality of 550 against 19,233 in-patients and 636 deaths in 1912.

52. 153 normal confinements with no deaths and 123 abnormal confinements with 10 deaths were reported from the various hospitals, as compared with 145 with 3 deaths and 88 with 6 deaths respectively in 1912.

53. 1,451,651 out-door patients treated in 1913 are shown in Statement C (ii) against 1,481,727. The cases treated in the hospitals and dispensaries in Rajputana under each chief disease during the year 1912 and 1913 are as follows :—

Diseases.	1912.	1913.
Malarial fever	187,071	182,189
Diseases of the eye	231,917	233,635
Dysentery and Diarrhœa	51,706	47,203
Ulcers	151,138	137,390
Skin diseases	232,935	213,328
Syphilis	19,251	17,361
Injuries	36,531	41,453
Tubercle of the lung	1,217	1,577
Abscess of the liver	274	193

Scurvy.

54. 939 cases of scurvy were treated against 955 in 1912 and 1,503 in 1911.

Leprosy.

55. 454 Lepers received treatment as compared with 487 in 1912 and 436 in 1911. Leprolin is in use in a few places and Nastin continues to be used; no special reports were received this year.

Plague.

56. During the year from 1st April 1913 to 31st March 1914, 2,286 cases of plague and 1,885 deaths were reported and 103 towns and villages were infected in the Native States in Rajputana as compared with 6,037 attacks and 5,672 deaths and 83 towns and villages in 1912-13. The District of Ajmer-Merwara remained free from the disease throughout the year. The percentage of total plague deaths to population was 1·37 against 1·36 in the previous year (*vide* table attached).

57. Plague existed in Rajputana throughout the year and is still prevalent. The epidemic affected 7 Native States as compared with 9 States in the previous year.

58. *Bharatpur.*—Plague prevailed in this State from the preceding year until July 1913 and again from October to the close of the year. There were 965 seizures and 752 deaths reported in 52 towns and villages.

59. In April 1913 two cases and one death occurred in Bharatpur City, one of them was imported from Muttra.

60. *Karauli.*—One case was imported into the Karauli City and proved fatal.

61. *Jaipur.*—The disease lingered in this State until July 1913. It reappeared from September to 26th November and again from 3rd January 1914: in all there were 674 cases and 619 deaths; of these 41 attacks and 39 deaths were in the city and Plague Camp Hospital between the 1st April to the 8th May 1913.

62. *Alwar.*—There was practically no plague in the State up to September; early in this month an outbreak was reported from the Govindgarh town. 603 cases and 475 deaths were reported in 17 affected towns and villages. 660 inoculations were performed; of these 550 were done at Malakhera and 110 in Luchmangarh town.

63. *Kotah.*—Plague broke out at Keshaopura village in the Itawa Nizamat in the beginning of September; 25 cases occurred of which 24 proved fatal.

64. There was no indigenous plague during the year in Marwar or the Sirohi State: 14 imported cases with 13 deaths were reported in 5 towns and villages of the former and 4 imported cases were detained in the plague observation camp at Abu Road in the latter State.

65. Evacuation has been very readily carried out in infected towns and villages and is undoubtedly the great weapon of defence. The people themselves have learned by experience the value of this protective measure.

66. As the plague outbreak in Rajputana was comparatively slight, no map has been attached with this report.

Snake poisoning.

67. Calmette's Anti-venene is kept in stock in most main dispensaries and used for the treatment of snake poisoning when opportunity offers.

STATEMENT F.

68. Shows the classes and sexes of both in-door and out-door patients treated in the dispensaries of Ajmer-Merwara and of Native States. This calls for no comment as it is merely introduced for statistical purposes.

STATEMENT G.

69. The number of surgical operations performed during the year in Ajmer-Merwara and in Native States was 72,193 against 72,940, or a decrease of 747. The number of patients operated on was 71,792 as compared with 72,763 in 1912. The number cured amounted to 70,490, the number relieved 587, discharged otherwise 290, and died 114; against 71,691, 518, 190, and 102 in 1912; while 311 remained under treatment at the end of the year.

70. Of the operations performed 2,315 were extractions of the lens for Cataract of which 2,086 or 90·11 per cent. proved successful, 68 Lithotomies, 168 Litholapaxies and 201 Amputations against 2,331 extraction of the lens for Cataract, 42 Lithotomies, 146 Litholapaxies and 177 Amputations in 1912.

71. 471 abdominal operations were performed, of which 342 were Paracentesis of Abdomen, with 15 deaths, and 13 Abscess of the Liver with 3 deaths.

72. 1,809 operations were done at the Victoria Hospital, Ajmer, with 4 deaths as compared with 1,637 with 3 deaths in 1912; of these 78 were Extraction of the lens for Cataract, 31 Iredectomies, 7 Lithotomies, 13 Litholapaxies, 12 Radical cure of Hernia, 4 Abdominal Sections and Laparotomies and 16 Amputations.

73. There were 2,171 operations performed in the Mayo Hospital, Jaipur, with 23 deaths.

74. The operation work was distributed as follows :—

Lieutenant-Colonel J. Fisher, D.S.O., I.M.S.	823
Assistant Surgeon Daljang Singh Khanka	573
Assistant Surgeon Panna Lal Das	11
Miss L. Sykes, M.D.	427
Other members of the staff	337

The following special treatments were reported.

75. Lieutenant-Colonel J. Fisher, D.S.O., I.M.S., Residency Surgeon, Jaipur, reports that "the treatment of tubercular diseases by means of Tuberculin met with greater appreciation and success. The following table shows the different varieties of this disease treated :—

Tubercular disease of bones and joints	28
„ „ „ glands	42
„ „ „ lungs	38
„ „ „ abscesses	5
„ „ „ ulcers	3
TOTAL	116

Patients seem to appreciate the benefits derived by inoculation and have little prejudice against it."

76. Major C. M. Goodbody, I.M.S., Director, Medical Department, Bikaner State :—

"*Cataract.*—163 Cataracts were extracted of which 128 were by Smith's method—loss of Vitrens occurred in 34 cases, one drop in 28, slight in 5 and large in one—all these cases had good vision. Of all cataract operations good vision was recorded in all but two. There was no case of suppuration."

"*Other cases.*—Two exploratory laparotomies were done, both for malignant tumour which proved to be inoperable."

"Over 100 cases of Corneal opacities with pannus have been treated with injections of Cyanide of Mercury (1 in 4,000) with very good results on the whole."

"Neosalvarsan has been used frequently in the treatment of Syphilis with no bad effects and some most striking results."

"Quinine and Urea Hydrochloride has been used as a local anæsthetic in about 6 cases. It appears to need Ethyl Chloride to anæsthetise the skin unless injected very superficially."

"Emetine Hydrochloride has been used in cases of amœbic Dysentery and Hepatitis with most gratifying results. It has been given hypodermically in ½ gr. doses."

77. Captain M. F. White, I.M.S., State Surgeon, Alwar, has noted the following in his report:—

"Salvarsan has been fairly extensively used throughout the year. No bad results have been experienced in its use. It has invariably been given intramuscularly in doses generally 0·2 gramuel, occasionally 0·3. Neosalvarsan has also been used with good results and has the advantage of being simpler to prepare. Results have been in nearly every case satisfactory including several cases of tertiary and parasyphilitic lesions. An interesting case is that of a young girl, who has been under salvarsan treatment for several months. She had a growth the size of a large orange growing from lip and upper jaw, hanging down over her mouth. Syphilitic history was rather uncertain but the growth under salvarsan is steadily decreasing and is now reduced to two-thirds of its original size."

"*Nastin.*—Continues on its trial: its results are slow and the greatest difficulty is found in getting patients to continue the treatment. One case who last year was under this treatment still attends for injections; his general health is certainly wonderfully improved, and when an old ulcer reappears, he invariably returns and asks for more."

78. Captain White had good success in several cases of tetanus with Carbolic injections.

79. "*Surgical cubes.*—Cesarean section for contracted pelvis. The child lived but the mother died from shock."

"Discission of lens for High Myopia (18 D) Four needlings. The lens is now almost completely absorbed, and the patient has good vision."

STATEMENTS H AND J.

Financial Statements.

80. Statement H shows the income and expenditure of the Government Dispensaries and Hospitals and the expenditure on those in Native States.

81. The total income of the Ajmer Victoria Hospital and dispensaries in Ajmer-Merwara was R24,158 as compared with R21,972 in 1912; this increase is partly due to the fact that arrears of subscriptions were recovered from the Raja of Pisangan and the Thakur of Deolia and partly that subscriptions from Indians rose from R4,047 in 1912 to R5,846 in 1913. The value of the invested capital of the dispensaries in this Division remained the same as in 1912, *i.e.*, R8,500.

82. In Ajmer-Merwara the total expenditure rose from R17,005 in 1912 to R17,980 in 1913, chiefly under heads "Medicines and diet."

83. *Native States.*—The total expenditure on hospitals and dispensaries in Native States of Rajputana rose from R4,18,116 in 1912 to R4,29,535 in 1913 which is due to increase under all heads except under head "Miscellaneous."

84. Of the total costs on hospitals and dispensaries in these States R80,799 were expended in Jaipur, R63,313 in Marwar, R48,096 in Mewar, R47,895 in Bharatpur, R42,867 in Kotah, R41,228 in Bikaner, R32,379 in Alwar, R12,529 in Tonk, R10,882 in Jhalawar, R10,227 in Dholpur, R5,600 in Karauli, R4,598 in Banswara, R3,450 in Kishangarh, R3,090 in Jaisalmer, R3,086 in Sirohi, R2,971 in Shahpura, R2,511 in Dungarpur, R2,317 in Partabgarh, R2,011 in Bundi, and R1,012 in Kushalgarh.

85. The average cost of each case treated in Ajmer-Merwara and in the Native State hospitals and dispensaries was 47 pies and 61 pies against 41 pies and 58 pies in 1912.

Mission Hospitals.

86. During the year there were seven Mission Hospitals in Rajputana, the same as in 1912.

87. The following table shows the total number of in and out-door patients treated and operations performed in these institutions in 1913 :—

Names of Hospitals.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old.	New.	Total.			
Ajmer (Male) .	71,071	13,857	84,928	64	2,530	
Ajmer (Female) .	11,386	7,730	19,116	339	330	1,343 were visited at their homes.
Nasirabad . .	28,323	11,604	39,927	294	1,430	
Tonk and Deoli .	3,337	1,923	5,260	7	69	
Udaipur . .	30,460	14,056	44,516	347	1,326	
Jaipur . .	7,073	2,666	9,739	25	78	446 were visited at their homes.
Piploda . .	6,440	3,405	9,845	...	89	323 were visited at their homes.
Jodhpur . .	59,245	10,263	69,508	118	1,046	271 were visited at their homes.
Total .	217,335	65,504	282,839	1,194	6,958	

88. It should be noted that these medical statistics are for the Mission financial year from 1st October 1912 to 30th September 1913.

89. Ashapura Dispensary appears to have been closed during the year. Tonk and Deoli Dispensary was opened for four months only.

Railway Hospitals.

90. There were 499 in and 31,459 out-door patients treated and 922 operations performed during the year in the eight Railway dispensaries on the Bombay, Baroda and Central India Railway within the limits of Rajputana as per details below :—

Station.	Number of patients treated.			Operations performed.	Remarks.
	In-door.	Out-door.	Total.		
Rajputana-Malwa Railway.					
Ajmer	165	9,752	9,917	244	
Phulera	88	6,386	6,474	218	
Bandikui . . .	95	6,283	6,378	77	
Sojat Road . . .	...	1,507	1,507	121	
Abu Road . . .	90	2,613	2,703	189	
Nagda-Muttra Railway.					
Kotah Junction . .	46	1,917	1,963	37	
Gangapur . . .	15	3,001	3,016	36	
Total .	499	31,459	31,958	922	

91. Six hundred and seventy-seven patients were visited at their homes at Ajmer by the Railway Medical Staff.

JAILS.

92. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail rose from 265·03 in 1912 to 306·88 in 1913. The total number of admissions into Hospital and the daily average number of sick was 237 and 8·32 against 275 and 11·92 in the previous year. No deaths occurred in 1913. The percentage of sick to strength shows that the general health of the prisoners has been good.

93. R2,908-4-1 were spent by the Public Works Department on the Jail buildings as follows :—

Additions and alterations.

94. (1) Barracks Nos. 18 and 19 were provided with iron gratings and shelves for R1,408-2-8.

(2) Annual repairs to Jail buildings and staff quarters, etc., were carried out at a cost of R1,500-1-5.

95. The Review by the Commissioner, Ajmer-Merwara, on the strength, classification, health, employment and conduct of prisoners, nature of sentences, jail manufactures and expenditure of the jail is given as Appendix A of the report together with statements.

Native States.

96. The daily average number of prisoners in the Jails in the Native States fell from 4,026·03 in 1912 to 3,923·93 in 1913, the daily average number of sick from 115·88 to 77·67, mortality from 84 to 56 and the ratio of death per mille of population from 19·88 to 14·27.

97. There was no Cholera or other epidemic disease in any of the Jails in Rajputana in 1913 excepting one fatal case of Cholera in the Tonk Jail and 18 cases of Pneumonia in the Alwar Jail.

98. There were no deaths in the Jails at Shahpura, Jhalrapatan, Partabgarh and Dungarpur.

99. *Jaipur.*—In both the Central and District Jails the daily average number of sick, the mortality and the ratio of deaths per 1,000 of population was less than in the previous year, an indication of the healthiness of the prisoners.

100. The following works were carried out at the Jaipur Jails :—

Central Jail.—Opening of four doors in the Kotri of wards Nos. 23, 4 and 5.

Laying a water pipe from the tank to " Hauz " for soaking waste paper.

District Jail.—Renewing plastering of the Compounder's, Dresser's, and Sub-Assistant Surgeon's quarters.

101. Substantial progress is being steadily made in all departments and manufactures under the able superintendence of Rai Bahadur Rai Sahib Naurang Rai Khetan and the comfort, accommodation and health of the prisoners is excellent.

102. *Jodhpur.*—The average number of prisoners fell to 423·56 in 1913 from 574·43 in 1912 and the number of admissions to hospital from 241 to 151. Four deaths occurred amongst the convicts, Malarial fever (1), Diarrhœa (1), Syphilis (1) and diseases of the Liver (1).

103. *Udaipur.*—There has been overcrowding throughout the year. The health of the prisoners was good except for an epidemic of mumps which lingered till the end of the year. The mortality and death rate rose from 9 and 17·01 in 1912 to 11 and 20·16 in 1913.

104. *Alwar.*—The health of this Jail has improved considerably within the year. The daily average number of prisoners rose from 491·83 in 1912 to 519·10 in 1913, but the total number of cases admitted into hospital fell from 248 in 1912 to 203 in 1913, the mortality from 14 to 6 and the death rate per mille from 28·46 to 11·56.

105. Pneumonia spread epidemically in this Jail. There were 18 seizures during the quarter ending 31st December 1913. Nearly all the cases occurred amongst prisoners working on the grinding mills.

106. *Bikaner.*—The total number of admissions into hospital rose from 2 to 39, the daily average sick from 0·17 to 1·90, the mortality from 2 to 4 and the death rate per mille from 9·24 to 16·19.

107. *Kotah.*—There were 162 admissions to the Jail hospital in 1913 out of an average daily strength of 343·85. The mortality and death rate fell from 18 and 49·21 in 1912 to 7 and 20·36 in 1913.

Qualified Medical Staff.

108. Lieutenant-Colonel R. C. MacWatt, I.M.S., Civil Surgeon, Ajmer, and Chief Medical Officer in Rajputana, held visiting medical charge of the Bikaner State in addition to his own duties from 25th March to 24th September 1913 while Major C. M. Goodbody, I.M.S., Principal Medical Officer in the Bikaner State, was on six months' combined leave to Europe.

109. Lieutenant-Colonel W. H. B. Robinson, I.M.S., on return from combined leave resumed charge of the duties of Civil Surgeon, Ajmer, and Chief Medical Officer in Rajputana, on the 7th November 1913, from Lieutenant-Colonel R. C. MacWatt, I.M.S., who was posted as Agency Surgeon, Eastern Rajputana States, Bharatpur, from that date, *vice* Major J. W. Watson, I.M.S., transferred to Bhopal in Central India.

110. Mr. D. G. Newland, L.R.C.P. & S., Edinburgh, was on plague duty at Abu Road throughout the year.

Military Assistant Surgeons.

111. Assistant Surgeon R. J. K. Stone, Indian Subordinate Medical Department, on return from privilege leave resumed charge of the Northern India Salt Revenue Dispensary at Sambhar on the forenoon of the 5th March 1913 from C. H. F. Quick, Indian Subordinate Medical Department, who reverted to his military appointment at Meerut.

Civil Assistant Surgeons.

112. There were five Government Assistant Surgeons, two employed in the Ajmer-Merwara District, one at Jaipur, one at Khetri and one at Bharatpur.*

Military Sub-Assistant Surgeons.

113. There were ten Military Sub-Assistant Surgeons employed with the Imperial Service Corps in Rajputana as in the previous year with the following regiments :—

Alwar 1st Lancers	2
Alwar Fateh Paltan	2
Bharatpur Transport	2
Bharatpur Infantry	2
Jaipur Transport	1
Bikaner Camel Corps	1

Civil Sub-Assistant Surgeons.

114. During the year four Sub-Assistant Surgeons were absorbed in the Central Provinces and one in Burma from the Native States as noted below :—

Central Provinces.

Bharatpur	3
Native State Reserve List of Rajputana	1

Burma.

Bharatpur	1

115. At the close of the year there were 171 Government Sub-Assistant Surgeons on the rolls against the sanctioned strength 176, there being five

vacancies, four on the Native State Reserve List and one in Marwar. Out of 176 Sub-Assistant Surgeons 23 were permanently on the Government List and 153 were working in the Native States.

116. There were four Lady Doctors employed in the following Native States against five in the previous year :—

Lady Doctors.

Kotah	1
Jodhpur	1
Tonk	1
Jaipur	1

117. Lady Doctor Miss T. Canagasby, in charge Walter Female Hospital at Udaipur, resigned her appointment in April 1913.

118. There were eight female Sub-Assistant Surgeons attached to the following Hospitals and Women's Wards against 9 in 1913 :—

Female Sub-Assistant Surgeons.

Alwar, Dufferin Hospital	2
Jodhpur, Jaswant Hospital for women	1
Jodhpur, Hewson Hospital	1
Kotah, Victoria Jubilee Hospital	1
Tonk, Walter Female Hospital	1
Bikaner, Bhagwandass Hospital	1
Beawar Dispensary	1

Female Hospitals and Dai Class.

119. *Ajmer.*—No Sub-Assistant Surgeon has yet been appointed to the medical charge of the female wards of the Victoria Hospital, Ajmer, for want of funds. Two Lady Doctors superintend the Mission Hospital for women where many patients are treated.

120. *Beawar.*—Sub-Assistant Surgeon Pandita Sunder Lali was in charge of the Female Ward of the Charitable Dispensary at Beawar up to 30th April 1913 when she resigned her post, Sub-Assistant Surgeon Miss Q. Houlton was appointed and put in charge of the Ward on the 14th September 1913.

121. *Native States.*—The returns received from the Women's Hospitals in the Native States of Rajputana show on the whole a considerable decrease of work done during the year which is probably due to the healthiness of the year and the absence of female aid in several institutions.

122. *Jodhpur.*—Miss B. G. C. Griffen, M.B., B.C.H., B.A.O. (Dublin), has been in charge of the Jaswant Hospital for women at Jodhpur throughout the year. There were 100 in and 3,523 out-door patients treated against 74 in and 3,337 out-door patients in the previous year, an increase of 212.

123. *Kotah.*—Miss J. Newton, L.R.C.P. & S. (Edinburgh) and L.F.P.S. (Glasgow), has been in charge of the Victoria Jubilee Hospital at Kotah throughout the year. There is a considerable decrease in the number of out-door patients treated which is due to the fact that the Lady Superintendent was temporarily absent for some time.

124. "A Dai Class was started by the Lady Superintendent in April 1913, with an admission of 4 pupils: all 4 came from the Kotah districts. After a month's training one of them was found not a promising pupil, so she was sent back to her home. Three continued on, and after a course of 4 months' training they were examined by the Agency Surgeon, and all the 3 passed with credit and received certificates to practise as Dais."

125. *Tonk.*—Miss K. Reed, L.R.C.P. & S. (Edinburgh), L.F.P.S. (Glasgow), and L.M.R.C.P. & S. (Ireland), has been in charge of the Walter Zenana Hospital at Tonk throughout the year. 230 in and 6,936 out-door patients were treated as compared with 240 in and 7,693 out-patients in the previous

year; the decrease in both the attendances is partly owing to the outbreak of Cholera in Tonk and partly to the marked decrease in the prevalence of Malaria on account of scanty rainfall. There were 367 operations performed against 387 in 1912.

126. *Jaipur.*—Miss L. E. Sykes, M.D. and L.R.C.P. & S. (Edinburgh), has been in charge of the Female Wards of the Mayo Hospital at Jaipur throughout the year. There was an increase in out-door attendance. There were 532 operations on women performed against 503 in 1912.

127. The compounding, dressing and nursing in the female wards is entirely done by females.

128. *Alwar.*—Female Sub-Assistant Surgeon Bala Bai has been in charge of the Dufferin Hospital at Alwar throughout the year. No Lady Superintendent has been appointed since April 1911. The number of in-patients treated during the year was 330 and of out-patients 15,611 against 462 in and 14,439 out-door patients in 1912. 874 operations were performed against 819 operations in the previous year.

129. *Udaipur.*—Lady Doctor Miss T. Canagasby was in charge of the Walter Female Hospital at Udaipur up to the 16th April 1913 when she resigned. There were 50 in and 1,293 out-door patients treated against 148 in and 3,039 out-patients in 1912.

130. As there is no female aid available, a compounder from the Lansdowne Hospital has been posted to look after the surgical instruments, appliances and furniture in that institution.

131. Qualified female medical aid is urgently needed for the women of this place.

132. *Bharatpur.*—Sub-Assistant Surgeon Bibi Rup Kuar in charge of the Female Hospital at Bharatpur resigned her appointment on the 1st September 1913 from which time the Hospital is temporarily in charge of a Male Sub-Assistant Surgeon. The appointment is still vacant as no Hindu candidate has yet been procurable. 247 in and 5,054 out-door patients were treated as compared with 301 in and 6,280 out-door patients in 1912. The decrease is due to the absence of a Female Sub-Assistant Surgeon for the last four months of the year.

133. *Bikaner.*—Sub-Assistant Surgeon Mrs. Elizabeth Moji Ram has been in charge of the female wards of the Bhagwan Das Hospital throughout the year. There was a decrease in both the in and out-door attendance as compared with the previous year.

134. Qualified Lady Doctors are decreasing in Rajputana. It is very noticeable from the returns how little purely obstetrical and gynæcological work is really done in the women's hospitals of the Native States.

135. *Dai Class, Ajmer.*—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dai Training Class, Ajmer, throughout the year. The 9 pupils mentioned in the last year's report as being under instructions continued to work to the end of the session when they were examined by the Civil Surgeon. They all passed and obtained their certificates and the usual honorarium which is given to successful candidates.

136. Five pupils (midwives) were admitted into the current year's class, of whom one came from Bharatpur, one from Tonk, one from Jodhpur and two from Jaipur, one of whom has since been discharged as unlikely to prove efficient; she was replaced by a local candidate.

137. During the year 13 in-door and 55 out-door maternity cases were treated and 133 persons sought advice and were treated.

Imperial Service Troops.

138. The hospitals of the Native State Imperial Service Troops are all well equipped; they are under the medical charge of Military Sub-Assistant Surgeons except those at Jodhpur which are under the medical charge of State enlisted Assistant Surgeons. The Mewar Imperial Service Squadron

at Udaipur has been placed under the medical charge of the Civil Sub-Assistant Surgeon in charge Jail Hospital there.

LUNATICS.

139. *Ajmer.*—There were 4 lunatics in the Central Jail, Ajmer, on 1st January 1913 and 21 were admitted during the year, a total of 25 : of these 7 were transferred to the Lahore Lunatic Asylum, 1 to Yeravda Asylum, 8 were made over to their friends, 6 were discharged as cured and 1 died and 2 removed at the close of the year.

140. *Native States.*—158 lunatics were treated in 1913, of whom 31 were cured, 23 made over to their friends, 3 transferred to the Agra Lunatic Asylum (from Bharatpur), 9 died, 1 relieved and 91 remained under treatment, chiefly in the Jaipur Lunatic Asylum.

W. H. B. ROBINSON, *Lieut.-Col., I.M.S.,*
Chief Medical Officer in Rajputana.

AJMER, *the 22nd May 1914.*

Table showing the severity of the epidemics in certain Native States and Ajmer-Merwara District as well as the rapidity of its spread in recent years and the percentage of total plague deaths to population since 1896.

APPENDIX A.

Review on the Ajmer Jail Report for the year 1913.

Charge.—The charge of the office of the Superintendent, Central Jail, was held by Lieutenant-Colonel R. C. MacWatt, I.M.S., from the beginning of the year to the 6th November 1913 and by Lieutenant-Colonel W. H. B. Robinson, I.M.S., for the rest of the year.

2. *Population.*—At the commencement of the year there were 289* prisoners, including convicts and undertrials. The number of prisoners admitted to the Jail during the year was 1,495, against 1,266 in 1912, of whom 776 were convicts, 711 undertrials and 8 civil prisoners.

* Convicts	237
Undertrials	52
	289

The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

—	1912.	1913.
Convicts	673	726
Undertrials	584	717
Civil	12	8
	1,269	1,451

The number of prisoners remaining at the close of the year was 333 against 289 in 1912—

Convicts	287
Undertrials	46
	333

The daily average number of prisoners was 306·88, *i.e.*—

Convicts	271·40	against	242·36 in 1912.
Undertrials	35·20	„	21·49 „ „
Civil	0·28	„	1·18 „ „

3. *Disposal of convicts.*—The following table compares the disposal of convicts (726) during the year under review with that of the preceding year :—

—	1912.	1913.
Released on appeal	65	73
Released on expiry of sentence	453	547
Released on payment of fine	28	25
Released under remission rules for good conduct	75	51
Released on account of sickness	1	*Nil*
Transferred to other Jails	49	27*
Died in Jail	1	*Nil*
Executed	1	2
Transferred to Lunatic Asylum	*Nil*	1
	673	726

*One was transferred for transportation beyond seas.

4. *Classification of Convicts.*—Excluding the 36 convicts received from other jails, the remaining 740 convicts admitted in the jail are classified as follows :—

Hindus	456
Mahomedans	276
Europeans	2
Eurasians	2
Native Christians	4

According to age classification, 13 were under 16 years, 570 between 16 and 40, and 144 between 40 and 60, and 13 above 60 years of age.

According to sex, 706 were males and 34 females.

Of the 706 male convicts, the majority were agriculturists, domestic servants and labourers as will be seen by the details in the margin.

Agriculturists	229
Labourers	224
Shop-keepers and traders	51
Domestic servants	117
Miscellaneous occupation	3
Government servants	29
No occupation	53
TOTAL	706

5. Of the 740 convicts admitted in the Jail, 105 were awarded simple imprisonment, 611 rigorous imprisonment, 16 rigorous imprisonment with solitary confinement and 8 rigorous imprisonment with whipping.

The number of convicts sentenced to various terms of imprisonment was as follows :—

PARTICULARS.	Simple imprisonment.	Rigorous imprisonment.	Rigorous imprisonment with solitary confinement.	Rigorous imprisonment with whipping.
Not exceeding one month	76	183	...	2
Above 1 and not exceeding 3 months	23	172	...	2
„ 3 „ 6 „	4	108	2	1
„ 6 months and not exceeding 1 year	2	71	1	2
„ 1 year „ 2 years	...	37	10	...
„ 2 years „ 5 „	...	19	2	1
„ 5 „ „ 10 „	...	9	1	...
Sentenced to transportation beyond seas for life.	...	6	...	...
Sentenced to death	...	6	...	...
TOTAL	105	611	16	8

6. *Previous conviction.*—The number of previously convicted prisoners admitted during the year under review was 164 as compared with 128 in the previous year, their percentage to the total number of convicts admitted being 22·16.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 229·79, of whom 11·99 were employed as prison officers, 25·05 as prison servants, 7·44 on gardening, 35·76 on preparing articles for consumption in Jail and 138·74 as manufacturers. The daily average number exempted from labour was 10·38.

8. *Conduct of prisoners.*—The number of jail punishments of all kinds inflicted was 198 as compared with 226 in 1912. They are classed as below:—

By Jail officers.	Solitary confinement	30
	Reduced diet	3
	Corporal punishment	1
	Other	164
		198

9. There was no escape from the jail during the year under review.

10. *Health.*—The general health of the prisoners was good throughout the year. The number of admissions to the Jail Hospital was 237 against 275 in 1912. There was no death as compared with one in 1912.

11. *Juvenile offenders.*—There was no juvenile prisoner in the Jail on 1st January 1913. 13 boys were admitted during the year under review, of whom 11 were released, one was transferred to the Reformatory School at Chunar and one remained in the Jail on the 31st December 1913. No prison offence was recorded against them during the year.

12. *Jail manufactures.*—The profit from Jail manufactures amounted to R1,566-4-7 against R2,993-6-6 in 1912 and the average earning per head of prisoners employed on Jail manufactures consequently fell from R26-5-5 in 1912 to R11-4-8 in 1913.

13. *Expenditure.*—The total expenditure in guarding and maintaining the prisoners, including that incurred (1) by the Public Works Department on the buildings and repairs and (2) by Magistrates in guarding and maintaining undertrials, amounted to R27,537-4-1. The average cost per prisoner during the year was R74-0-1 against R79-5-1 in the preceding year.

14. *Inspection.*—The Jail was inspected three times, and not twice as stated in the Superintendent's annual report, by the Commissioner and Inspector-General of Jails, Ajmer-Merwara.

A. T. HOLME, *I.C.S.*,
Commissioner, Ajmer-Merwara.

GENERAL SUMMARY

Showing the Distribution of the Prisoners of all classes confined in the Ajmer Central Jail during the year 1913.

Vide Instructions issued with Jail Department Circular No. 42 of 1885.

1	2	3	4	5			6			7			8			9			10			11		
Serial No.	Station.	Place of confinement.*	Classes of prisoners.	Remained at the commencement of the year.			Received during the year.			Total.			Discharged from all causes.			Remaining at the end of the year.			Daily average number of each class.			Total daily average of whole Jail.

Female	3,423	9·38	12	†34	46	2	...	48	1	1	5	30	...	...	...	3	...	...	...	...	...	8
Total	99,060	271·40	237	740	977	36	...	1,013	26	1	73	547	25	...	...	51	...	1	...	2	...	287

* Of this number 13 boys under 16 years. † Of this number 10 girls under 15 years.

NOTE 1.—In this and the other statements numbered 1 to 7 only convicted prisoners are to be included.

2.—Debtors and others detained for default of Government revenue will appear in No. 8.

3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.

4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.

5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.

6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.

It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.

7.—When the gangs are employed extra-murally under the orders of Government, No. 1632—43, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

W. H. B. ROBINSON, *Lieut.-Col., I.M.S.*,
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE:
The 20th February 1914.

Female	...	...	...	5	29	...	...	...	25	9	...																
Total	2	2	4	276	456	...	...	13	570	144	13	...	229	224	51	...	117	3	29	53	19	4	9	2	706	34	740

NOTE.—It is of importance that the particulars given in this, and also in No. 3, should not include the same individual more than once, and hence all transfers should be omitted.
The Totals should correspond with the number in column 5, Statement I: "Imprisoned during the year." But they should do so with the "Total," column 6, for January only, as the number remaining on the last day of the previous year (31st December) is to be included in that month.

STATEMENT No. III.—*Statement showing the convicts admitted into the Jail at Ajmer during the year 1913 and those remaining on the 31st December of that year, according to the nature and length of sentence.*

The Female column should be filled in italics.

TOTAL	271·40	...	56	79	63	...	30	...	3	1	164	198	72·95

The nature of the criminal offences committed should be noted on the back of this return.
* In contradistinction to offences against prison discipline.

W. H. B. ROBINSON, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE:
The 20th February 1914.

STATEMENT No. VIII.—*Statement showing the employment of convicts as Prison Officers in the Central Jail at Ajmer for the year 1913.*

1	2	3	4	5	6	7
SEX.	Average number of convicts.	Average number employed as Prison officers.	Ratio of column 3 to column 2.	Total number employed as Prison officers.	Number of reductions or other punishments.	REMARKS.
Male . . .	262·02	11·99	4·58	12	...	Convict Warders . . . 2 Do. Overseers . . 9 Do. Writers . . ... Do. Mohurrir . . 1 TOTAL . 12
Female . . .	9·38	...	...	...	...	
TOTAL .	271·40	11·99(*c*)	4·42	12(*a*)	...(*b*)	

(*a*) The nature of the offices held by convicts should be given in column of remarks.

(*b*) Detail of the nature of punishments ordered should be given as directed in paragraph 19 of the Government Review on the Jail Reports for 1884.

(*c*) Column 3 should tally with column 7 B of Return No. XII. Column 5 should show the total number of convicts employed as Warders, etc., and not merely the total sanctioned number of situations.

STATEMENT No. IX.—*Statement showing the Scales of Diet in force in the Ajmer Central Jail during the year 1913.*

1	2	3	4
Diet scales of Labouring Prisoners.	Diet scale of non-labouring prisoners.	Punishment diet scale.	Note of any change effected in diet scales during the year.
Atta of Gram 1/3 „ Barley 2/3 } 12 Chittaks daily. Dâl alternately . . 2 Chittaks. Vegetables alternately 8 „ Oil with vegetables 4/25 „ Salt „ „. 1/4 „ „ „ Dâl . . 1/6 „ Chillies with vegetables 2 M. „ „ Dâl 1 „ Fuel 5 Chittaks.	Atta 8 Chittaks on Sundays and Mondays and 10 Chittaks on other days. Other articles are same as for labouring prisoners.	Labouring prisoners 8 Chittaks atta, with the usual quantity of salt; the period of this diet is ninety-six consecutive hours.	Prisoners on Mills are given 14 Chittaks of atta instead of 12 Chittaks, *vide* paragraph 7 of letter No. $\frac{7}{248}$ II, dated 20th July 1899, from the First Assistant to the Honourable the Agent to the Governor-General for Rajputana.

NOTE.—A complete statement of all the Diet Scales in use for labouring prisoners according to length of sentence should be given in column 1, with details as to the articles used, and the variations in different days of the week.

W. H. B. ROBINSON, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER JAIL OFFICE:
The 20th February 1914.

STATEMENT No. X (FINANCIAL).—*Showing the expenditure in guarding and maintaining the prisoners in the Central Jail at Ajmer during the year 1913, excluding the cost of building new Jails, of Additions, Alterations, or Repairs.*

	GRAND TOTAL .	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	...	24,629	...	...

When prisoners of different classes are confined in the same Jail, the expenditure on establishment and other items with which all are concerned should be divided over all. The cost per head under any item of expenditure is to be calculated on prisoners actually concerned in it or contributing to it, and not otherwise. Hospital charges (col. 7) should include rations and also the cost of medicines supplied from the Bazar and the Medical Store Depôt. In this series (Financial) annas and pies are only to be shown where there are columns for them.

STATEMENT No. XII.—*Showing the employment of convicts in the Jail at Ajmer during the year 1913.*

1915

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1914,

AND ON

VACCINATION FOR THE YEAR 1914-1915.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

Rainfall in Ajmer.

1. During the year under report 19·62 inches of rain were registered in Ajmer against 15·50 inches in 1913. Owing to the scantines of the monsoon rainfall during the last five years, *i.e.*, since 1910 it did not provide sufficient water in all tanks and wells throughout the district, and the ground water level in the wells fell considerably.

Rainfall in Native States.

2. The rainfall recorded in Rajputana on the whole was satisfactory. All wells and tanks were filled up; but on account of unfavourable winds Khariff Crops were not so good as anticipated. The out-turn of the Rabi Crops is expected to be fairly good. Grass is abundant in all Native States.

New Instrument.

3. The Lawrence and Mayo self recording Raingauge was brought into use at the Jaipur observatory from the 20th April, 1914. It gives excellent tracings on the charts which are being sent to the Meteorological Office, Simla, every month for comparison with the records of the Common Raingauge there.

VITAL STATISTICS, BIRTHS AND DEATHS.

Births in Ajmer-Merwara.

4. During the year under report 23,515 births were registered in Ajmer-Merwara against 21,656 in 1913, an increase of 1,859 which may be ascribed to improved general welfare among the people on account of good crops. Of the total births registered 12,393 were males and 11,122 females, the birth rate was 46·90 per mille of population against 43·19 per mille in the previous year. The percentage of male to female births was 111·43 against 110·50 in 1913. The birth rate exceeded the death rate by 16·57 per mille as compared with 17·34 in the previous year.

Deaths in Ajmer-Merwara.

5. The total number of deaths registered in this Division during the year under report was 15,208 against 12,960 in 1913 an increase of 2,248 due to all causes of deaths with the exception of Bowel Complaints and specially to fevers; Malarial fever being much more prevalent than in the preceding year, the result of a heavier rainfall. The death rate per mille of population was 30·33 against 25·85 in the previous year.

6. The mortality among children under five years of age was 60 per cent. of the total deaths against 54 per cent. in 1913.

Number of Cholera cases and deaths reported in Ajmer Merwara and in Rajputana during the year 1914.

7. Only 10 cases of Cholera were reported in Ajmer-Merwara, of which 9 proved fatal. Of these 8 cases and 7 deaths occurred in March and 2 cases and 2 deaths in August 1914 against *nil* in 1913.

Ajmer-Merwara.

8. During the year 3,185 cases of Cholera were reported from the Native States of Rajputana, of which 1,618 proved fatal against 6,533 cases and 4,085 deaths in the previous year.

Native States.

9. In April Cholera broke out in Tonk and Bikaner about the same time and extended to Kotah, Jhalawar, Marwar, Bharatpur, Jaipur and Alwar.

10. In Kotah 1,999 attacks and 1,030 deaths were reported from 7th May to 4th October, of these 687 seizures and 353 deaths occurred in Kotah city; in Tonk 491 cases and 217 deaths from April to September, of these 303 cases and 116 deaths occurred in Tonk city; in Jhalawar 363 cases and 176 deaths and in Bikaner 170 cases and 77 deaths.

11. Usual measures for its eradication were taken.

12. No Cholera map is necessary.

SANITATION.

13. The scheme for the supplemental water supply in the City of Ajmer from Bhaonta is nearly completed. The pumping is expected to begin with effect from the 1st April 1915. The question regarding acquisition of land is being dealt with by the authorities concerned.

Ajmer City.

14. The steam tramway now performs valuable work for all conservancy purposes from the conservancy tramway station to the trenching ground.

15. Three incinerators are still in use and sanction for the construction of several more has been accorded but they have not yet been erected.

16. One two seated galvanized iron latrine, one four seated and two two seated urinals have been provided in the Suburbs and one one seated urinal in the City.

17. The Sanitary arrangements are insufficient and very backward and required special attention of the Municipal Department.

18. *Beawar.*—The supply of water from Jalia is good and ample. It is under consideration to give connection to private dwellings.

19. There are signs of steady improvement in the matter of sanitation.

20. The Conservancy Inspector has arrived after training at the Medical College, Lucknow, and it is hoped that he will supervise this work more satisfactorily.

NATIVE STATES.

21. *Jaipur.*—The city conservancy tramway worked satisfactorily throughout the year. Rubbish and city sweepings are burnt in incinerators. 74 latrines were newly constructed and 19 old latrines were repaired.

22. As reported by the Superintending Engineer the following steady improvement has been made in the Conservancy arrangements for the Jaipur City :—

(1) The pavement of the bottom of the Causeway of Gundah Nullah in the Residency Ram Bagh Road was repaired, the old pavement being sunk deep in the bed of the Nullah.

(2) The channel draining water of the ground round the Theatre and of Tuksal Bazaar had silted up, they were redug to allow of unobstructed flow of water into the Raja Mull's tank.

23. *Jodhpur.*—The tanks and wells in Jodhpur city and most districts were fairly well filled and consequently there was no deficiency of water supply throughout the year.

24. *Bikaner.*—The Sanitation is in the hands of the Municipal Committee.

25. *Kotah.*—The Sanitary arrangements of Kotah City and of the districts are well looked after by the Municipal Committee. Many improvements have been made during the year in the Kotah City with regard to the cleanliness of latrines and the various streets of which many have been paved and thoroughly repaired.

VACCINATION.

STATEMENT I.

26. In Ajmer-Merwara including Nasirabad primary vaccinations rose from 15,260 in 1913-14 to 15,805 in 1914-15, an increase of 545 and the number of re-vaccinations from 32 in 1913-14 to 101 in 1914-15. The total mortality from small-pox was 23 against 20 in the previous year. Of these, 15 deaths were reported in the Ajmer District and 8 in Merwara.

27. The number of vaccinators was 15, the same as in 1913-14, and one Native Superintendent; each vaccinator performed an average of 1,060 operations against 1,019 operations in 1913-14; and the cost of each successful case fell from 45 pies to 44 pies in 1914-15.

28. The Civil Surgeon, Ajmer, inspected 1,933 vaccinated children, against 1,602 in the previous year, of whom 1,877 were found successful: and the Superintendent of Vaccination at Nasirabad examined 708 children, all of whom proved successful.

29. The Native Superintendent inspected 382 villages against 373 in the previous season and examined 8,011 vaccination operations as compared with 7,839 in 1913-14. The percentage of success amongst cases seen was 97·02 against 98·27 in the previous year.

30. 29·81 per thousand of the population in Ajmer-Merwara were successfully vaccinated, against 28·75 in 1913-14.

31. The vaccination returns from the Native States show 273,077 primary vaccinations, against 269,136 in 1913-14, an increase of 3,941 which indicates satisfactory progress. Re-vaccination fell from 603 in 1913-14 to 427 owing to the non-prevalence of small-pox in epidemic form.

General operations in Native States. Statement I.

32. There were 160 vaccinators, against 159 in the previous year, Jaipur and Bikaner having each reduced their establishment by one, whereas three vaccinators already employed in Jaisalmer, Banswara and Dungarpur States are shown for the first time in the Annual Vaccination statements for the year under report. In Deoli Cantonment vaccinations were performed entirely by the Sub-Assistant Surgeon attached to the Agency Hospital.

33. 25·29 per thousand of the population in the Native States were successfully vaccinated, as compared with 24·96 in 1913-14.

34. In the Marwar State 157 primary vaccinations were performed by Sub-Assistant Surgeons in dispensary towns with a recorded percentage of success of 95·54 and 205 vaccination operations were done by Sub-Assistant Surgeons in Sirohi State.

STATEMENT II.

35. The total expenditure on vaccination in Native States was R32,160-7-10 as compared with R31,750-0-10 in 1913-14, an increase of R410-7-0 which is due to the increased expenditure on establishment and contingencies. The average cost of each successful vaccination in different States varied from 9 pies in Sirohi to 120 pies in Jaisalmer.

Expenditure on vaccination.

36. The following table shows the number of towns and villages inspected

and successful vaccination seen by Residency or Agency Surgeons in Native States :—

Designation.	Number of towns and villages inspected.	Number of successful vaccination cases seen.
The Agency Surgeon, Eastern Rajputana States . . .	297	4,792
The Director, Medical Department, Bikaner . . .	4	3,578
The State Surgeon, Alwar	37	732
The Residency Surgeon, Mewar	24	607
The Residency Surgeon, Jaipur	2	415
The Residency Surgeon, Western Rajputana States . .	1	351
The Agency Surgeon, Kherwara, and Medical Officer, Dungarpur	6	140

37. During the year under report the vaccination work inspected by Residency or Agency Surgeons in Native States was very small which is due to the fact that many officers of the Indian Medical Service were transferred to military duty on account of the war on the commencement of the vaccination season .

38. The Native Superintendents of Vaccination or other inspecting officers inspected 107,157 vaccinations against 110,850 in 1913-14. The percentage of inspected cases found successful among the total number seen in 1914-15 was 98·79 against 98·50 in 1913-14.

39. Lymph is kept up throughout the year in most of the important States by arm to arm vaccination ; glycerinated vaccine lymph was obtained during the year from the Government Bovine Lymph Depôts and was generally successful.

40. The Residency Surgeon writes that Buffalo Calf Lymph was prepared at the Mayo Hospital Bacteriological Laboratory, Jaipur, for vaccination work and the result was good. 447 children were vaccinated with the lymph of whom 389 were successful, 28 with result unknown and 30 unsuccessful. Proposals have been made to the State Council that with a small extra cost it could be supplied all over the district to do away with arm to arm vaccination.

Section II.—DISPENSARIES.

Statement A.

Number of Dispensaries.

41. The year opened with 174 hospitals and dispensaries in Rajputana and closed with 177 an increase of three. An Agency Dispensary at Kotah was opened on 1st April, 1914, one Dispensary at Nawalgarh in Jaipur State on 12th August, 1914 and one at Sikri in Bharatpur on 13th October, 1914.

The Dispensaries are classified as under :—

I. State Public	8
II. State Special	13
V. Private non-aided, *i.e.*, Native States	156
Total .	177

42. Besides these there are now seven Mission Hospitals and eight Railway Dispensaries against eight Mission and eight Railway Dispensaries in 1913.

Improvements and additions to Hospitals and Dispensaries.

43. *Jaipur.*—A sum of R5,298 was spent in effecting improvements and additions to the buildings of the Mayo Hospital.

44. *Bharatpur.*—New buildings for the City Dispensary, Bharatpur, have been completed and will shortly be occupied.

45. *Kotah.*—A laboratory has been built at the Kotah City Hospital and will shortly be taken over for work. The new Kishengunj Dispensary is under construction.

46. *Udaipur.*—Some further minor improvements have been made in the Lansdowne Hospital as far as the site permitted. The Hospital has also been supplied with some more modern surgical instruments and appliances.

47. A proposal for supplying a complete upto date X-Ray outfit for this institution has been submitted to the Durbar with estimates. The question is under the consideration of the Durbar.

48. The questions of the pay and staff of this Hospital and of the erection of a new Hospital on modern lines outside the city have not yet been decided by the Durbar.

49. The in-patient ward at the Rajnagar Dispensary has now been completed. Arrangements are being made for supplying furniture, clothing, bedding, cooking utensils, etc., for it.

Statement B.

Attendance at Hospitals.

50. During the year under report the number of patients treated at State public, State special, and Private non-aided, *i.e.*, Native State Dispensaries and Hospitals, amounted to 1,520,785 against 1,470,483 in 1913 which shows an increase of 50,302 due to popularity of the Hospitals.

51. Of the total number of patients 19,397 were in-door and 1,501,388 out-door against 18,664 and 1,451,819 respectively in the previous year. The number of deaths rose from 550 in 1913 to 687 in 1914 and the ratio of mortality rose from 2·99 to 3·55 per cent. in 1914.

Statements C (i) and C (ii).

Diseases treated.

52. In Statement C(i) the number of deaths under each head of diseases treated in the in-door department is shown; 19,397 in-patients were treated amongst whom 687 proved fatal as compared with 18,664 in-patients and 550 deaths in the previous year.

53. 171 normal confinements with 3 deaths and 141 abnormal confinements with 6 deaths were reported from the various hospitals, against 153 with no deaths and 123 with 10 deaths respectively in 1913.

54. 1,501,388 out-door patients treated in 1914 are shown in Statement C (ii) as compared with 1,451,819 in 1913. The cases treated in hospitals and dispensaries in Rajputana under each chief disease during the year 1912, 1913 and 1914 are as follows :—

Diseases.	1912.	1913.	1914.
Malarial fever	187,071	182,189	176,852
Diseases of the eye	231,917	233,635	261,864
Dysentery and Diarrhœa	51,706	47,203	53,031
Ulcers	151,138	137,390	142,715
Skin diseases	232,935	213,328	206,764
Syphilis	19,251	17,361	16,946
Injuries	36,531	41,453	44,514
Tubercle of the lung	1,217	1,577	1,565
Abscess of the liver	274	193	100

Scurvy.

55. 933 cases of scurvy were treated against 939 in 1913 and 955 in 1912.

Leprosy.

56. 513 Lepers received treatment as compared with 454 in 1913 and 487 in 1912. No special reports on the use of Nestin have been received. Lieutenant-Colonel J. Fisher, D.S.O., I.M.S., Residency Surgeon, Jaipur, reports that 22 lepers were treated with William's Leproline.

57. The Agency Surgeon, Eastern Rajputana States, reports that out of the 50 lepers treated in the Bharatpur State, 13 received treatment in the Victoria Hospital with William's Leproline, of these 2 were practically cured while the others did not stay long enough for treatment.

58. At Jodhpur lepers are segregated at the Leper Asylum at Nimba Nimri 8 miles from the Jodhpur City. The sick are attended to by a Compounder under the supervision of the Sanitary Sub-Assistant Surgeon who pays periodical visits to the Asylum.

Plague.

59. During the year from 1st April 1914 to 31st March 1915, 570 cases of plague and 458 deaths were reported in 44 towns and villages infected in the Native States in Rajputana against 2,286 seizures and 1,885 deaths in 103 towns and villages in 1913-14. The District of Ajmer-Merwara remained free from the disease throughout the year. The percentage of total plague deaths to population was 1·38 as compared with 1·37 in the previous year (*vide* table attached).

60. The disease lingered from the preceding year until May, 1914 reappeared in November and is still in existence. The epidemic affected 5 Native States as compared with seven States in the previous year.

Native States.

61. *Jaipur.*—Plague prevailed in this State from the preceding year until May, 1914 and again from November to the close of the year. There were 227 attacks with 222 deaths reported in 10 towns and villages. The mortality from plague was highest in April 1914, *i.e.*, 157 cases and 154 deaths. Jaipur City was free from the disease throughout the year.

62. The Residency Surgeon, Jaipur, states that as vital statistics are not properly registered in villages and towns of that State the above plague figures are only approximate. A medical man was deputed to visit the towns and villages for plague enquiry at the spot where out-break of plague was reported and to advise and encourage the people to evacuate the infected places. They have learned by experience the value of this protective measure.

63. The Jaipur Plague Camp Sheds near Rawalji's Bund have been vastly improved by decent structures of iron work on raised pucca floor and covered with thatching.

64. *Alwar.*—Plague was in existence in this State until May, 1914 and did not appear again during the remaining part of the year under report. There were 133 cases and 109 deaths in 12 towns and villages.

65. *Bharatpur.*—Plague continued till May, 1914. It re-appeared in January, 1915 and at the close of the year was still prevalent, 198 cases and 122 deaths were reported in 16 towns and villages as compared with 965 cases and 752 deaths in 52 towns and villages. In April, 1914 and January, 1915 three cases and 2 deaths occurred in Bharatpur City being imported from Muttra and Jullunder Districts.

66. There was no indigenous plague during the year in Marwar or Sirohi State, 6 imported cases with 4 deaths were reported in 5 villages of the former and 6 imported cases were detained in the Plague Observation Camp at Abu Road in the latter State of which one proved fatal.

67. The State Surgeon, Alwar, reports that to prevent the introduction of the disease in the Alwar city posts of inspection under Military guards and

Compounders were opened on the roads leading from Malakhera when plague broke out. The train Inspection at Alwar and Rajgarh Stations continued throughout.

68. Practically the whole of the male population of the town were inoculated by the State Surgeon as well as some 50 females by a Female Sub-Assistant Surgeon. The Capital remained free.

69. In Marwar posts of plague inspection were re-opened at Jodhpur, Barmer, Kuchaman Road, and Marwar Junction in February having formerly been abolished by the orders of the Council of Regency.

70. Evacuation has been very readily carried out in infected towns and villages which is appreciated by the villagers themselves.

71. As the plague out-break in Rajputana was comparatively slight, no map has been attached with this report.

Snake poisoning.

72. Calmette's Anti-venine is kept in stock in most of the main dispensaries and used for the treatment of snake poisoning when opportunity offers.

STATEMENT F.

73. From this statement it will be seen that 1,900 Europeans and Eurasians, 1,024,444 Hindus, 406,035 Muhammadans and 88,406 patients of other classes were treated in the dispensaries of Ajmer-Merwara and of Native States in Rajputana as compared with 1,727, 988,788, 390,893, and 89,075 respectively in 1913.

Class and sex of patients.

STATEMENT G.

74. The number of surgical operations performed during the year in Ajmer-Merwara and in Native States was 75,416 against 72,193, or an increase of 3,223. The number of patients operated on was 75,181 as compared with 71,792 in 1913. Of these the cures amounted to 74,047, the number relieved 524, discharged otherwise 230, and died 121; against 70,490, 587, 290, and 114 in the previous year, while 259 remained under treatment at the end of the year.

75. Of the operations performed 2,387 were extractions of the lens for Cataract of which 2,125 or 89·02 per cent. proved successful, 54 Lithotomies, 193 Litholapaxies and 173 Amputations against 2,315 extractions of the lens for Cataract, 68 Lithotomies, 168 Litholapaxies and 201 Amputations in 1913.

76. 445 abdominal operations were done of which 34 proved fatal. Of these 363 were Paracentesis of Abdomen, with 18 deaths, and 7 Abscess of the Liver with no deaths.

77. 1,920 operations were performed at the Victoria Hospital, Ajmer, with 6 deaths as compared with 1,809 operations with 4 deaths in the previous year, of these 64 were Extraction of the lens for Cataract, 43 Iridectomies, 15 Litholapaxies, 3 Radical cure of Hernia, 13 Excision of Cysts, 1 Laparotomy and 8 Amputations.

78. 2,011 operations of all kinds were performed at the Mayo Hospital, Jaipur, with 20 deaths against 2,171 operations with 23 deaths in the previous year, of these 437 were extraction of the lens for Cataract. Lieutenant-Colonel J. Fisher, D.S.O., I.M.S., operated on 357, Rai Bahadur Assistant Surgeon Daljang Singh Khanka on 77 and Dr. Panna Lal Dass on 3 Cataract cases.

79. 56 operations were performed for vesical stone by litholapaxy with 4 deaths. The largest stone weighed 760 grains and was composed of Phosphates.

80. One Lateral Lithotomy was performed the case died.

81. Lieutenant-Colonel J. Fisher, D.S.O., I.M.S., Residency Surgeon, Jaipur, testifies to the excellent work done by Rai Bahadur Senior Assistant

Surgeon Daljang Sing Khanka, M.B., House Surgeon of the Mayo Hospital, Jaipur. His services are invaluable.

82. Third grade Sub-Assistant Surgeon Chhagan Nath is a very capable and industrious assistant and deserves all credit for his good work.

83. Fourth grade Sub-Assistant Surgeons Sarup Narain and Tula Ram have also worked satisfactorily.

84. The Residency Surgeon, Jaipur, states that Tuberculosis continued to play the same role as before. Dr. Lankester on special duty with the Government of India for Tuberculosis enquiry visited Jaipur to make investigations about the epidemiology of Tuberculosis.

85. There were in all 6,703 surgical operations done in Bharatpur State institutions, of these 803 were extraction of lens for cataract, 5 Lithotomies, 11 Litholapaxies and 17 Amputations as compared with 669 extractions of lens for cataract, 2 Lithotomies, 13 Litholapaxies and 16 Aumputations in 1913.

86. The following special treatments were reported by the Agency Surgeon, Eastern Rajputana States :—

Tuberculosis.

87. T. R. Solution was injected hypodermically in 28 cases in doses short of re-action. It was mostly in the cases of surgical Tuberculosis that some improvement was noticed.

Syphilis.

88. Seven cases of Syphilis were treated with Intra-muscular injections of Salvarson "606" with success. A case of Locomotataxy also improved under this treatment.

Dysentery Amœbic.

89. All the cases recovered with the Hypodermic injections of Emetine.

Malarial Enlargement of Spleen.

90. 14 cases were treated with Intra-muscular injections of soamin (Sodium Para Amino phenylareonate), which had a marked effect in reducing spleen in early stages. No appreciable improvements was noticed in those of long duration.

Sprue.

91. One case of sprue was successfully treated with 9 hypodermic injections of Emetine gr. 1 given once a week.

Obstruction of bowels.

92. One case of obstruction of bowels was treated with hypodermic injections of Piturtin and Emetine with success.

Statements H and J.

Financial Statements.

93. Statement H shows the income and expenditure of the Government Dispensaries and Hospitals and the expenditure on those in Native States.

94. The total income of Hospitals and Dispensaries in Ajmer-Merwara was R22,640 against R24,158 in 1913 ; this decrease of R1,518 is partly due to the fact that in 1913, certain arrears of contributions were received and in 1914 certain Indian subscribers have not yet paid their coutributions. The value of

the invested capital of the dispensaries in this Division remained the same as in 1913.

95. In Ajmer-Merwara the total expenditure rose from R17,980 in 1913 to R19,895 in 1914, chiefly under heads diets, miscellaneous and buildings and repairs.

96. *Native States.*—The total expenditure on hospitals and dispensaries in the Native States of Rajputana rose from R4,29,535 in 1913 to R4,58,120 in 1914 which is due to increase under all heads.

97. Of the total costs on hospitals and dispensaries in these States R90,399 were expended in Jaipur, R70,695 in Marwar, R51,936 in Bikaner, R48,648 in Mewar, R47,861 in Bharatpur, R41,044 in Kotah, R30,823 in Alwar, R12,276 in Dholpur, R11,841 in Tonk, R10,441 in Jhalawar, R7,308 in Karauli, R4,694 in Banswara, R3,703 in Sirohi, R3,383 in Jaisalmer, R3,208 in Dungarpur, R3,007 in Kishangarh, R2,919 in Bundi, R2,559 in Shahpura, R1,698 in Partabgarh, and R965 in Kushalgarh.

98. The average cost of each case treated in Ajmer-Merwara and in the Native States hospitals and dispensaries was 50 pies and 64 pies against 47 pies and 61 pies respectively in 1913.

Mission Hospitals.

99. During the year under report the number of Mission Hospitals in Rajputana was seven instead of eight as in 1913. The dispensary at Piploda appears to have been closed during the year.

100. The following table shows the total number of in and out-door patients treated and operations performed in these institutions in 1914:—

Name of Hospital.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old cases.	New cases.	Total.			
Ajmer (Male) .	73,258	14,917	88,175	56	2,449	
Ajmer (Female) .	10,630	6,319	16,949	338	387	2,188 were visited at their homes.
Nasirabad . .	25,862	10,497	36,359	398	1,147	
Jaipur . .	9,676	4,598	14,274	33	157	605 were visited at their homes.
Jodhpur . .	54,971	8,848	63,819	81	1,105	
Udaipur . .	32,601	13,876	46,477	332	1,350	312 were visited at their homes.
Deoli and extension work.	5,006	3,055	8,061	156	261	
Total .	212,004	62,110	274,114*	1,395	6,856	

* Medical statistics of these hospitals are for seven months only.

Railway Hospitals.

101. 670 in and 39,123 out-door patients were treated and 1,079 operations performed during the year under report in eight Railway Dispensaries on the

Bombay, Baroda and Central India Railway within the limits of Rajputana as per detail below :—

Station.	Number of patients treated.			Operations performed.	Remarks.
	In-door.	Out-door.	Total.		
Rajputana-Malwa Railway.					
Ajmer	183	11,317	11,500	353	734 were visited at their homes.

Gangapur	27	4,894	4,921	128	
Total	670	39,123	39,793	1,079	

Jails.

102. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail was 343·20 against 306·88 in the previous year. The total number of admissions into Hospital and the daily average number of sick fell from 237 and 8·32 in 1913 to 206 and 7·27 in 1914. The number of deaths was four as compared with *nil* in the previous year, of these three deaths occurred among the male and one among the female convicts. Two men died of Pneumonia and one of acute Peritonitis. The woman died of heart disease (Mitral regurgitation). She was admitted into the Jail in a bad state of health and with tape worms.

103. Two convicts were discharged from the Jail on account of sickness by the order of the Hon'ble the Chief Commissioner, Ajmer-Merwara, one of these was suffering from Malignant Ulceration of groin and the other from Scurvy.

104. The Review by the Commissioner, Ajmer-Merwara, on the strength, classification, health, employment, and conduct of prisoners, nature of sentences Jail manufactures and expenditure of the Jail is given as Appendix A of the Report together with statements.

Native States.

105. Although the daily average number of prisoners in the Jails in the Native States rose from 3,923·93 in 1913 to 4,108·79 in 1914 the total number of cases admitted into hospital fell from 1,841 in 1913 to 1,494 in 1914 and the daily average number of sick from 77·67 to 65·90.

106. There were no deaths in the Jails at Pertabgarh and Dungarpur.

107. *Jaipur.*—At the Central Jail there were three deaths or 5·12 per thousand in 1914 as compared with four or 7·23 per thousand of average strength in 1913, an indication of the healthiness of the prisoners although there was slight over-crowding.

108. In the District Jail there were 6 deaths against 5 in 1913. The steady improvement in the health, condition of the prisoners and the management of these Jails still continues.

109. The following works were carried out at the Jaipur Jails :—

Central Jail.—An enclosure wall was built around the work shed in the female Jail.

Repairing roof of Eastern barrack and Kothri ward No. 4.
Repairing of roads.
Iron barred doors of wards and hospital.

District Jail.—Repairing a tank of drinking water.

Repairs of quarters of Sub-Assistant Surgeon and Compounder.

110. *Jodhpur.*—The mortality in this Jail decreased from 4 in 1913 to 2 in 1914. Deaths were due to diseases of the nervous system and all other diseases of the respiratory system except pneumonia and tubercle of the lungs.

111. *Bikaner.*—The total number of admissions into Hospital rose from 39 in 1913 to 55 in 1914 and the daily average sick from 1·90 to 3·50 but the mortality fell from 4 to 2 and the death rate per mille from 16·19 to 6·72.

112. *Alwar.*—The accommodation in this Jail is for 508 prisoners, the average daily strength for 1914 was 556·16. Tents were provided to meet the overcrowding.

113. The daily average number of prisoners rose from 519·10 in 1913 to 556·16 in 1914 but the daily average of sick fell from 16·92 in 1913 to 8·04 in 1914 and the death rate per mille from 11·56 to 10·79.

114. *Kotah* —The health of the prisoners has been good throughout the year.

115. The total number of cases admitted into hospital fell from 162 in 1913 to 131 in 1914, the daily average number of sick from 7·37 to 5·88 the mortality from 7 to 6 and the ratio per mille of average strength from 20·36 to 19·71.

116. There were 6 deaths due to the following causes :—

Heart failure	2	
Gonorrhœa	1	
Remittent fever	1	
Inflammation of bladder	1	
Cholera	1	Outside the Jail.

117. *Jhalawar.*—The number of admissions to Hospital was 38 of which 34 were discharged cured and 4 died which were due to the following causes :—

Cholera	2
Dysentery	2

118. *Udaipur.*—There has been overcrowding throughout the year, 18 deaths occurred as compared with 11 in the previous year. The deaths were due to the following causes :—

Dysentery	9
Diarrhœa	3
Tubercle of lung with Pneumonia	2
Pneumonia	2
Gunshot wound	1
Typhoid fever	1

119. One prisoner escaped from extra-mural labour in 1914.

Qualified Medical staff.

120. The following Indian Medical Service Officers relinquished charge of their civil duties on the date specified against their name on reversion to Military duty in connection with the war.

Major C. M. Goodbody, I.M.S., Director, Medical Department, Bikaner State.	16th August 1914.
Captain N. S. Sodhi, I.M.S., Officiating State Surgeon, Alwar.	18th September 1914.
Lieutenant-Colonel W. H. B. Robinson, I.M.S., Civil Surgeon, Ajmer and Chief Medical Officer, Rajputana.	21st September 1914.
Lieutenant-Colonel J. W. Grant, I.M.S., Residency Surgeon, Western Rajputana States.	1st November 1914.

Major W. R. Battye, I.M.S., Residency Surgeon, Mewar.	1st November 1914.
Major deVere Condon, I.M.S., Agency Surgeon, Kotah and Jhalawar.	21st November 1914.
Major W. Lethbridge, I.M.S., Agency Surgeon, Eastern Rajputana States.	9th December 1914.

121. Lieutenant-Colonel R. C. MacWatt, I.M.S., Agency Surgeon, Eastern Rajputana States, was appointed on the reversion of Lieutenant-Colonel W. H. B. Robinson, I.M.S., to Military duty to officiate as Civil Surgeon, Ajmer, and Chief Medical Officer in Rajputana from the 21st September 1914.

122. Major W. Lethbridge, I.M.S., on return from leave was posted as Agency Surgeon, Eastern Rajputana States, from the 26th September 1914.

123. Major T. S. B. Williams, I.M.S., was appointed as Director, Medical Department, Bikaner State, from the 21st August 1914.

124. On the transfer of Major MacPherson, I.M.S., to Bushire, Major F. E. Wilson, I.M.S., was appointed as Agency Surgeon, Kherwara, from the 30th September 1914.

125. The following officers of the Indian Medical Service were appointed temporarily to hold visiting charge of the Agency Surgeoncy mentioned against their names with dates in addition to their own duties till the end of the year :—

Lieutenant-Colonel R. C. MacWatt, I.M.S., Chief Medical Officer in Rajputana and Civil Surgeon, Ajmer.	Western Rajputana States Residency Surgeoncy, from 12th November 1914.
Major F. E. Wilson, I.M.S., Agency Surgeon, Kherwara.	Mewar Residency Surgeoncy from 1st November 1914.
Lieutenant-Colonel J. Fisher, D.S.O., I.M.S., Residency Surgeon, Jaipur.	Eastern Rajputana States and Kotah and Jhalawar Agency Surgeoncies from 29th December 1914.

126. Dr. D. G. Newland, L.R.C.P. & S., Edinburgh, was on plague duty at Abu Road throughout the year.

Military Assistant Surgeon.

127. Assistant Surgeon R. J. K. Stone, Indian Subordinate Medical Department was in charge of the Northern India Salt Revenue Dispensary at Sambhar throughout the year.

Civil Assistant Surgeons.

128. There were five Government Assistant Surgeons employed in Rajputana as in the previous year.

Military Sub-Assisstant Surgeons.

129. There were eleven Military Sub-Assistant Surgeons employed with the Imperial Service Corps in Rajputana against 10 in 1913, Military Sub-Assistant Surgeon Bhagat Ram was employed with the Imperial Service Infantry at Bikaner from 7th August 1914. Of these eleven Military Sub-Assistant Surgeons six have proceeded on field service with their Imperial Service Corps in connection with the war from the date specified against their names :—

No. 1149, Narain Singh, Imperial Service Camel Corps, Bikaner.	26th August 1914.
No. 911, Sham Singh, Bharatpur Imperial Service Infantry.	15th September 1914.
No. 1233, Sampuran Singh, Bharatpur Imperial Service Transport.	13th September 1914.
No. 1003, Santokh Singh, Alwar Imperial Service Infantry.	12th October 1914.
No. 1042, Arjun Singh, Alwar Imperial Service Infantry.	27th October 1914.
No. 926, Kesar Singh, Jaipur Imperial Service Transport Corps.	3rd November 1914.

Civil Sub-Assistant Surgeons.

130. At the close of the year there were 156 Government Sub-Assistant Surgeons on the roll including 5 Sub-Assistant Surgeons tempo-

rarily transferred to Military duty on account of the war against 171 in the previous year. Out of 171 Sub-Assistant Surgeons eight were transferred to the United Provinces of Agra and Oudh, one to Bihar and Orissa, one died, one resigned, and four retired on pension during the year.

Lady Doctors.

131. There were five Lady Doctors employed in the following Native States against four in 1913. Miss C. M. Peake, M.D., B.Sc. (London), was appointed to the charge of the Zenana Hospital newly opened at Bikaner in February 1914.

Kotah	1
Jodhpur	1
Tonk	1
Jaipur	1
Bikaner	1

Female Sub-Assistant Surgeons.

132. There were 8 Female Sub-Assistant Surgeons attached to the Female Hospitals and women's wards at the following places as in 1913. Mrs. Elizabeth Moji Ram attached to the Female wards of the Bhagwan Das Hospital, Bikaner, resigned her appointment in February 1914. Female Sub-Assistant Surgeon Mrs. Patwardhan was appointed to the charge of the Female Hospital, Bharatpur, on the 8th November 1914.

Alwar	2
Jodhpur	2
Kotah	1
Tonk	1
Bharatpur	1
Beawar	1

Female Hospitals and Dai Class.

133. *Ajmer.*—No Female Sub-Assistant Surgeon has yet been appointed to the medical charge of the female wards of the Victoria Hospital, Ajmer, for want of funds. Two Lady Doctors superintended the Mission Hospital for women where many patients are treated.

134. *Beawar.*—Female Sub-Assistant Surgeon Miss Q. Houlton has been in charge of the Female Ward of the Charitable Dispensary at Beawar throughout the year. The working of this institution shows an increase in the percentage of women and children and appreciation of the efforts of Miss Houlton who is popular and works well: and a decrease in the male percentage as compared with the corresponding figures of the previous year is attributable to the fact that the Assistant Surgeon was working at Ajmer during the greater part of the year.

135. *Native States.*—The returns received from the Female Hospitals in the Native States of Rajputana show on the whole a general increase both in in-door and out-door attendance: evidence of the increasing popularity of the institutions as regards residential attendance and out-door visits.

136. *Jodhpur.*—Miss B. G. C. Griffen, M.B., B.C.H., B.A.O. (Dublin), has been in charge of the Jaswant Hospital for women at Jodhpur throughout the year. There was a decrease in the number of both in and out-door attendance as compared with the previous year which is probably due to non-prevalence of malaria.

137. *Kotah.*—Miss Newton, L.R.C.P. & S. (Edinburgh) and L.F.P.S. (Glasgow), was in charge of the Victoria Jubilee Hospital at Kotah up to 12th April 1914 when she went on six months furlough combined with privilege leave for three months having made over charge of the Hospital to Female Sub-Assistant Surgeon Miss Helen Buldeo Singh. 194 in and 7,890 out-door patients were treated against 189 in and 8,016 out-door patients in 1913. The decrease in out-door patients is due to the out-break of Cholera in the Kotah City and State.

138. A Dai Class has again been started since the 16th November, 1914 with an admission of 5 pupils, 3 are from the districts and 2 from Kotah City. They appear to be promising.

139. Miss K. Reed, L.R.C.P. &.S. (Edinburgh), L.F.P.S. (Glasgow) and L.M.R.C.P. & S. (Ireland), was in charge of the Walter Zenana Hospital at Tonk up to the 10th October 1914 when she went on leave and since then Female Sub-Assistant Surgeon Miss Blanche Karimullah has been in sole charge of the Hospital under the supervision of the Male Assistant Surgeon at Tonk, 222 in and 7,074 out-door patients were treated as compared with 230 in and 6,936 out-patients in the previous year.

140. *Jaipur.*—Miss L. E. Sykes, M.B. and L.R.C.P. & S. (Edinburgh), has been in charge of the Female Wards of the Mayo Hospital at Jaipur throughout the year. There was a considerable decrease in the number of out-door patients as compared with the previous year which was attributed to the non-appearance of epidemic disease in the Jaipur City.

141. One student Govindi Bai was admitted into the Female Sub-Assistant Surgeon class at the Agra Medical School in July 1914.

142. The compounding, dressing and nursing in the female wards is entirely done by females.

143. *Bikaner.*—Female Sub-Assistant Surgeon Mrs. Elizabeth Moji Ram was in charge of the female wards of the Bhagwan Das Hospital at Bikaner up to February 1914 when the Zenana Hospital was opened there and Miss C. M. Peake, M.D., B.Sc. (London), was appointed to the charge of the new Hospital.

144. There was an increase in in-door attendance as compared with the previous year which indicates the popularity of the Hospital and of the Lady Doctor in charge.

145. *Alwar.*—Female Sub-Assistant Surgeon Bala Bai has been in charge of the Dufferin Hospital at Alwar throughout the year. No Lady Superintendent has been appointed since April 1911. The number of in-patients treated in the hospital was 357 and of out-door patients 18,958 against 330 in and 15,611 out-door patients in 1913.

146. *Bharatpur.*—The work of the Female Hospital at Bharatpur was carried on under a Male Sub-Assistant Surgeon attached to the Victoria Hospital there till the 8th November 1914 when Female Sub-Assistant Surgeon Mrs. Patwardhan was appointed and put in charge of the Hospital. 353 in and 4,835 out-door patients were treated as compared with 247 in and 5,054 out-door patients in the previous year.

147. *Udaipur.*—The Walter Female Hospital at Udaipur has been without a Female Sub-Assistant Surgeon from the 22nd April 1912 and without a Lady Doctor from 15th April, 1913.

148. A male compounder from the Lansdowne Hospital looks after the surgical instruments, appliances and furniture contained in this Hospital.

149. The eleven cases treated in the Hospital were Labour cases sent by the State authorities for delivery

150. *Dai Class, Ajmer.*—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dai Training Class, Ajmer, throughout the year. The five pupils who were mentioned in last year's report as being under instruction continued to work till the end of the Session when they were examined by the Civil Surgeon, Ajmer, on the 29th April 1914. All of them passed and obtained their certificates and the usual honorarium was given to successful candidates. Four were seholarship holders and one was not.

151. Seven pupils were admitted into the current year's class of whom one came from Bharatpur, one from Karauli, one from Tonk, and four were local.

152. During the year 37 in-door and 61 out-door cases were treated and 137 patients sought advice and treatment.

Imperial Service Troops.

153. The Hospitals of the Native State Imperial Service Troops are all

well equipped; they are under the medical charge of Military Sub-Assistant Surgeons except those at Jodhpur which are under the medical charge of State enlisted Assistant Surgeons. The Mewar Imperial Service Squadron at Udaipur has been placed under the medical charge of the Civil Sub-Assistant Surgeon in charge Jail Hospital.

154. The Imperial Service Infantry at Alwar and Bhartpur, Camel Corps at Bikaner and Imperial Service Transport Corps at Jaipur and Bharatpur proceeded on Field service on account of the war. Military Sub-Assistant Surgeons accompanied them.

LUNATICS.

155. *Ajmer.*—There were 2 lunatics in the Central Jail, Ajmer, on 1st January 1914 and 17 were admitted during the year, a total of 19: of these seven were transferred to the Lahore Lunatic Asylum, and one to the Agra Asylum, two were discharged as cured, four were made over to their friends, and relatives and five remained in the Jail at the close of the year.

156. *Native States.*—177 lunatics were treated in 1914 against 158 in 1913; of whom 35 were cured, 25 made over to their friends and relatives, 9 were transferred to Lahore Lunatic Asylum (from Jodhpur) and 1 to that at Agra (from Kotah), 16 died and 91 remained under treatment chiefly in the Jaipur Lunatic Asylum.

157. There are special lunatic asylums in :—

Jaipur—a very good one.
Alwar, Jodhpur, Bikaner } small.

158. The Residency Surgeon, Mewar, writes that insanes are kept at Mohtaj Khana in Udaipur City under Police supervision.

R. CHARLES MACWATT, *Lieut.-Col., I.M.S.,*
Chief Medical Officer in Rajputana.

AJMER:
The 28th May 1915.

Table showing the severity of the epidemics in certain Native States and Ajmer-Merwara District as well as the rapidity of its spread in recent years and the percentage of total plague deaths to population since 1896.

APPENDIX A.

Review of the Ajmer Jail Report for the year 1914.

Charge.—The charge of the office of the Superintendent, Central Jail, was held by Lieutenant-Colonel W. H. B. Robinson, I.M.S., from the beginning of the year to the 20th September 1914 and by Lieutenant-Colonel R. C. MacWatt, I.M.S., for the rest of the year.

2. *Population.*—At the commencement of the year there were 333 prisoners, including convicts and undertrials. The number of prisoners admitted to the Jail during the year was 1,490, against 1,495 in 1913, of whom 789 were convicts, 698 undertrials and 3 civil prisoners.

The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

—	1913.	1914.
Convicts	726	743
Undertrials	717	693
Civil	8	3
	1,451	1,439

The number of prisoners remaining at the close of the year was 384 against 333 in 1913—

Convicts	333
Undertrials	51
	384

The daily average number of prisoners was 343·20, *i.e.*,—

Convicts	304·21	against	271·40 in 1913.
Undertrials	38·46	„	35·20 „ „
Civil	0·53	„	0·28 „ „

3. *Disposal of convicts.*—The following table compares the disposal of convicts (743) during the year under review with that of the preceding year :—

—	1913.	1914.
Released on appeal	73	41
Released on expiry of sentence	547	523
Released on payment of fine	25	40
Released under remission rules for good conduct	51	87
Released on account of sickness	*Nil*	2
Transferred to other Jails*	27	43
Died in Jail	*Nil*	4
Executed	2	2
Transferred to Lunatic Asylum	1	*Nil*
Escaped	*Nil*	1
	726	743

*Seven were transferred for transportation beyond seas.

4. *Classification of Convicts.*—Excluding the 47 convicts received from

other jails, the remaining 742 convicts admitted in the jail are classified as follows :—

Hindus	467
Mahomedans	262
Europeans	6
Eurasians	2
Native Christians	5
	742

According to age qualification, 11 were under 16 years, 631 between 16 and 40, and 94 between 40 and 60, and 6 above 60 years of age.

According to sex, 710 were males and 32 females. Of the 710 male convicts, the majority were agriculturists, domestic servants and labourers as will be seen by the details in the margin.

Agriculturists	260
Labourers	221
Shop-keepers and traders	42
Domestic servants	117
Miscellaneous occupation	5
Government servants	32
No occupation	33
TOTAL	710

5. Of the 742 convicts admitted in the Jail, 98 were awarded simple imprisonment, 627 rigorous imprisonment, 3 rigorous imprisonment with solitary confinement and 14 rigorous imprisonment with whipping.

The number of convicts sentenced to various terms of imprisonment was as follows :—

PARTICULARS.	Simple imprisonment.	Rigorous imprisonment.	Rigorous imprisonment with solitary confinement.	Rigorous imprisonment with whipping.
Not exceeding one month	87	176	...	3
Above 1 and not exceeding 3 months	8	181	...	6
„ 3 „ 6 „	2	124	...	5
„ 6 months and not exceeding 1 year	...	81	1	...
„ 1 year „ 2 years	1	40	2	...
„ 2 years „ 5 „	...	17	...	...
„ 5 „ „ 10 „	...	4	...	...
Sentenced to transportation for life	...	4	...	...
Sentenced to death	...	...	...	...
TOTAL	98	627	3	14

6. *Previous convictions.*—The number of previously convicted prisoners admitted during the year under review was 153 as compared with 164 in the previous year, their percentage to the total number of convicts admitted being 20·62.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 259·08, of whom 12·00 were employed as prison officers, 23·20 as prison servants, 10·98 on gardening, 42·82 on preparing articles for consumption in Jail and 160·10 as manufacturers. The daily average number exempted from labour was 7·84.

8. *Conduct of prisoners.*—The number of jail punishments of all kinds inflicted was 323 as compared with 198 in 1913. They are classed as below:—

By Criminal Court	2
By Jail officers'solitary confinement	31
Reduced diet	1
Corporal punishment	2
Other	287
	323

9. There was only one escape from the jail during the year under review.

10. *Health.*—The general health of the prisoners was good throughout the year. The number of admissions to the Jail Hospital was 206 against 237 in 1913. There were 4 deaths in 1914 as against none in 1913.

11. *Juvenile offenders.*—There was one juvenile prisoner in Jail on 1st January 1914 and 11 boys were admitted during the year under review, of whom 11 were released, and one transferred to the Reformatory School at Chunar. Thus no juviline prisoner remained in the Jail at the close of the year. No offence was recorded against them during the year.

12. *Jail manufacture.*—The profit from Jail manufactures amounted to R1,004-0-11 against R1,566-4-7 in 1913 and the average earning per head of prisoners employed on jail manufactures consequently fell from R11-4-8 in 1913 to R6-4-4 in 1914.

13. *Expenditure.*—The total expenditure in guarding and maintaining the prisoners, including that incurred (1) by the Public Works Department on the buildings and repairs and (2) by Magistrates in guarding and maintaining undertrials, amounted to R27,478-0-0. The average cost per prisoner during the year was R80-1-0 against R74-0-1 in the preceding year.

14. *Inspection.*—The jail was inspected four times, by the Commissioner and Inspector-General of Prisons, Ajmer-Merwara.

A. T. HOLME, *I.C.S.*,
Commissioner, Ajmer-Merwara.

GENERAL SUMMARY.

Showing the Distribution of the Prisoners of all classes confined in the Ajmer Central Jail during the year 1914.

Vide Instructions issued with Jail Department Circular No. 42 of 1885.

1	2	3	4	5			6			7			8			9			10			11

Total	111,034	304·21	287	742	1,029	40	7	1,076	36	7	41	523	40	2	...	87	...	...	1	2	4	333

* Of this number 11 boys under 16 years. † Of this number 10 girls under 15 years.

NOTE 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government revenue will appear in No. 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.
4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the gangs are employed extra-murally under the orders of Government, No. 1632—43, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

AJMER JAIL OFFICE:
The 20th February 1915.

R. C. MACWATT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

STATEMENT No. II.—*Statement showing the religion, age, and previous occupation of the Convicts in the Jail at Ajmer for the year 1914.*

1	2							3				4													5

NOTE.—It is of importance that the particulars given in this, and also in No. 3, should not include the same individual more than once, and hence all transfers should be omitted.
The Totals should correspond with the number in column 5, Statement I: "Imprisoned during the year." But they should do so with the "Total," column 6, for January only, as the number remaining on the last day of the previous year (31st December) is to be included in that month.

STATEMENT No. III.—*Statement showing the convicts admitted into the Jail at Ajmer during the year 1914 and those remaining on the 31st December of that year, according to the nature and length of sentence.*

The Female column should be filled in italics.

When prisoners of different classes are confined in the same Jail, the expenditure on establishment and other items with which all are concerned should be divided over all. The cost per head under any item of expenditure is to be calculated on prisoners actually concerned in it or contributing to it, and not otherwise. Hospital charges (col. 7) should include rations and also the cost of medicines supplied from the Bazar and the Medical Store Depôt. In this series (Financial) annas and pies are only to be shown where there are columns for them.

STATEMENT No. XII.—*Showing the employment of convicts in the Jail at Ajmer during the year 1914.*

1	2	3	4	5	6	7												8	9

Remarks by the Honourable the Agent to the Governor-General, Rajputana.

The Commissioner, Ajmer-Merwara, will be asked to bring paragraphs 25 and 26 to the notice of the Municipal Committee of Ajmer. The improvement referred to in paragraph 21 was under consideration by the Municipal Committee when it was decided that owing to the financial stress occasioned by the war, the work should be postponed for the time.

Paragraph 71-77. It is satisfactory to observe that there has been a substantial diminution of plague throughout Rajputana, and that many States as well as the district of Ajmer-Merwara have been free from the disease throughout the year.

E. G. COLVIN,
Agent to the Governor General, Rajputana.

No. 726-C—2-VIII, dated (Rajputana Agency Camp), the 9th August 1916.

From—The First Assistant to the Agent to the Governor General in Rajputana,
To—The Chief Medical Officer in Rajputana.

In reply to your letter No. 2394-61, dated the 24th July 1916, I am directed to say that the Honourable the Agent to the Governor General approves the report on Sanitation Dispensaries and Jails in Rajputana for 1915 and on Vaccinations for 1915-16.

2. The final proof of the report is returned. The Agent to the Governor General will be glad if in future years you can kindly forward the final proof so as to reach this office not later than July, 1st.

3.I am to request that the remarks made by the Honourable the Agent to the Governor General, annexed herewith, may be printed with the report.

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1915,

AND ON

VACCINATION FOR THE YEAR 1915-16.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

1. During the year under report 14·35 inches of rain were registered in Ajmer, against 19·62 inches in 1914. Owing to the scanty monsoon the tanks and wells were practically empty.

Rainfall in Ajmer.

2. The rainfall recorded in Rajputana generally was unusually deficient; owing to which both the Khareef and Rabi Crops suffered. Scarcity of fodder prevailed throughout the province.

Rainfall in Native States.

VITAL STATISTICS, BIRTHS AND DEATHS.

3. Twentyone thousand nine hundred and fifty-three births were registered in Ajmer-Merwara in 1915, against 23,515 in 1914—a decrease of 1,562; due to the emigration to Central India of a large proportion of the inhabitants of Ajmer-Merwara with their flocks and herds on account of scarcity of fodder in their own district.

Births in Ajmer-Merwara.

4. Of the total births registered 11,672 were males and 10,281 females. The birth rate was 43·78 per mille of population against 46·90 per mille in the previous year. The percentage of male to female births was 113·53 against 111·43 in 1914. The birth rate exceeded the death rate by 17·75 per mille as compared with 16·57 per mille in the previous year.

5. During the year 13,052 deaths were registered in this division against 15,208 in 1914; a decrease of 2,156; attributable to the absence of plague and malaria. The death rate per mille of population was 26·03 against 30·33 in the previous year. Deaths from "fever" show a decrease of 2,141 as compared with 1914.

Deaths in Ajmer-Merwara.

6. The mortality among children under five years of age was 55 per cent. of the total deaths; against 60 per cent. in 1914.

Number of cholera cases and deaths reported in Ajmer-Merwara and in Rajputana during the year 1915.

7. With the exception of three fatal cases (of which one occurred in Ajmer City in April and 2 in Pisangan town in June 1915), Ajmer-Merwara was free from cholera.

Ajmer-Merwara.

8. During the year 2,958 cases of cholera were reported from the Native States of Rajputana of which 1,978 proved fatal: against 3,185 seizures and 1,618 deaths in 1914.

Native States.

9. In March 1915 cholera broke out in Jaipur, Bharatpur and Marwar about the same time and extended to Alwar, Bikaner, Kotah and Dholpur.

10. In Jaipur 497 attacks with 287 deaths were reported in 30 towns and villages from 11th March to 3rd December 1915, of which 56 cases and 52 deaths occurred in Jaipur City and its suburbs.

11. In Bharatpur 35 cases were reported in 4 towns and villages, including 4 cases and 3 deaths in Bharatpur City, from 12th March to 4th June 1915.

12. In Marwar 1,915 cases and 1,350 deaths were reported in 81 towns and villages from 25th March to 3rd September 1915.

13. Cholera was imported into Alwar by a resident, who had visited Hardwar fair where cholera was epidemic, 132 cases and 67 deaths were reported from 21st April to 29th August 1915. Of these 16 cases and 8 deaths occurred in Alwar City.

14. Cholera appeared first in Bikaner State on 27th April 1915 in Tehsil Hanumangarh, and afterwards in Bikaner City. The cause of the outbreak was infection brought from British territory where the disease was in epidemic form. 170 cases were reported of which 90 proved fatal, including 10 cases and 7 deaths in Bikaner City, upto 22nd June 1915.

15. In Kotah 122 seizures and 103 deaths were reported. The epidemic lasted for 35 days, from 12th August to 17th September 1915. In Dholpur 87 cases and 63 deaths occurred between 15th September and 8th November 1915.

16. The usual precautionary and preventive measures were adopted.

17. As the cholera outbreak in Rajputana was slight, no map has been attached to the report.

SANITATION.

18. Most of the unserviceable rolling stock has been replaced. A proposal for sanction of some new conservancy carts has been submitted to replace those which have become worn out.

Ajmer City conservancy.

19. A scheme for the substitution of movable galvanised iron latrines and urinals for the present masonry ones is under consideration. The number requires augmentation, to prevent the fouling of streets and lanes which goes on at present. Most of the privies and urinals in the city and suburbs have been provided with movable iron receptacles.

20. The night soil and rubbish of Ajmer are conveyed from the collecting station to the trenching ground by a steam tramway which was started on the 1st March 1915, replacing the former system of haulage of trucks by bullocks.

21. The main roads of the city and suburbs require attention, especially those bearing the brunt of the traffic. The dust raised from the roads leading from Kaisergunj to the Daulat Bagh and from the Telegraph office to the Kutchery (District Courts) is frequently so dense as to render progression difficult: and probably largely accounts for the prevalence of Catarrhal diseases of bronchial tubes, nose, throat and eyes. The roads should be paved or macadamised from one side to the other and foot paths provided for pedestrians. This would render both driving and walking safer than is now the case.

22. A scheme for surface drainage, which is badly wanted, is under consideration.

23. Three incinerators are working satisfactorily; it is proposed to construct more.

24. The covered drains in certain parts of the city are insanitary. They are kept as clean as possible.

25. The slaughter house, meat markets, and butchers shops still leave much to be desired.

26. The Birat system of scavenging is unsatisfactory. If the Birat sweepers could be brought under the control of the Municipal Committee this would go far to remedy matters. Apparently technical and legal difficulties preclude this arrangement.

27. The Bhaonta water supply has been taken into use: and a separate pipe has been laid to the water tank on the Ana Sagar Ghati.

Water supply.

28. *Beawar.*—The progressive diminution of the Jalia water supply gives grounds for fear that in the event of failure of rainfall the water in the wells may give out. The digging of new wells is contemplated.

29. The Birat sweepers have to a great extent been brought under the control of the Municipality which should substantially assist in improving the sanitation of the town.

Native States.

30. *Jaipur City.*—For all conservancy purposes the Light Railway performs valuable work. Rubbish and city sweepings are burnt in incinerators. 86 latrines were newly constructed and 98 old latrines were repaired.

31. The foul earth and sweepings were deposited in the Gandah Nullah; only a part having been used up in filling pits in some private fields.

32. A pacca drain paved with Katlas at the bottom and covered with Amagarh slabs over the deep part was made in front of Hakeem Martin's house through which all water now easily passes to the nala.

33. *Jodhpur.*—The city conservancy steam tramway worked satisfactorily throughout the year.

34. The water supply throughout the year has been fairly good: but now, owing to the scanty rainfall, scarcity of water will be felt in parts of the State and in the city of Jodhpur.

35. *Bikaner.*—The sanitation of the city is in the hands of the Municipal Committee and the Director, Medical Department, Bikaner State is a member.

36. *Kotah.*—The following main improvements have been made in the conservancy arrangements for the Kotah City.

(1) A large drain was constructed in Ladpura from Kalali Baori to the border of the ravine to carry off rain and surface water.

(2) Two stone urinals of modern type were erected to replace corrugated iron ones: and 8 urinals were repaired.

(3) Three movable urinals were placed at Kothi Umed Bhawan in different places, at the suggestion of the Assistant Health Officer.

(4) Fourteen wells and Baories which dried up during last summer were cleaned.

VACCINATION.

Statement I.

37. In Ajmer-Merwara including Nasirabad Cantonment the number of successful primary vaccinations during 1915-16 was 16,523 against 14,862 in 1914-15 and successful revaccinations 243 against 85 in the previous year. This indicates satisfactory progress.

38. The staff consisted of one Native Superintendent and 15 vaccinators the same as in 1914-15. Each vaccinator performed an average of 1,177

operations against 1,060 operations in 1914-15, and the cost of each successful case fell from 44 pies to 38 pies in 1915-16.

39. The Civil Surgeon, Ajmer inspected 2,137 vaccinated children against 1,933 in the previous year of which 2,124 were found successful. The Superintendent of Vaccination at Nasirabad examined 745 children all of whom proved successful.

40. The Native Superintendent inspected 455 villages and examined 9,579 vaccinated children compared with 382 villages and 8,011 vaccinations in 1914-15. The percentage of success amongst cases seen was 97·46 against 97·02 in the previous year.

41. 33·44 per thousand of the population in Ajmer-Merwara were successfully vaccinated against 29·81 in 1914-15.

General operations in Native States.

42. The vaccination returns from the Native States show 270,224 primary vaccinations against 273,077 in 1914-15 a decrease of 2,853. Revaccination fell from 427 in 1914-15 to 348 owing to the non-prevalence of small pox in epidemic form.

43. There were 162 vaccinators against 160 in the previous year, two additional vaccinators having been employed one in Kotah, and one in Jaisalmer. No vaccinator was employed in Deoli Cantonment during the season ; vaccinations were performed by the Sub-Assistant Surgeon attached to the Agency Hospital there.

44. In the Marwar State 249 primary vaccinations were performed by Sub-Assistant Surgeons in Dispensary towns with a recorded per centage success of 95·18 and 208 vaccination operations by the Sub-Assistant Surgeon, Sirohi.

45. 25·05 per thousand of the population in the Native States were successfully vaccinated against 25·29 in 1914-15.

STATEMENT II.

Expenditure on vaccination.

46. The total expenditure on vaccination in Native States was R35,011-9-8 as compared with R32,160-7-10, an increase of R2,851-1-10 due to increased expenditure on establishment and travelliug allowance. The average cost of each successful vaccination in different States varied from 17 pies in Alwar, Kotah and Partabgarh to 108 pies in Jaisalmer.

47. The following table shows the number of towns and villages inspected and successful vaccination seen by Residency or Agency Surgeons in Native States :—

Designation.	Number of towns and villages inspected.	Number of successful vaccination cases seen.
The Director, Medical Department, Bikaner . .	965	3,607
The Residency Surgeon, Western Rajputana States .	48	2,553
The Residency Surgeon, Mewar	29	997
The Residency Surgeon, Jaipur	1	851

48. 1,014 vaccinated children were inspected by the Assistant Surgeon in charge of the Agency Surgeon's office, Eastern Rajputana States at Bharatpur, 193 by the Assistant Surgeon at Kotah and 374 by the Assistant Surgeon at Jhalawar. The officiating State Surgeon inspected 909 vaccinations in Alwar City.

49. The Native Superintendents of Vaccinations and other inspecting officers in Native States inspected 1,08,006 vaccinations against 1,07,157 in 1914-15. The percentage of inspected cases found successful among the total number seen in 1915-16 was 98·92 against 98·79 in 1914-15.

50. Lymph is kept up throughout the year in most of the important States by arm to arm vaccination; glycerinated vaccine lymph was obtained during the year from the Government Bovine Lymph Depots and was generally satisfactory.

51. The Resideney Surgeon, Jaipur, writes that proposals made last year to the State Council for the abolition of arm to arm vaccination and establishment of Buffalo Calf lymph prepared at the Mayo Hospital, Jaipur, for vaccination work are still under the consideration of the Durbar.

SECTION II.—DISPENSARIES.

STATEMENT A.

Number of Dispensaries.

52. During the year the number of hospitals and dispensaries remained the same as in the previous year *viz.*, 177.

The dispensaries are classified as under :—

I. State Public	8
II. State Special	13
V. Private non-aided, *i. e.*, Native States	156
TOTAL .	177

53. Besides these there are now six Mission Dispensaries and one hospital; and eight dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana.

Improvements and additions to Hospitals and Dispensaries.

54. *Jaipur.*—The sum of ₹4,749 was spent in effecting improvements and additions to the buildings of the Mayo Hospital, Jaipur.

55. *Marwar.*—A female ward at Bilara Dispensary was constructed. The dispensary at Jasole was removed to Balotra on 1st December 1915.

56. *Bharatpur.*—The new building for the City Dispensary, Bharatpur was completed and occupied on the 19th February 1915.

57. *Bikaner.*—Two new dispensaries at (1) Ratangarh and (2) Rajgarh are under construction in place of the old ones.

58. It is propcsed to start a Bacteriological Laboratory at the Bhagwan Dass Hospital, Bikaner.

59. Accommodation for the staff of the Bhagwan Dass Hospital is being increased. A Sterilizing room is being built and an Eye operation room is being fitted.

60. *Alwar.*—An apparatus for the application of Carbon dioxide snow has been supplied to the Alexandra Hospital, Alwar; and is being used with satisfactory results in cases of Oriental Sores and Idolent Ulcers.

61. *Kotah.*—Anæsthetising and Sterilizing rooms, and a verandah for eye work in the out-patient department have been built and taken over for work at the Kotah City Hospital. The new dispensary building at Kishenganj has been completed during the year and taken into use.

62. *Udaipur.*—Some further minor improvements have been made in the Lansdowne Hospital, Udaipur, so far as the site permitted. The hospital has been supplied with some more modern surgical instruments and appliances.

63. A proposal for supplying a complete up to date X-Ray outfit for this institution is still under the consideration of the Durbar.

STATEMENT B.

Attendance at Hospitals.

64. During the year 1915 the number of patients treated at State Public, State Special and Private non-aided institutions, *i. e.*, Native States Dispensaries and Hospitals amounted to 1,492,472 against, 1,520,785 in 1914, a decrease of 28,313; for which the healthiness of the year is responsible. The total indoor attendance fell from 19,397 in 1914 to 18,976 in 1915; and the out-door attendance decreased to 1,473,496 from 1,501,388 in 1914. The number of deaths fell from 687 in 1914 to 642 in 1915 : and the ratio of deaths per cent. of total treated fell from 3·55 to 3·38.

STATEMENTS C (I) AND C (II).

Diseases treated.

65. In Statement C (I) the number of deaths under each head of diseases treated in the in-door department is shown; 18,976 in-patients were treated with a mortality of 642, against 19,397 inpatients and 687 deaths in 1914.

66. 156 normal confinements with 1 death, and 132 abnormal confinements with 5 deaths were reported from the various hospitals, as compared with 171 with 3 deaths, and 141 with 6 deaths respectively in 1914.

67. 1,473,496 out-door patients treated in 1915 are shown in Statement C (II) as compared with 1,501,388 in 1914. The cases treated in hospitals and dispensaries in Rajputana under each chief disease during the year 1913, 1914 and 1915 are as follows :—

Diseases.	1913.	1914.	1915.
Malarial fever	182,189	176,852	153,148
Diseases of the eye	233,635	261,864	249,316
Dysentery and Diarrhœa	47,203	53,031	48,263
Ulcers	137,390	142,715	137,125
Skin diseases	213,328	206,764	201,221
Syphilis	17,361	16,946	14,845
Injuries	41,453	44,514	47,663
Tubercle of the lung	1,577	1,565	1,596
Abscess of the liver	193	100	157

Scurvy.

68. 966 cases of scurvy were treated; against 933 in 1914, and 939 in 1913.

Leprosy.

69. 566 lepers received treatment as compared with 513 in 1914 and 454 in 1913.

70. The Residency Surgeon, Jaipur, reports that 8 lepers were treated with Williams' Leproline, with the same degree of success as was obtained by the administration of Nastin B. Several stock vaccines, *e.g.*, streptococcal, staphylococcal, acne bacilli, were frequently used with marked success in the diseases for which they were indicated.

Plague.

71. During the year from 1st April 1915 to 31st March 1916, 135 plague seizures and 109 deaths were reported in 17 towns and villages infected in the Native States in Rajputana, against 570 cases and 458 deaths in 44 towns and villages in 1914-15. The district of Ajmer-Merwara remained free from plague throughout the year.

72. The disease lingered from the preceding year until May 1915 in Marwar, and up to June in Bharatpur State. Afterwards only imported cases were reported in Marwar, Sirohi, and Mewar in which 8 imported cases with 3 deaths occurred up to the end of the year under report.

73. In Bharatpur 69 cases and 55 deaths were reported in 7 towns and villages, as compared with 198 cases and 122 deaths in 16 towns and villages in 1914-15. The Bharatpur City remained free from plague.

74. No indigenous plague existed in Jaipur and Alwar States during the year under report. Only 2 imported cases and 1 death were reported in the former and 1 fatal case in the latter in April 1915. Jaipur and Alwar City were free from the disease throughout the year.

75. The guard room, dispensary and kitchen at the Jaipur plague camp which consisted of mud huts with thatched or iron roofing, have been replaced by new buildings with "pise" walls on stone in mud foundations. The new huts have been roofed with corrugated iron sheets on iron trusses erected on pipe pillars.

76. No inoculations were performed during the year.

77. The value of evacuation is now generally recognised and directly some deaths take place in a Muhalla of a town or in a village the people voluntarily leave their homes.

78. As the plague outbreak in Rajputana was slight no map has been attached with this report.

Snake poisoning.

79. Calmette's Anti-venine is kept in stock in most of the main dispensaries and used for the treatment of snake-poisoning when opportunity offers. A case of recovery under Antivenene injection is reported from Victoria Hospital, Bharatpur; but the species of snake is not mentioned, nor are any particulars furnished regarding the case.

STATEMENT F.

80. Shows the classes and sexes of both in-door and out-door patients treated in the dispensaries of Ajmer-Merwara and of Native States. This calls for no comment as it is merely introduced for statistical purposes.

STATEMENT G.

81. The number of surgical operations performed during the year in Ajmer-Merwara and in Native States was 81,023 against 75,416: an increase of 5,607. The number of patients operated on was 80,524, as compared with 75,181 in 1914. The numbers cured amounted to 79,218; relieved 642; discharged otherwise 199; and died 125: against 74,047; 524; 230; and 121 in the previous year, while 340 remained under treatment at the end of the year.

82. Of the operations performed 2,444 were extractions of the lens for Cataract; of which 2,170, or 88·79 per cent., proved successful; 68 Lithotomies, 216 Litholapaxies, and 239 Amputations are recorded; against 2,387 lens extractions, 54 Lithotomies, 193 Litholapaxies and 173 Amputations in 1914.

83. 558 abdominal operations were done; of which 33 proved fatal: as compared with 445 abdominal operations with 34 deaths in 1914. Of these, 412 were Paracentesis of abdomen with 15 deaths, and 15 Abscess of the liver with 4 deaths.

84. 1,672 operations were performed at the Victoria Hospital, Ajmer, with 16 deaths; against 1,920 operations with 4 deaths in the previous year. Of these 83 were Extraction of the lens for Cataract, 17 Iridectomies, 11 Litholapaxies, 8 Lithotomies, 16 Radical cure of Hernia, 17 Excision of Cysts, 7 Laparotomies and 5 Amputations; as compared with 64 Extraction of the lens for Cataract, 43 Iridectomies, 15 Litholapaxies, no Lithotomies, 3 Radical cure of Hernia, 13 Excision of Cysts, 1 Laparotomy, 8 Amputations in the previous year as shewn in the table below :—

Operations.	1914.	1915.
Excision of Cysts	13	17
Amputations	8	5
Artificial pupils	...	31
Iridectomies	43	17
Extraction of lens	64	83
Opening of Mastoid Antrum	7	3
Laparotomy	1	7
Colotomy	1	1
Intestinal Anastomosis	2	1
Excision of Appendix	1	2
Radical cure of Hernia	3	16
Nephropexy for floating kidney	...	1
Lithotomies	...	8
Litholapaxies	15	11
Prostatectomy	...	1
Ovariotomy	1	6
Hysterectomy	1	3
	160	213

85. 2,627 operations of all kinds were performed at the Mayo Hospital Jaipur, with 20 deaths; as compared with 2,011 operations with 20 deaths in the previous year. Of these 605 were extraction of the lens for Cataract.

86. Lieutenant-Colonel J. Fisher, D.S.O., I.M.S., operated on 510 and Rai Bahadur Assistant Surgeon Daljang Singh Khanka on 95 Cataract cases with excellent results.

87. 62 Litholapaxies were performed with one death as compared with 56 Litholapaxies with 4 deaths in 1914. The largest stone weighed 1,680 grains.

88. One Lateral perineal Lithotomy was performed, the case died.

89. 8,013 Surgical operations were done in Bharatpur State institutions. Of these, 551 were extraction of lens for Cataract, 3 Lithotomies, 9 Litholapaxies and 21 Amputations against 803, 5, 11 and 17 in the previous year.

90. Of the Cataract operations performed 90 were done by Major T. S. B. Williams, I.M.S., 429 by Assistant Surgeon Onkar Singh, 13 by Sub-Assistant Surgeon Salig Ram and 5 by I. A. Solomon.

91. 2,032 surgical operations were performed in the Dholpur State institutions against 1,903 in 1914. Of these, 405 lenses were extracted for Cataract;

9 Amputations and 2 Lithotomies were done by the Sub-Assistant Surgeon in charge Sadar Dispensary at Dholpur.

92. The Residency Surgeon, Jaipur, states that the treatment of Tubercular diseases of the following varieties by means of Tuberculin had encouraging results.

Tubercular disease of bones and joints		27
Ditto	of glands	32
Ditto	of lungs	65
Ditto	of abscess	18
Ditto	of ulcer	10
	TOTAL	152

93. The Agency Surgeon, Eastern Rajputana States, reports the special treatments as noted below :—

Tuberculosis.

94. Injections of Human and Bovine Bacillary emulsion of Tuberculine were made. Altogether, 24 cases were treated. Generally no marked improvement was noticed in cases of pulmonary Phthisis. One old case of Tubercle of Lung had shown some abatement of symptoms after several injections ; but it had to be discontinued owing to relapsing hæmoptysis. Only in cases of Glandular tuberculosis was an appreciable improvement observed. One of these who has had 16 injections of Bovine tuberculia is very nearly recovered. Several others improved but did not stay in the hospital long enough to enable any definite conclusions to be drawn.

Dysentery.

95. 8 cases of Amæbic dysentery were successfully treated with injections of Emetine Hydrochloride.

STATEMENTS H AND J.

Financial Statements.

96. Statement H shows the income and expenditure of the Government dispensaries and hospitals, and only expenditure on those in Native States.

97. The total income of hospitals and dispensaries in Ajmer-Merwara was R21,653 against R22,640 in 1914. The decrease of R987 was partly due to the fact that certain Istamrardars did not pay their annual contributions.

98. The invested capital of the dispensaries in this Division remained the same as in 1914.

99. In Ajmer-Merwara the total expenditure fell from R19,895 in 1914 to R19,510 ; a decrease of R385, due chiefly to the fact that expenditure under head " Buildings and Repairs " was only R59 against R1,623 in the previous year. But the cost of Europe medicines and diets rose from R3,530 and R1,488 in 1914 to R4,006 and 1,590 in 1915 ; which is attributable to the fact that on the outbreak of war the price of medicines and medical appliances was much enhanced and the cost of diet in India increased.

100. *Native States.*—The total expenditure on hospitals and dispensaries in the Native States of Rajputana fell from R4,58,120 in 1914 to R4,53,480 ; a decrease of R4,640 : which is due to decrease under heads " medicines " and " miscellaneous charges " owing to the restriction of exportation and diminished purchase of drugs from England on account of the War. Public Works Department charges increased from R14,244 in 1914 to R17,898 in Jaipur and Bikaner, States ; *viz.*,—R6,820 in the former and R10,949 in the latter.

101. Of the total cost on hospitals and dispensaries in these States R82,098 were expended in Jaipur ; R67,974 in Marwar ; R55,836 in Bharatpur ; R47,621 in Bikaner ; R47,541 in Kotah ; R43,880 in Mewar ; R31,001 in Alwar ; R12,672 in Jhalawar ; R10,098 in Tonk ; R10,024 in Dholpur ; R6,161 in Karauli ; R4,454 in Banswara ; R4,099 in Sirohi ; R3,823 in Shahpura ; R3,797

in Jaisalmer; R3,552 in Kishengarh; R3,532 in Partabgarh; R3,095 in Bundi; R2,789 in Dungarpur; and R996 in Kushalgarh.

102. The average cost of each case treated in Ajmer-Merwara and in the Native States hospitals and dispensaries was 51 pies and 63 pies against 50 pies and 64 pies respectively in 1914.

103. The Residency Surgeon, Jaipur, states that the Durbar have sanctioned the increase of R400 per annum to the present insufficient Budget allotment for European drugs of the 14 State district dispensaries.

104. The following Thikanas have also increased the budget allotment of the dispensaries they maintain:—

Khetri Thikana—

	R
For Khetri Dispensary to	500
For Kotputli Dispensary to	400
For Chirawa Dispensary to	400

Sikar Thikana—

For Sikar Dispensary to	500

Uniara Thikana—

For Uniara Dispensary to	400

Samodh Thikana—

For Samodh Dispensary to	400

as the prices of medical stores have been on the increase owing to the outbreak of the War and the rates charged for future supplies will fluctuate accordign to Home prices.

Mission Hospitals.

105. During the year there were 7 Mission Hospitals in Rajputana the same as in 1914.

106. The following table shows the total number of in and out-door patients treated and operations performed in these institutions in 1915:—

Name of Hospital.	Out-door Patients.			In-patients.	Operations.	Remarks.
	Old.	New.	Total.			
Ajmer (Male)	80,590	13,346	93,936	825	2,677	
Ajmer (Female)	8,357	4,810	13,167	376	356	1,292 were visited at their homes.
Nasirabad	19,499	8,325	27,824	289	140	
Jaipur	7,282	4,307	11,589	76	184	599 were visited at their homes.
Piploda	3,718	1,180	4,898	...	33	
Jodhpur	26,683	7,078	33,761	76	1,059	358 were visited at their homes.
Udaipur	34,562	15,008	49,570	332	1,415	
Total	1,80,691	54,054	2,34,745*	1,974	5,864	

* Medical statistics of these hospitals are for the Mission year from 1st October 1914 to 30th September 1915.

Railway Hospitals.

107. 634 in and 35,914 out-door patients were treated, and 1,257 operations performed during the year under report in eight dispensaries on the Bombay,

Baroda and Central India Railway within the limits of Rajputana, as per detail below :—

Station.	Number of Patients treated.			Operations.	Remarks.
	In-door.	Out-door.	Total.		
Ajmer	141	11,688	11,829	280	
Phulera	84	5,759	5,843	317	
Bandikui . . .	156	7,406	7,562	120	
Sojat Road . . .	121	1,442	1,563	132	
Abu Road . . .	78	2,552	2,630	219	
Kotah Junction . .	37	2,801	2,838	34	
Gangapur . . .	17	4,266	4,283	125	
Total .	634	35,914	36,548	1,257	

Jails.

108. *Ajmer.*—Although the daily average number of prisoners in the Ajmer Jail rose from 343·20 in 1914 to 390·63 in 1915, the total number of cases admitted to hospital fell from 206 in 1914 to 144 in 1915; the daily average sick from 7·27 to 4·65; the mortality from 4 to 3; and the ratio per mille of average strength from 11·66 to 7·68. The health of the prisoners in the jail has been good throughout the year.

109. Of the 3 deaths, 2 occurred among convicts and 1 among under-trials. One convict died from Tuberculosis of Lung, and one after operation for Epispadias. The under-trial was admitted to the jail suffering from Acute Laryngitis, which proved fatal.

Additions and Alterations.

110. Rupees 3,605-2-5 were spent by the Public Works Department on the jail buildings, as follows; against R7,391-3-10 the previous year :—

(1) Annual repairs to and white washing of the jail buildings and staff quarters were carried out at a cost of R1,547-8-5.

(2) Special repairs to the jail and staff quarters amounted to R2,057-10-0.

111. The Review by the Commissioner, Ajmer-Merwara, on the strength, classification, health, employment, and conduct of prisoners, nature of sentences, jail manufactures, and expenditure of the Jail is given as Appendix A of the Report together with statements.

Native States.

112. The daily average of prisoners in the jails in the Native States rose from 4,108·79 in 1914 to 4,478·73; the daily average number of sick from 65·90 to 70·91; mortality from 78 to 92; and the ratio of deaths per mille of average strength from 18·98 to 20·54.

113. There was no cholera or other epidemic disease in any of the jails in Rajputana.

114. There were no deaths in the jails at Karauli, Partabgarh and Dungarpur.

115. *Jaipur.*—At the Central Jail there has been overcrowding throughout the year. The daily average number of sick rose from 4·79 in 1914 to 5·47; the mortality from 3 to 11; and the ratio of deaths per 1,000 of average strength from 5·12 to 18·30.

116. Two windows were made in the eastern side cells in Barrack No. I and the Jail Hospital and parts of the jail were whitewashed.

117. In the District Jail the total number of admissions into hospital, the daily average number of sick, the mortality and the ratio of deaths per 1,000 of population was less than in the previous year.

118. Substantial and steady progress is being made in all departments and manufactures, under the supervision of Rai Bahadur Norang Rai Khaitan: while the comfort, accommodation and health of the prisoners is excellent.

119. *Jodhpur.*—There was an increase in the average number of prisoners and admissions into hospital compared with the previous year. The deaths were 7 against 2 in 1914 which were due to the following causes:—

Malaria	1
Syphilis Secondary	1
Tubercle of the Lung	1
All other infective diseases	1
Diseases of the nervous system	1
Diarrhœa	1
All other diseases of the digestive system	1

120. *Bikaner.*—The daily average number of prisoners fell from 297·64 in 1914 to 261·49 in 1915 the number admitted into the hospital from 55 to 41 and mortality from 2 to 1.

121. *Alwar.*—Although there was still overcrowding in the jail the number of admissions to hospital fell from 282 in 1914 to 242 in 1915 and the mortality from 6 to 5.

122. *Udaipur.*—There has been overcrowding throughout the year. The Residency Surgeon, Mewar, states that Dysentery, Diarrhœa, and Pneumonia were slightly prevalent in the jail during the year under report. 21 deaths occurred as compared with 18 the previous year. The deaths were due to the following causes:—

Dysentery	6
Diarrhœa	4
"Debility and old age"	4
Pneumonia	4
Fistula and Prolapse of rectum	1
Broncho-pneumonia (after operation)	1
Retention of Urine (after operation)	1

123. Two prisoners escaped: one was recaptured.

Qualified Medical Staff.

124. Lieutenant-Colonel W. E. Scott-Moncrieff, I.M.S. (retired), assumed charge of the duties of Residency Surgeon, Western Rajputana States, Jodhpur, on the forenoon of the 20th February 1915.

125. Lieutenant-Colonel R. Shore, I.M.S. (retired), was posted as Residency Surgeon, Mewar, from the forenoon of 9th March 1915.

126. Major F. E. Wilson, I.M.S., Agency Surgeon, Kherwara, was posted as Director, Medical Department, Bikaner State, with effect from the 21st March 1915.

127. Major T. S. B. Williams, I.M.S., Director, Medical Department, Bikaner State, was posted as Agency Surgeon, Eastern Rajputana States, Bharatpur, with effect from the 23rd March 1915. His services were replaced at the disposal of His Excellency the Commander-in Chief in India with effect from the 17th July 1915.

128. The following officers of the Indian Medical Service held temporary visiting charge of the Agency Surgeoncies noted against their names from and upto the date specified therein in addition to their own duties:—

Lieutenant-Colonel R. C. MacWatt, C.I.E., I.M.S., Chief Medical Officer, Rajputana and Civil Surgeon, Ajmer.	Western Rajputana States Residency Surgeoncy up to 19th February 1915.

Major F. E. Wilson, I.M.S., Agency Surgeon, Kherwara.	Mewar Residency Surgeoncy up to 8th March 1915.
Lieutenant-Colonel J. Fisher, D.S.O., I.M.S., Residency Surgeon, Jaipur.	Eastern Rajputana States Agency Surgeoncy from 1st January to 22nd March 1915 and from 17th July 1915 to date.
Ditto.	Kotah and Jhalawar Agency Surgeoncy from 1st January to 23rd May 1915 and from 3rd July up to date.
Major T. S. B. Williams, I.M.S., Agency Surgeon, Eastern Rajputana States.	Kotah and Jhalawar Agency Surgeoncy from 24th May to 2nd July 1915.
Lieutenant-Colonel R. Shore, I.M.S. (retired), Residency Surgeon, Mewar.	Office of the Medical Officer, Mewar Bhil Corps, and Agency Surgeon, Kherwara, from 16th March 1915 up to date.

129. Mr. D. G. Newland, L.R.C.P. & S., Edinburgh, was on plague duty at Abu Road throughout the year.

Military Assistant Surgeon.

130. Assistant Surgeon R. J. K. Stone, Indian Subordinate Medical Department, in charge of the Northern India Salt Revenue Dispensary at Sambhar, reverted to 5th Mhow Division on Mobilisation, with effect from the afternoon of the 21st June 1915: and Sub-Assistant Surgeon Ashraf Beg, attached to the Raj Dispensary at Sambhar, was appointed to the charge of the Northern India Salt Revenue Dispensary there from that date in addition to his own duties; there being no Military Assistant Surgeon available to relieve R. J. K. Stone.

Civil Assistant Surgeons.

131. There were five Government Civil Assistant Surgeons: two employed in the Ajmer-Merwara District; one at Jaipur; one at Khetri; and one at Bharatpur.

Military Sub-Assistant Surgeons.

132. Eleven Military Sub-Assistant Surgeons were employed with the Imperial Service Corps in Rajputana as in the previous year. Of these, six are on field service with their Corps.

Civil Sub-Assistant Surgeons.

133. At the close of the year there were 152 Government Sub-Assistant Surgeons on the roll, including five Sub-Assistant Surgeons transferred temporarily to military duty on account of the War; against 156 in the previous year. Out of 156 Sub-Assistant Surgeons, three retired on pension, and one died during the year. Of 5 Sub-Assistant Surgeons shown as temporarily transferred to military duty in the previous year one resigned; one returned from, and three remained in military duty. Two Sub-Assistant Surgeons were transferred temporarily to Military duty during the year under report.

134. There were four Lady Doctors employed in the following Native States; against five in the previous year. Miss K. Reed, L.R.C.P. & S. (Edinburgh), L.F.P.S. (Glasgow), and L.M.R.C.P. & S. (Ireland), in charge Walter Female Hospital at Tonk, resigned her appointment on the 10th November 1914. Miss C. M. Peak, M.D., B.Sc. (London), in charge Zenana Hospital, Bikaner, left for England on the 15th April 1915, and Miss J. Marsh, M.D. (Brussels), succeeded her on 15th November 1915.

Kotah	1
Jodhpur	1
Bikaner	1
Jaipur	1

135. The number of Female Sub-Assistant Surgeons attached to the Female Hospitals remained the same as in 1914, *viz.*, 8.

Female Hospitals and Dai Class.

136. *Ajmer.*—Two Lady Doctors have been attached to the Mission Hospital for women at Ajmer throughout the year. Much good has been done by these ladies and their subordinates both in the Hospital and in Zenanas. The number of patients treated and the other medical work done is shown under Mission Hospitals.

137. *Beawar.*—Female Sub-Assistant Surgeon Miss Q. Houlton has been in charge of the female ward of the Charitable Dispensary at Beawar throughout the year. There was a decrease in the number of both in and out-door attendance and operations performed as compared with the figures of the previous year. This is attributable to the fact that the year 1915 was a year of scarcity, and many inhabitants of the surrounding villages migrated to other parts of India.

138. Miss Houlton is zealous and popular; and doing good work, which is appreciated.

139. *Native States.*—The returns received from the Female Hospitals in the Native States of Rajputana show on the whole a considerable decrease of work done during the year under report which is due to decrease of plague and malaria.

140. *Jodhpur.*—Mrs. Stirling, M. B., B.C.H., B.A.O. (Dublin), was in charge of the Jaswant Hospital for women at Jodhpur up to the 24th March, 1915 when she went on leave to Europe. Since then Female Sub-Assistant Surgeon Miss H. Paul has been in sole charge. 61 in and 2,978 out-patients were treated against 70 in and 3,539 out-patients in 1914.

141. *Kotah.*—Female Sub-Assistant Surgeon Miss Helen Buldeo Singh was in charge of the Victoria Jubilee Hospital at Kotah up to the 24th January 1915; when she was relieved by Miss J. Newton, L.R.C.P. & S. (Edinburgh) and L.F.P.S. (Glasgow), who returned from combined leave. There was a decrease of 1,618 out-patients compared with the figures of 1914. 227 in-door patients were treated against 194 in the previous year.

142. 327 operations were performed, against 272 in 1914, of which the following were important operations:—

Excision of Mamma for carcinoma	3
Excision of Cancerous Mass in Pouch of Douglas per vaginam	1
Hysterectomy	1
Dilating and Curetting	9
Excision of tumour growing from the gums	1
Vaginal Atresia	2
Turning for transverse presentation	3
Snellen's operation for trichiasis	1
Deep abscesses	9
Paracentesis abdominis	7

143. The five Dai pupils mentioned in last year's report as being under instruction, continued to work for 4½ months. They were examined on the 1st April 1915. Two of them showed a fair knowledge of what they had been taught, and passed; receiving a bonus of Rs. 2 a month for a year. The remaining three were told to come again during the winter when a Dai Class would be held. But they did not present themselves; and in consequence no class was held. It is very difficult to train Dais, as very few midwifery cases come to the Hospital.

144. *Tonk.*—Miss K. Reed, L.R.C.P. & S. (Edinburgh), L.F.P.S. (Glasgow) and L.M.R.C.P. & S. (Ireland), Lady Superintendent, resigned her post on the 10th November 1914; and the work of the Walter Female Hospital at Tonk was carried on by Female Sub-Assistant Surgeon Imaman under the supervision of the Male Assistant Surgeon there. 211 in and 7,229 out-door patients were treated as compared with 222 in and 7,074 out-patients in the previous year.

145. Female Sub-Assistant Surgeon Miss Blanche Karimullah left Tonk at the end of the year 1914.

146. *Jaipur.*—Miss L. E. Sykes, M. D. and L. R. C. P. & S. (Edinburgh), has been in charge of the female wards of the Mayo Hospital, Jaipur, throughout the year. There was an increase in the numbers of both in and out-door attendance as compared with the previous year which is attributed to the non-appearance of plague in the Jaipur City. Operations on women were 1,120, against 840 in 1914.

147. A sum of R25,000 has been sanctioned by the Durbar for building a new block for families, in memory of the late Lady Hardinge, on the west side of the operation room at Mayo Hospital, Jaipur. The work has begun.

148. Govindi Bai who was admitted into the Female Sub-Assistant Surgeon Class at the Agra Medical School in July 1914, died in Jaipur of Pthisis: and Nangi Bai left the Compounder Class and joined Agra Medical School Sub-Assistant Surgeon Class as a Jaipur State student.

149. The compounding, dressing and nursing in the female wards is done, as usual, entirely by females.

150. *Bikaner.*—Miss C. M. Peake, M. D., B. Sc. (London), held charge of the Zenana Hospital, Bikaner, up to 14th April 1915 and then left for England. The work of this hospital was done by Female Sub-Assistant Surgeon Miss Bessie Karimullah who was appointed from 30th March 1915. From 15th November 1915 Miss J. Marsh, M. D., took over charge of the Zenana Hospital. There was an increase in both in and out-door patients treated as compared with the previous year.

151. *Alwar.*—Female Sub-Assistant Surgeon Bala Bai has been in sole charge of the Dufferin Hospital at Alwar throughout the year. No Lady Superintendent has been appointed since April 1911. 315 in and 1,827 out-door patients were treated; against 357 in and 18,958 out-door patients in 1914.

152. *Bharatpur.*—Female Sub-Assistant Surgeon Mrs. Patwardhan has been in charge of the Female Hospital at Bharatpur throughout the year. The number of in-patients treated in the Hospital was 306 and of out-patients 3,979; as compared with 353 in and 4,835 out-door patients in the previous year.

153. *Udaipur.*—The Walter Female Hospital at Udaipur remained closed during the year under report as there is neither a Lady Doctor nor a Female Sub-Assistant Surgeon.

154. A male compounder from the Lansdowne Hospital, Udaipur, looks after the surgical instruments, appliances and furniture of the hospital.

155. *Dai Class, Ajmer.*—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dai Training Class, Ajmer, throughout the year. The seven pupils who were mentioned in last year's report as being under instruction continued to work till the end of the session, when they were examined by the Civil Surgeon, Ajmer, on the 30th April 1915. All of them passed and obtained certificates and the usual honorarium which is given to successful candidates.

156. Only four pupils were admitted into the current year's class, all of whom are residents of Ajmer. No candidates have been received from the Native States of Rajputana.

157. During the year 17 in-door and 71 out-door cases were treated: and 123 persons sought advice and treatment.

Imperial Service Troops.

158. The hospitals of the Native State Imperial Service Troops are all well equipped; they are under the medical charge of Military Sub-Assistant Surgeons; except those at Jodhpur which are under the medical charge of State enlisted Assistant Surgeons. The Mewar Imperial Service Squadron at Udaipur has been under the medical charge of the Civil Sub-Assistant Surgeon attached to the Lansdowne Hospital.

159. The Alwar and Bharatpur Imperial Service Infantry, the Bikaner Camel corps, and the Jaipur and Bharatpur Imperial Service Transport Corps are on Field Service on account of the War, accompanied by Military Sub-Assistant Surgeons.

Lunatics.

160. *Ajmer.*—Five lunatics remained in the Central Jail, Ajmer, on the 1st January 1915, and 28 were admitted during the year, a total of 33. Of those 15 were transferred to the Lahore Lunatic Asylum, 1 to the Agra Lunatic

Asylum, and 1 to the Yeravda Lunatic Asylum, 12 were made over to their friends and relatives, 2 died and 2 remained in the Jail at the close of the year.

161. *Native States.*—177 lunatics were treated in 1915 the same as in the previous year. Of these 43 were cured, 1 relieved, 37 discharged "otherwise," 2 made over to their friends and relatives, 3 transferred to Lahore Lunatic Asylum (from Jodhpur), 24 died, and 67 remained under treatment, chiefly in the Jaipur Lunatic Asylum.

FAMINE.

162. The Residency Surgeon, Western Rajputana States, Jodhpur, states that, although regular Famine Works have not been opened, Public Works have been extended by the Marwar Durbar to meet the prevailing scarcity.

163. Famine and Poor House Dispensaries have been opened at the following places:—

(1) Famine Dispensary at Bar.
(2) Do. do. Phalodi.
(3) Do. do. Barmer.
(4) Poor House Dispensary at Jodhpur.

R. CHARLES MACWATT, *Lieut.-Col., C.I. E., I.M.S.,*
Chief Medical Officer in Rajputana.

AJMER:

APPENDIX A.

Review on the Ajmer Jail Report for the year 1915.

Charge.—The charge of the office of the Superintendent, Central Jail, was held by Lieutenant-Colonel Robert Charles Macwatt, I.M.S., throughout the year.

2. *Population.*—At the commencement of the year there were 384 prisoners, including convicts and undertrial prisoners. The number of prisoners admitted to the Jail during the year was 1,890 against 1,490 in 1914, of whom 969 were convicts, 909 undertrial and 12 civil prisoners.

The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

—	1914.	1915.
Convicts	743	926
Undertrial	693	923
Civil	3	12
TOTAL	1,439	1,861

The number of prisoners remaining at the close of the year was 413 against 384 in 1914—

Convicts	376
Undertrial	37
Civil	...
	413

The daily average number of prisoners was 390·63, *i.e.*,—

Convicts	346·37	against	304·21 in 1914.
Undertrial	43·16	„	33·46 „ „
Civil	1·10	„	0·53 „ „

3. *Disposal of convicts.*—The following table compares the disposal of convicts (926) during the year under review with that of the preceding year :—

—	1914.	1915.
Released on appeal	41	53
Released on expiry of sentence	523	659
Released on payment of fine	40	57
Released under remission rules for good conduct	87	118
Released on account of sickness	2	...
Transferred to other jails	43	37
Died in Jail	4	2
Executed	2	...
Transferred to Lunatic Asylum	...	...
Escaped	1	...
TOTAL	743	926

4. *Classification of Convicts.*—Excluding the 59 convicts received from

other jails, the remaining 910 convicts admitted in the Jail are classified as under :—

Hindus	617
Mahomedans	286
Native Christians	7
	910

According to age classification, 13 were under 16 years, 770 between 16 to 40, and 111 between 40 and 60, and 16 above 60 years of age.

According to sex, 864 were males and 46 females. Of the 864 male convicts, the majority were labourers, agriculturists and domestic servants as will be seen by the details in the margin.

Agriculturists	272
Labourers	375
Shop-keepers and traders	38
Domestic servants	87
Government servants	39
No occupation	53
TOTAL	864

5. Of the 910 convicts admitted in the Jail, 105 were awarded simple imprisonment, 784 rigorous imprisonment, 11 rigorous imprisonment with solitary confinement, 10 rigorous imprisonment with whipping. The number of convicts sentenced to various terms of imprisonment was as follows :—

PARTICULARS.	Simple imprisonment.	Rigorous imprisonment.	Rigorous imprisonment with solitary confinement.	Rigorous imprisonment with whipping.
Not exceeding one month	92	286	*Nil*	*Nil*
Above 1 month and not exceeding 3 months	6	204	1	2
„ 3 months „ 6 „	6	110	1	1
„ 6 months and not exceeding 1 year	1	114	1	2
„ 1 year „ 2 years	...	39	1	4
„ 2 years „ 5 „	...	23	2	1
„ 5 „ „ 10 „	...	4	5	...
Sentenced to transportation for life	...	3	...	...
Sentenced to death	...	1	...	...
TOTAL	105	784	11	10

6. *Previous convictions.*—The number of previously convicted prisoners admitted during the year under review was 213 as compared with 153 in the previous year, their percentage to the total number of convicts admitted being 23·41.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 298·07, of whom 12·27 were employed as prison officers, 29·36 as prison servants, 10·85 on gardening, 46·28 on preparing articles for consumption in Jail; 191 and 85 as manufacturers. The daily average number exempted from labour was 7·22.

8. *Conduct of prisoners.*—The number of jail punishments of all kinds inflicted was 470 as compared with 323 in 1914. They are classed as below:—

By Criminal Court	3
By Jail officers—	
Solitary confinement	38
Solitary confinement with reduced diet	7
Corporal punishment	5
Other „	417
	470

9. There were only two escapes during the year under review.

10. *Health.*—The general health of the prisoners was good throughout the year. The number of admissions to the Jail Hospital was 144 against 206 in 1914. There were 3 deaths in 1915 as against 4 in 1914.

11. *Juvenile offenders.*—There was no juvenile prisoner in Jail on 1st January 1915, but 13 boys were admitted during the year under review of whom 10 were released, one was transferred to the Reformatory School at Chunar, one to the Agra Central Prison and one remained in the Jail on the 31st December 1915.

12. The profit from Jail manufactures amounted to R2,917-9-4 against R1,004-0-11 in 1914 and the average earning per head of prisoners employed on jail manufactures consequently rose from R6-4-4 in 1914 to R15-3-4 in 1915.

13. *Expenditure.*—The total expenditure in guarding and maintaining the prisoners, including that incurred (1) by the Public Works Department on the buildings and repairs and (2) by Magistrates in guarding and maintaining under-trials, amounted to R33,799-2-5. The average cost per prisoner during the year was R73-13-4 against R80-1-0 in the preceding year.

14. *Inspection.*—The Jail was inspected four times by the Commissioner and Inspector-General of Prisons, Ajmer-Merwara.

C. C. WATSON, *I.C.S.*,
Commissioner, Ajmer-Merwara.

GENERAL SUMMARY.

Showing the Distribution of the Prisoners of all classes confined in the Ajmer Central Jail during the year 1915.

Vide Instructions issued with Jail Department Circular No. 42 of 1885.

TOTAL	126,427	346·37	333	910	1,243	59	...	1,302	29	8	53	659	57	...	...	118	...	...	...	...	2	376

* Of this number 13 boys under 16 years. † Of this number 0 girls under 15 years.

NOTE 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.

2.—Debtors and others detained for default of Government revenue will appear in No. 8.

3.—The "Total" column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.

4.—The "Total population" column 8, is the sum of the numbers 6 plus 7, and necessarily includes many who are counted more than once.

5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.

6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sent need to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.

It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.

7.—When the gangs are employed extra-murally under the orders of Government, No. 1632—48, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

R. C. MACWATT, *Lieut.-Col., I.M.S.*,
Superintendent, Central Jail, Ajmer.

AJMER CENTRAL JAIL:
The 12th February 1916.

STATEMENT No. II.—*Statement showing the religion, age, and previous occupation of the Convicts in the Jail at Ajmer for the year 1915.*

(A) Prisoners admitted during the year should only be shown here, *vide* column 5 of Monthly Statement No. I, from January to December.
* Classes A, B, C and D should be amalgamated for this total. Prisoners who escaped and were recaptured during the year 1915 should not be shown in this and Annual Statement No. IV.
(a) This figure should tally with those shown in column 16 of Monthly Return No. I for December.

AJMER JAIL OFFICE:
The 12th February 1916.

R. C. MACWATT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

STATEMENT No. IV.—*Statement showing the convicts admitted into the Ajmer Jail during the year 1915 who had been previously convicted.*

Sex.	1	2				3	4	
		Number previously convicted.					Juvenile prisoners under 16 years of age (Section 399 of the Criminal Procedure Code).	
	Number admitted during the year.	A	B	C	D	Ratio of column 2 D to column 1.	A	B
		Once.	Twice.	More than twice.	Total.		Number admitted during the year.	Number previously convicted.
Male	864	108	38	65	211	24·42	13	...
Female	46	2	...	...	2	4·35	...	...
Total	910(*a*)	110	38	65	213	23·41	13 (*b*)	...

NOTE.—(*a*) In column 1 will be entered the prisoners admitted during the year, *vide* column 5 of Monthly Statement No. I, from January to December 1915. Numbers in column 2 will be inclusive of the number in column 4.
(*b*) The figures in column 4 A should tally with those shown in column 3 A of Monthly Return No. II for the year.

STATEMENT No. V.—*Statement showing the escapes and re-captures of convicts in the Central Jail at Ajmer for the year 1915.*

1	2			3	4			5			6			
	Escaped during the year.				Re-captured during the year.			Remaining uncaptured.			Unexpired portion of sentence of those who escaped during the year.			
Remaining uncaptured on the last day of the past year.	A	B	C	Grand Total.	A	B	C	A	B	C	A	B	C	D
	From inside the Jail.	From outside the Jail.	Total.		Those who escaped in previous years.	Those who escaped during the present year.	Total.	Of previous years.	Of present year.	Total.	Under 1 year.	Above 1 and under 3 years.	Above 3 and under 7 years.	Above 7 years.
...	...	2	2	2	...	2	2	...	...	...	...	...	Y.M.D. (1) 3 5 21	Y.M.D. (1) 8 0 8

Two prisoners escaped from a Godown outside the Jail on the 13th June 1915, and were recaptured on the same day.

In column 1, and also in column 5 A, only those should be included who have escaped during the previous seven years. In 4 A, if any are entered who have been at large for upwards of seven years, a special note should be added. A footnote should show how many have been struck off, each having escaped more than sever years previously.

STATEMENT No. VI.—*Showing the offences committed by the convicts, and the punishments inflicted on them in the Jail of Ajmer during the year 1915.*

1	2	3	4			5								6
			Breaches of Jail Rules.			Punishment inflicted.

When prisoners of different classes are confined in the same Jail, the expenditure on establishment and other items with which all are concerned should be divided over all. The cost per head under any item of expenditure is to be calculated on prisoners actually concerned in it or contributing to it, and not otherwise. Hospital charges (col. 7) should include rations and also the cost of medicines supplied from the Bazar and the Medical Store Depôt. In this series (Financial) annas and pies are only to be shown where there are columns for them.

STATEMENT No. XII.—*Showing the employment of convicts in the Jail at Ajmer during the year 1915.*

Remarks by the Honourable the Agent to the Governor General in Rajputana.

1. The year was noticeable for a fairly wide-spread epidemic of cholera in the hot weather months, and for the commencement of a plague epidemic in Ajmer-Merwara at the close of the year.

2. The death-rate in Ajmer-Merwara exceeded the birth-rate for the first time since 1910-11.

   The high death rate in this district, which is attributable to the prevalence of malaria, has not been equalled since 1911-12.

3. The remarks made by the Chief Medical Officer, Rajputana, in paragraph 37 of the Report will be brought to the notice of the Ajmer Municipality through the Commissioner.

4. The points mentioned in the first paragraph of my remarks on the Report for 1915 are under the attention of the Ajmer Municipality.

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1916

AND ON

VACCINATION FOR THE YEAR 1916-17.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

1. During the year under report the rainfall of Ajmer was 28·30 inches, against 14·35 inches in 1915. It provided sufficient water in all the tanks and wells throughout the district.

Rainfall in Ajmer.

2. The rainfall recorded in Rajputana generally was unusually heavy, and practically continuous from the beginning of July to the end of September. Almost all the tanks throughout the province filled rapidly: with the unfortunate result that the bunds of many were breached. However, on the whole there was an ample water supply; and the ground water level in the wells rose considerably. In Jaisalmer 12·93 inches of rain were registered, against 4·7 inches in 1915: and in Bikaner 21·10 inches, against 6·58. The Kharif crops were mostly good, and grass has been fairly abundant. The Rabi crops are very satisfactory.

Rainfall in Native States.

VITAL STATISTICS, BIRTHS AND DEATHS.

3. According to the birth returns, 19,398 births were registered in Ajmer-Merwara in 1916, against 21,953 in 1915; a decrease of 2,555.

Births in Ajmer-Merwara.

4. Of the total births registered 10,115 were males and 9,283 females. The birth rate was 38·68 per mille of population, against 43·78 per mille in the previous year. The percentage of male to female births was 108·96, as compared with 113·53 in 1915.

5. During the year 20,296 deaths were registered in this division, against 13,052 in 1915; an increase of 7,244; due to all causes of deaths, including epidemic diseases; with the exception of "Injuries," and, especially, of "Snake bite or killed by wild beasts." The death rate per mille of population was 40·48 against 26·03 in the previous year.

Deaths in Ajmer-Merwara.

6. The mortality from Small-pox was 705, against 3 in 1915; an increase of 702. The disease appeared in January—which is earlier than usual—and was widespread and persistent. It was most fatal in April, when 167 deaths were reported. The mortality among children under five years of age was 57 per cent. of the total deaths; against 55 per cent. in 1915.

7. The total number of deaths from "Fevers" was 15,350, against 10,585 in 1915. The term "Fevers" is very indefinite. No doubt the large increase under this heading was due in large measure to a greater amount of malaria consequent on the generous rainfall; most probably, augmented by undiagnosed cases of Cholera, Measles, Small-pox and other infectious and contagious diseases.

8. The percentage of male to female deaths was 10[illegible]·45, against 110·45 in 1915.

9. The mortality from bowel diseases was 851, as compared with 459 in the previous year; an increase of 392; accounted for by the heavy rainfall.

Number of Cholera cases and deaths reported in Ajmer-Merwara and in Rajputana during the year 1916.

10. Table showing the number of Cholera cases and deaths reported in Rajputana during the year 1916.

Ajmer-Merwara.

11. During the year 1,172 cases of Cholera with 888 deaths were reported in the Ajmer-Merwara District. Of these, 972 cases and 753 deaths occurred in the Ajmer District; and 200 cases with 135 deaths in Merwara.

12. The disease broke out in May, and lasted till the middle of September. It prevailed in an epidemic form chiefly in the Mangliawas and Masuda Circles of the Ajmer District: the figures being 312 cases and 275 deaths in Masuda, and 116 cases and 101 deaths in Mangliawas Circles. It was brought by immigrants returning to Rajputana from Central India, where the disease existed, whither they had taken their flocks and herds on account of prevailing scarcity in Rajputana.

13. In the Town Circles of Registration there were 315 cases with 187 deaths, *viz.*:—

52 cases with 39 deaths in Ajmer City.
41 cases with 15 deaths in Pisangan.
16 cases with 9 deaths in Nasirabad.
114 cases with 66 deaths in Kekri.
92 cases with 58 deaths in Beawar.

14. All necessary precautions were taken throughout the Ajmer-Merwara District in the way of Sanitation: and wells were disinfected. Cholera pills with necessary instructions for use were sent to the Police Stations and to the Tehsildars for distribution.

Native States.

15. During the year, 6,770 cases of Cholera and 4,177 deaths were reported from the Native States of Rajputana; against 2,958 cases and 1,978 deaths in 1915.

16. In April the disease broke out in Dholpur, Jaipur and Bharatpur about the same time, and extended to Marwar, Bikaner, Mewar, Shahpura, Jhalawar, Kotah, Alwar, Kishangarh, Sirohi, Tonk and Karauli.

17. In Dholpur, 59 cases and 47 deaths were reported in one town and two villages from 7th April to 11th September, 1916, of which 2 cases and 1 death occurred in Dholpur City.

18. In Jaipur, 921 seizures with 847 deaths were reported in 15 towns and villages, including Jaipur City and its suburbs, from 15th April to 29th September, 1916. Of these, 687 cases with 677 deaths occurred in Jaipur City and its suburbs, and 4 cases and 1 death in the Central Jail, Jaipur.

19. In Bharatpur, 523 attacks with 261 deaths were reported in 5 towns and 32 villages from 15th April to 3rd November, 1916: of these, 4 cases and 2 deaths occurred in Bharatpur City.

20. In Marwar, Cholera prevailed in epidemic form from 8th May to 18th August. It again broke out from 6th September and lasted up to 25th October, 1916. 1,346 attacks with 972 deaths were reported in 85 towns and villages, including 2 cases and 1 death in Jodhpur City. The disease was introduced by Marwaris returning with their cattle from Malwa.

21. In Bikaner, Cholera broke out on the 17th May, when 3 attacks and 2 deaths were reported. It appeared in Bikaner City on 14th November, and lasted up to 4th December; during which period 42 cases with 36 deaths occurred. It was brought from British territory, where the disease was in epidemic form.

22. In Mewar, 1,134 attacks and 585 deaths were reported between May and October, 1916, in 30 towns and villages, including Udaipur City, in which 406 cases with 264 deaths occurred from 30th May to 12th July, 1916. The disease lasted in the State till the 3rd October, 1916.

23. In Shahpura, Cholera broke out on the 21st May, 1916. The total number of cases and deaths reported in 7 villages was 65 and 36 respectively The disease lasted till the 7th July 1916.

24. In Jhalawar, the disease appeared on 8th June, 1916. 239 seizures and 151 deaths were reported in 4 towns and villages, including the capital, up to the 14th August, 1916. One case died of Cholera in the Jhalrapatan Jail.

25. In Kotah, 535 attacks with 236 deaths were reported between the 12th June and 17th September, 1916, in 22 towns and villages. In Kotah City 7 cases with 2 deaths occurred.

26. Cholera was imported into Alwar by a wedding party from Bharatpur State. 1,136 attacks with 551 deaths were reported in 8 towns and villages from 16th June to 13th October, 1916. Of these, 412 cases and 218 deaths occurred in Alwar City, 16 cases and 6 deaths in Imperial Service Lancers, and one fatal case in the Imperial Service Infantry and the Alwar Central Jail respectively.

27. Cholera prevailed in Kishangarh City from 7th July to 25th August, when it ceased. The disease was conveyed by immigrants from Ajmer City. 245 attacks with 167 deaths were reported. No Kishangarh villages were reported infected.

28. In Kishangarh, 277 persons were inoculated against Cholera : of these 110 received the second dose of vaccine after a ten days interval; the rest received the initial dose only.

29. Leaflets containing information regarding prophylactic were distributed free amongst the inhabitants of Kishangarh City.

30. Medicines for prevention and treatment of actual cholera cases with full instructions were always accessible to the public.

31. Disinfectants were freely supplied to the infected houses throughout the epidemic : and ultimately all the infected houses in Kishangarh City were thoroughly disinfected.

32. In Sirohi, 170 cases and 86 deaths were reported from 16th July to 29th September, 1916, in 3 towns and villages, including Sirohi City, in which 88 seizures with 47 deaths occurred.

33. In Tonk State, 259 attacks and 138 deaths were reported from 18th July to 3rd September, 1916. The capital remained free from the disease throughout the year.

34. Cholera broke out in Karauli City on the 24th August and lasted up to 1st October, 1916, during which period 74 cases with 50 deaths were reported.

35. The usual precautionary and preventive measures were adopted.

36. A Cholera Map is herewith attached.

SANITATION.

Ajmer City Conservancy.

37. The Sanitary condition of Ajmer City and Suburbs is still far from satisfactory. This is especially the case as regards the low-lying undrained ground between the Locomotive Shops of the Bombay, Baroda and Central India Railway and the Mayo College belonging to Malis, where a large population has sprung up, occupying very inferior huts with no proper arrangements by the landlords or others for conservancy. In this region epidemic diseases generally appear first and flourish : at present plague is rife among the inhabitants, who refuse to leave their insanitary houses. It would be well if the whole area could be taken up by the Municipality, the Railway (most of the inhabitants are Railway servants), or some other improvement trust and laid out on Sanitary principles with modern streets and dwellings : and an efficient system of drainage and conservancy enforced—otherwise it will always remain a culture-bed for epidemic diseases.

38. Several foul-water carts have been sanctioned and provided; but the present number of conservancy carts is still insufficient. This complaint is likely to be always more or less existing until surface drainage is introduced.

39. The number of public latrines and urinals is still less than the requirements of the people.

40. Some improvement has been effected in the ventilation of privies.

41. A fourth incinerator has been sanctioned and should soon be constructed.

42. The covered drains in various parts of the city are still in need of improvement.

Water supply.

43. On account of good rains the Foy Sagar filled well and gave a good supply of water to Ajmer from the advent of last monsoon onward, which admitted of the new water-supply of Bhaonta being given a rest.

44. The wells in the city and suburbs are well filled.

45. The improvement of the Municipal meat market is under consideration.

46. *Beawar.*—The supply of drinking water in the Jalia Tank, which ran very low before last rains, is now ample for the whole year.

47. The Sanitary arrangements are much in the same condition as in 1915.

Village sanitation, Ajmer-Merwara.

48. The Commissioner, Ajmer-Merwara, reports that rules for the improvement of village sanitation were restricted to the same villages as last year. On the whole, the rules have worked satisfactorily; but in the villages in the Beawar and Todgarh Tehsils the local officials have been very lax in enforcing them.

Native States.

49. *Jaipur.*—The City Conservancy Tramway continued to work throughout the year. Special arrangements for extra labour and cartage had to be made from time to time to ensure the quick removal of an irregular supply of extra quantities of foul earth and sweepings sometimes brought in.

50. The bulk of the foul earth and sweepings were deposited in the Ganda Nallah; a small amount was utilised for filling pits in some cultivators' fields. Rubbish and city sweepings were burnt in furnaces in the city to save the expense of carriage.

51. 67 latrines were newly constructed, and 190 old latrines were repaired.

52. Jaipur has an excellent drinking water-supply obtained from a series of wells in a river-bed and pumped through pipes to the city.

53. There are also good wells, which are under supervision.

54. *Jodhpur.*—Owing to scanty rains last year, much scarcity of water existed in various parts of the State; but since the arrival of last monsoon the water-supply has been very satisfactory; and all the tanks and wells in Jodhpur City and in the districts are well filled.

55. *Bikaner.*—The sanitation of the city is in the charge of the Municipality, of which the Director, Medical Department, is a member, and President of the Sanitary Committee.

56. *Kotah.*—The following main improvements have been made in the conservancy arrangements for the Kotah City:—

(1) A stone urinal was erected and 2 new galvanised moveable urinals were placed at important places and furnished with iron receptacles.

(2) 1 nightsoil cart, 4 rubbish carts and 5 urine carts were added to the Conservancy Stock.

(3) 24 deserted houses were dismantled and cleared up.

(4) 21 wells and baoris were cleaned and their sediments removed.

(5) The flow of the Chambal river near Kotah being very slow, separate ghats for drinking water and bathing purposes have been fixed.

(6) A new "Jhatka" slaughter-house has been constructed.

57. Steady progress in the Sanitation of the district is reported.

58. *Udaipur.*—The Sanitation of the City is said not to be satisfactory nor under proper control. The conservancy arrangements are under the supervision of the Police. The conservancy staff is inadequate.

59. The Sanitary arrangements in Alwar, Bharatpur City, and in Jhalrapatan Town and Chaoni are looked after by their respective Municipalities and are fairly good.

VACCINATION.

STATEMENT I.

60. In Ajmer-Merwara, including Nasirabad Cantonment, the number of Primary Vaccinations during 1916-17 was 17,823, against 17,393 in 1915-16, and Re-vaccinations 2,011 against 262 in the previous year : the increase under both the heads was mainly due to a small-pox epidemic in this division.

61. The number of vaccinators was 15, and one Native Superintendent, the same as in the previous year. Vaccinator Lala Swaroop Narain was appointed on probation for six months as Native Superintendent on 17th August, 1916, in place of Pandit Ram Chander, who was placed on pension list.

62. Each vaccinator performed an average of 1,295 operations against 1,177 operations in 1915-16; and the cost of each successful case was 34 pies, against 38 pies in the previous year.

63. The Civil Surgeon, Ajmer, inspected 1,257 vaccinated children against 2,137 in 1915-16, of which 1,181 were found successful. The Superintendent of Vaccination at Nasirabad examined 701 children, of which 694 were found successful.

64. The Native Superintendent inspected 205 villages against 455 in the previous year : and examined 3,920 vaccination operations, as compared with 9,579 in 1915-16.

65. 35·14 per thousand of the population in Ajmer-Merwara were successfully vaccinated, against 33·44 in 1915-16.

66. Vaccination in Ajmer-Merwara is not satisfactory; many infants remain unvaccinated, the parents concealing or refusing to produce them. The matter is engaging attention with a view to improving the state of affairs.

General operations in Native States.

67. The Vaccination Returns from the Native States show a falling-off in numbers during the season under report. The average total number of Primary successful vaccinations in Native States was 239,196, against 264,123 in 1915-16. Successful re-vaccination rose from 256 in 1915-16 to 731 in 1916-17.

68. There were 163 Vaccinators, against 162 in the previous year; one less in Bharatpur and one additional vaccinator in Sirohi and Shahpura, respectively. In Deoli Cantonment vaccinations were done by the Sub-Assistant Surgeon attached to the Agency Hospital there, as usual.

69. In the Marwar State, 98 Primary Vaccinations were performed by Sub-Assistant Surgeons in Dispensary towns and 181 vaccinations by the Sub-Assistant Surgeon, Sirohi.

70. 3,977 war prisoners at Sumerpur in Marwar were revaccinated, of which 492 proved successful, a remarkably low percentage.

71. 22·74 per thousand of the population in the Native States were successfully vaccinated against 25·05 in 1915-16.

STATEMENT II.

Expenditure on Vaccination in Ajmer-Merwara.

72. The total expenditure on Vaccination in Ajmer-Merwara was Rs. 3,147-4-9 in 1916-17, as compared with Rs. 3,316-9-7 in 1915-16, a decrease of

Rs. 169-4-10, due to the fact that the new Native Superintendent draws a minimum pay of Rs. 24 per mensem of the appointment.

Expenditure on Vaccination in Native States.

73. The total expenditure on Vaccination in Native States was Rs. 33,312-15-9, as compared with Rs. 35,011-9-8, a decrease of Rs. 1,698-9-11 on all heads of expenditure. The average cost of each successful vaccination in different States varied from 17 pies in Kotah to 16·8 pies in Jaisalmer.

74. The following table shows the number of towns and villages inspected and vaccinations seen by Residency or Agency Surgeons in Native States.

Designation.	Number of towns and villages inspected.	Number of Vaccination cases seen.
The Residency Surgeon, Western Rajputana States . .	45	5,649
The Residency Surgeon, Mewar	41	1,169
The Director, Medical Department, Bikaner	5	3,417
The Residency Surgeon, Jaipur	1	315

75. 2,389 vaccinated children were inspected by the Assistant Surgeon at Kotah; and 795 by the Assistant Surgeon in charge of the Agency Surgeon's office, Eastern Rajputana States at Bharatpur. The officiating State Surgeon of Alwar inspected 1,380 vaccinations.

76. The Native Superintendents of Vaccinations and other inspecting officers in Native States inspected 94,591 vaccinations against 108,006 in 1915-16. The percentage of inspected cases found successful among the total number seen in 1916-17 was 98·69, against 98·92 in 1915-16. The diminution in the number of vaccinations performed and of those inspected by Native Superintendents suggests that this state of affairs is due to the withdrawal of the driving power of so many Residency and Agency Surgeons on account of the War.

77. Lymph is kept up throughout the year in most of the important States by arm-to-arm vaccination; glycerinated vaccine lymph was obtained during the year from the Government Bovine Lymph Depôts and was generally satisfactory.

78. The Residency Surgeon, Jaipur, writes that it is hoped the entire vaccination work some day may be carried on with the lymph manufactured in the Laboratory and arm-to-arm vaccination system ultimately stopped.

Section II.—DISPENSARIES.

Statement A.

Number of Dispensaries.

79. On the 1st January, 1916, there were 177 Hospitals and Dispensaries of all classes open; and on the 31st December, 1916, there were 178. This represents a gain of one, by the opening of a new Dispensary at Amber in Jaipur State on the 1st June, 1916.

The Dispensaries are classified as under:—

I. State Public	8
II. State Special	13
V. Private non-aided (*i.e.* Native States)	157
Total .	178

80. Besides these there are now six Mission Dispensaries and one Hospital; and 8 Dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana.

81. *Jaipur.*—The sum of R1,499 was spent in effecting improvements and additions to the Mayo Hospital buildings.

Structural improvements.

82. *Marwar.*—The new building for the Dispensary at Phalodi was completed and occupied in December 1916.

83. *Bikaner.*—New Dispensary buildings at (1) Ratangarh and (2) Rajgarh have been constructed.

84. *Kotah.*—A Chowki for the guard is being constructed at the City Hospital, Kotah. Quarters for the Assistant Surgeon, Baran, are under construction outside the City near the Railway Station.

85. *Udaipur.*—On 10th November, 1916, the Lansdowne Hospital was honoured by a visit from Their Excellencies the Viceroy and Lady Chelmsford.

STATEMENT B.

Attendance at Hospitals.

86. During the year under report the number of patients treated at State Public, State Special, and Private non-aided (*i.e.* Native States) Dispensaries and Hospitals, amounted to 1,645,798 against 1,492,472 in 1915; an increase of 153,326.

87. The In-door attendance, which fell from 19,397 in 1914 to 18,976 in 1915, rose to 19,876 in 1916; and the out-door attendance, which fell from 1,501,388 in 1914 to 1,473,496 in 1915, shows an increase to 1,625,922 in the year under report. The increase in both departments is very gratifying and bears testimony to the good work of the Medical Officers of all grades and to the appreciation of it shown by the people themselves.

STATEMENTS C (I) AND C (II).

Diseases treated.

88. In statement C (I) the number of deaths under each head of diseases treated in the In-door department is shown: 19,876 in-patients were treated, with a mortality of 700, as compared with 18,976 in-patients and 642 deaths in 1915. The difference of 171 patients between columns 8 and 53 of Statements B and C (I) respectively is due to the out-door Labour cases (171) being included in statement C (I).

89. 1,625,922 out-door patients treated in 1916 are shown in Statement C (II) against 1,473,496 in 1915.

90. The cases treated in Hospitals and Dispensaries in Rajputana under each chief disease during the years 1914, 1915 and 1916 are as follows:—

Diseases.	1914.	1915.	1916.
Malarial fever	176,852	153,148	251,309
Diseases of the eye	261,864	249,316	279,295
Dysentery and Diarrhœa	53,031	48,263	66,819
Ulcers	142,715	137,125	146,083
Skin diseases	206,764	201,221	187,001
Syphilis	16,946	14,845	15,271
Injuries	44,514	47,663	45,860
Tubercle of the lung	1,565	1,596	1,598
Abscess of the liver	100	157	130

Scurvy.

91. 820 cases of Scurvy were treated, as compared with 966 in 1915, and 933 in 1914.

Leprosy.

92. 430 Lepers received treatment, against 566 in 1915, and 513 in 1914. No special reports on the use of Nestin have been received. The Residency Surgeon, Jaipur, reports that 39 Lepers were treated with Dr. Williams' Leproline; with what results it has not been stated.

Plague.

93. During the year from 1st April, 1916, to 31st March, 1917, 1,633 plague seizures and 1,285 deaths were reported in 59 towns and villages infected in Ajmer-Merwara District and in the Native States in Rajputana; as compared with 135 seizures and 109 deaths in 17 towns and villages in 1915-16. The percentage of total plague deaths to population was 1·39 *vide* table attached, against 1·38 in the previous year.

94. The number of inoculations performed in 1916-17 was at the following places:—

Nasirabad Cantonment	6,654
Ajmer City	2,621
Ramsar	41

Ajmer-Merwara.

95. 856 seizures and 643 deaths were reported in the Ajmer-Merwara District in 15 towns and villages from October, 1916, to 31st March, 1917. Of these, 396 cases and 296 deaths occurred in Ajmer City. Cases were imported from time to time throughout the winter from Nasirabad and other infected places. These were detected, and efficient steps taken to prevent the spread of the disease, until the 1st March, 1917, when indigenous cases were discovered with large Rat mortality; and an epidemic rapidly developed.

96. The Plague Hospital Camp in Ajmer City is still in existence and a Sub-Assistant Surgeon is in charge of it.

97. Plague broke out in Nasirabad Cantonment on the 11th November, 1916, when two cases were imported from Karachi, which proved fatal. 157 cases and 98 deaths occurred in the Cantonment up to the 31st March 1917. 303 cases and 249 deaths were reported in other towns and villages in Ajmer District.

98. In Merwára only 3 imported cases occurred at Beawar, which proved fatal.

Native States.

99. 777 cases of Plague and 642 deaths were reported from Native States against 135 cases and 109 deaths in 1915-16.

100. The epidemic affected 8 States and 44 towns and villages, as compared with 6 States and 17 towns and villages in the previous year.

101. *Marwar.*—The disease lingered from the preceding year until April, 1916. It re-appeared in the middle of January, 1917. 371 cases and 334 deaths were reported in 24 towns and villages, against 57 cases and 50 deaths in 6 towns and villages in the previous year. Plague inspection posts remained open throughout the year at Jodhpur, Marwar Junction, Barmer, and Kuchaman road. 39 persons were inoculated in Didwana, where the epidemic was severe and protracted.

102. *Siroki.*—3 imported cases with 2 deaths were reported at Abu Road throughout the year. 9 persons were inoculated.

103. *Jaipur.*—The State of Jaipur was free from plague from April, 1916, to January, 1917. 159 attacks and 146 deaths were reported in 5 towns and villages including the Jaipur Plague Camp during February and March, 1917. 4 inoculations were done in the Mayo Hospital, Jaipur, on 28th March, 1917.

104. *Kishangarh.*—There was no plague in Kishangarh State from April to December, 1916. 92 seizures and 69 deaths were reported in 3 towns and villages from January to March 1917. 10 persons were inoculated at Kutsoora village, which was plague-infected

105. In Bharatpur, 57 cases and 35 deaths were reported in 4 towns and villages, against 69 cases and 55 deaths in 7 towns and villages in 1915-16. Only one fatal case of plague was reported in Bharatpur City on the 18th March 1917.

106. *Alwar.*—2 cases of plague were imported from Jubbulpur into Harsana village, Luchmangarh Tehsil, and died on the 8th and 11th February, 1917, respectively : 17 cases and 11 deaths from indigenous plague in the village were reported during March, 1917. The rest of Alwar State remained free from the disease.

107. *Tonk.*—Plague appeared in Achari village, Nimbahera Pargana, on 18th March, 1917. 13 cases and 8 deaths were reported up to the 31st March, 1917.

108. *Mewar.*—63 cases and 35 deaths were reported in 5 towns and villages. Of these, 58 cases and 32 deaths were indigenous in village Kenara in Chitorgarh Zillah; and 5 were imported with 3 deaths, *viz.*, 1 fatal case in Udaipur City, 1 fatal case in Chhoti Sadri, 1 fatal case in Samri village in Chitorgarh Zillah, and 2 cases in Bhilwara which recovered.

109. Evacuation has been readily resorted to in infected towns and villages. The villagers themselves now realize the benefit of this measure.

110. As the plague outbreak in Rajputana was slight, no Map has been attached with this report.

Snake Bites.

111. Calmette's Anti-Venine is kept in stock in most of the main dispensaries and used for the treatment of snake poisoning when opportunity offers. No special reports have been received on the subject.

STATEMENT F.

112. Shows the classes and sexes of both in-door and out-door patients treated in the dispensaries of Ajmer-Merwara District and of Native States. This calls for no comment, as it is merely introduced for statistical purposes.

STATEMENT G.

113. The number of surgical operations performed during the year in Ajmer-Merwara and in Native States was 80,084 against 81,023 ; a decrease of 939. The number of patients operated on was 79,783 as compared with 80,524 in 1915. The numbers cured amounted to 78,549, relieved 653, discharged otherwise 232, and died 114; against 79,218, 642, 199 and 125 in the previous year; while 235 remained under treatment at the end of the year.

114. Of the operations performed, 2,464 were extraction of the lens for Cataract, of which 2,292 or 93·02 per cent. were reported successful; 61 Lithotomies; 211 Litholapaxies; and 226 Amputations are recorded; against 2,444 lens extractions, 63 Lithotomies, 216 Litholapaxies, and 239 Amputations in 1915.

115. 548 Abdominal operations were performed : of which 34 proved fatal : as compared with 558 operations with 33 deaths in 1915. Of these, 399 were Paracentesis of Abdomen with 18 deaths, 19 Abscesses of the Liver with 1 death, and 16 Laparotomies with 8 deaths.

116. 1,878 operations were performed at the Victoria Hospital, Ajmer, with 8 deaths, as compared with 1,672 operations with 16 deaths in 1915. Of these, 105 were Extraction of the lens for Cataract, 9 Lithotomies, 21 Litholapaxies, 6 Amputations, 8 Ovariotomies, and 3 Hysterectomies: against 83

extractions of the lens for Cataract, 8 Lithotomies, 11 Litholapaxies, 5 Amputations, 6 Ovariotomies, and 3 Hysterectomies in the previous year, as shown in the table below :—

Operations.	1915.	1916.
Excision of Cysts	17	22
Amputations	5	6
Artificial pupils	31	25
Iridectomies	17	12
Extraction of lens	83	105
Opening of Mastoid Antrum	3	7
Laparotomy	7	1
Colotomy	1	3
Intestinal Anastomosis	1	...
Excision of Appendix	2	1
Radical cure of Hernia	16	8
Nephropexy for floating kidney	1	...
Lithotomies	8	9
Litholapaxies	11	21
Prostatectomy	1	3
Ovariotomy	6	8
Hysterectomy	3	3
TOTAL	213	234

117. 2,670 operations of all kinds were performed at the Jaipur Mayo Hospital with 20 deaths, as compared with 2,627 operations with 20 deaths in 1915. Of these, 530 were extractions of the lens for Cataract, 3 Lithotomies, 48 Litholapaxies; which are distributed as follows :—

——	Cataract.	Lithotomy.	Litholapaxy.
Lieutenant-Colonel J. Fisher, I.M.S., Residency Surgeon, Jaipur	373	1	27
Rai Bahadur Assistant Surgeon Daljang Singh, Khanka	157	2	21

118. 7,675 surgical operations were done in Bharatpur State institutions. Of these, 624 were extractions of the lens for Cataract, 8 Lithotomies, 7 Litholapaxies, and 21 Amputations; against 551, 3, 9, and 21 in the previous year.

119. Of the Cataract operations performed, 561 were done by Assistant Surgeon Onkar Singh, 46 by Sub-Assistant Surgeon Salig Ram, and 17 by Sub-Assistant Surgeon I. A. Solomon at Biana.

120. 2,028 operations were performed in the Dholpur State institutions, against 2,032 in 1915. Of these 384 lens were extracted for Cataract by Sub-Assistant Surgeon Bijey Narain in charge Sadar Dispensary at Dholpur.

121. The Residency Surgeon, Jaipur, states that the treatment of Tubercular diseases of the following varieties by means of Tuberculin had encouraging results :—

Tubercular disease	of bones and joints	36
Ditto	of glands	59
Ditto	of lungs	84
Ditto	of abscess	7
Ditto	of ulcer	3
	TOTAL	189

122. The Agency Surgeon, Eastern Rajputana States, reports the special treatments as noted below :—

Dysentery.

123. All cases of Amæbic Dysentery were successfully treated with injections of Enetine Hydrochloride. The usual dose of Enetine given was 3 grains, but in one case the progress was very slow even after 6 grains of the drug had been administered.

Tetanus.

124. 2 cases of Tetanus were treated with very satisfactory results with injections of 3 per cent. Carbolic Acid Solution in combination with ordinary Sedative treatment. No Anti-Tetanus Serum was given in these cases.

STATEMENTS H AND J.

Financial Statements.

125. Statement H shows the income and expenditure of the Government dispensaries and hospitals, and only expenditure on those in Native States.

126. The total income of Hospitals and Dispensaries in Ajmer-Merwara was R23,068 against R21,653 in 1915. This increase is partly due to recovery of arrears of subscription from one of the Istimrardars, and partly to the fact that subscriptions from Indians rose from R2,595 in 1915 to R3,865. A sum of R521 was paid as subscription by Europeans.

127. The invested Capital of the dispensaries in this Division remained the same as in 1915.

128. In Ajmer-Merwara the total expenditure was R22,723 as compared with R19,510 in 1915, chiefly under heads Bazar medicines and miscellaneous charges.

129. On the expenditure side the cost of Europe medicines increased from R4,006 in 1915 to R5,635 in 1916; of Bazar medicines from R395 to R962; of miscellaneous charges from R2,616 to R3,007; and of buildings or repairs from R59 to R535.

130. *Native States.*—The total expenditure on Hospitals and Dispensaries in Native States of Rajputana rose from R4,53,480 in 1915 to R4,72,800 in 1916. This is due to increase under all heads except "Buildings and Repairs." The increase in expenditure is attributed to increased cost of drugs and materials owing to the War and dearness of provisions.

131. Of the total expenditure on Hospitals and Dispensaries in these States, R94,330 were expended in Jaipur, R67,723 in Marwar, R56,308 in Bharatpur, R50,147 in Bikaner, R49,925 in Kotah, R36,019 in Mewar, R34,087 in Alwar, R12,668 in Dholpur, R11,934 in Jhalawar, R11,128 in Tonk, R6,428 in Karauli, R5,342 in Dungarpur, R4,716 in Banswara, R4,377 in Kishangarh, R4,301 in Sirohi, R3,985 in Shahpura, R3,677 in Bundi, R3,330 in Partabgarh, R3,004 in Jaisalmer, and R954 in Kushalgarh.

132. The average cost of each case treated in Ajmer-Merwara and in the Native States Hospitals and Dispensaries was 61 pies and 60 pies, against 51 pies and 63 pies respectively in 1915.

Mission Hospitals.

133. During 1916 the number of Mission Hospitals in Rajputana was 7, as in 1915.

134. The following table shows the total number of in- and out-door patients treated and operations performed in these institutions in 1916.

Name of Hospital.	Out-door Patients.			In-patients.	Operations.	Remarks.
	Old.	New.	Total.			
Ajmer (Male) .	77,655	13,767	91,422	36	2,537	
Ajmer (Female) .	6,856	4,970	11,826	521	319	1,470 were visited at their homes.
Nasirabad . .	25,206	10,115	35,321	361	856	
Jaipur . .	6,594	3,510	10,104	42	224	705 were visited at their homes.
Piploda . .	9,421	4,769	14,190	...	85	379 were visited at their homes.
Jodhpur . .	21,828	8,286	30,114	53	1,058	492 were visited at their homes.
Udaipur . .	33,239	15,101	48,340	223	1,363	
Total .	1,80,799	60,518	241,317*	1,236	6,442	

* Medical statistics of these hospitals are for the Mission year from 1st October 1915 to 30th September 1916.

Railway Hospitals.

135. 666 in- and 38,177 out-door patients were treated, and 1,158 operations were performed during the year in eight Railway dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana, *viz.*:— 2 at Ajmer, 1 at Abu Road, 1 at Sojat Road, 1 at Phulera, 1 at Bandikui, 1 at Kotah Junction, and 1 at Gangapur as per detail below :—

Station.	Number of Patients treated.			Operations.	Remarks.
	In-door.	Out-door.	Total.		
Ajmer	232	14,359	14,591	452	
Phulera	95	5,722	5,817	74	
Bandikui . . .	132	5,501	5,633	81	
Sojat Road . . .	5	1,677	1,682	226	
Abu Road . . .	105	4,218	4,323	179	
Kotah Junction . .	60	2,544	2,604	46	
Gangapur . . .	37	4,156	4,193	100	
Total .	666	38,177	38,843	1,158	

Jails.

136. *Ajmer.*—The daily average number of prisoners in the Ajmer Jail rose from 390·63 in 1915 to 431·83 in 1916. The total number of admissions

into hospital and the daily average number of sick was 191 and 6·38, as compared with 144 and 4·65 in 1915. The number of deaths (all of convicted prisoners) was three, the same as in 1915; due to (1) Saccular aneurysm of Thoraciaorta (1) Fibroid phthisis, and (1) Acute Catarrhal Bronchitis.

137. The review by the Commissioner, Ajmer-Merwara, on the strength, classification, health, employment, and conduct of prisoners, nature of sentences, Jail manufactures, and expenditure of the jail is given as Appendix A of the Report, together with statements.

Native States.

138. The daily average number of prisoners in the jails in the Native States fell from 4,478·73 in 1915 to 4,394·64 in 1916; the daily average number of sick from 70·91 to 69·55; the mortality from 92 to 81; and the ratio of death per mille of average strength from 20·54 to 18·43.

139. The only Jails in Rajputana in which epidemic disease occurred were Central Jail, Jaipur, Cholera four cases with one death. Alwar Central Jail, Cholera one fatal case: and Jhalawar Central Jail, Cholera one fatal case.

140. There were no deaths in the jails at Shahpura, Jaisalmer, Partabgarh and Dungarpur.

141. *Jaipur.*—At the Central Jail there has been overcrowding throughout the year. The daily average number of sick rose from 5·47 in 1915 to 7·14, and admissions into hospital from 111 to 132: but the ratio of deaths per mille of average strength fell from 18·30 to 10·34; and the mortality from 11 in 1915 to 6 in 1916.

142. In the District Jail the total number of average strength, the total number of admissions into hospital, and the daily average number of sick, were less than in the previous year.

143. Substantial and steady progress is reported in all departments and manufactures, under the supervision of Rai Bahadur Norang Rai Khaitan.

144. *Jodhpur.*—The average number of prisoners rose from 603·70 in 1915 to 645·11; the number of admissions to hospital from 266 to 302; the mortality from 7 to 8, and the ratio of deaths per mille of average strength from 11·60 to 12·40. The deaths were due to the following causes:—

Dysentery one, Pneumonia two, Rheumatic fever and Rheumatism one, Anæmia one, all other diseases of liver one, all other diseases of digestive system one, and local injury one.

145. *Bikaner.*—The daily average number of prisoners was 261·33 against 261·49 in 1915. The total number of admissions to hospital rose from 41 in 1915 to 65 in 1916; mortality from 1 to 2: and ratio of deaths per 1,000 of average strength from 3·82 to 7·65.

146. *Alwar.*—Although there was still overcrowding throughout the year, the number of admissions to hospital fell from 242 in 1915 to 233 in 1916; but the mortality rose from 5 in 1915 to 12 in 1916; due to Cholera one, Dysentery one, Pneumonia three, Rheumatism two, Anæmia one, Respiratory diseases one, Diseases of the Digestive System two, and Poisoning one.

147. *Udaipur.*—There has been overcrowding in the jail throughout the year. The Residency Surgeon, Mewar, states that Pneumonia was prevalent during the year. The mortality fell from 21 in 1915 to 14 in 1916; and the ratio of deaths per 1,000 of average strength from 39·16 to 25·84.

148. *Pertabgarh.*—In this jail no sick are reported to have been treated in the hospital.

149. *Banswara.*—The health of the prisoners has been fairly good throughout the year. The daily average number of prisoners fell from 73·53 in 1915 to 71·45; the number admitted into the hospital from 43 to 15; and mortality, from 13 to 4.

Qualified Medical Staff.

150. Lieutenant-Colonel J. Fisher, D.S.O., I.M.S., Residency Surgeon, Jaipur, relinquished charge of his civil duties on the 17th November, 1917, on reversion to military duty in connection with the war.

151. The following officers of the Indian Medical Service held temporary visiting charge of the Residency and Agency Surgeoncies as noted against their names from and up to the dates specified in addition to their own duties :—

Lieutenant-Colonel J. Fisher, D.S.O., I.M.S., Residency Surgeon, Jaipur.	Eastern Rajputana States Agency Surgeoncy, and Kotah and Jhalawar Agency Surgeoncy from 1st January, 1916, to 21st May, 1916, and from 1st July, 1916, to 16th November, 1916, respectively.
Lieutenant-Colonel R. C. MacWatt, C.I.E., I.M.S., Chief Medical Officer in Rajputana and Civil Surgeon, Ajmer.	Eastern Rajputana States and Kotah and Jhalawar Agency Surgeoncies from 22nd May to 30th June, 1916. Residency Surgeoncy, Jaipur and Agency Surgeoncies, Eastern Rajputana States and Kotah and Jhalawar from 17th November, 1916, to the end of the year.

152. Mr. D. G. Newland, L.R.C.P.&S. (Edinburgh), remained on Plague duty at Abu Road up to 1st November, 1916, when he was permitted to resign the service. Second Class Sub-Assistant Surgeon Moolchander Singh, attached to the Government Charitable Dispensary at Abu Road, took over charge of the Plague Inspection work and Plague Camp there from Mr. Newland on the forenoon of the 1st November, 1916, in addition to his own duties.

Medical practitioner.

153. Mr. N. J. Rodrigues, L.R.C.P.&S. (Edinburgh), was appointed in temporary medical charge of the Northern India Salt Revenue Dispensary at Sambhar for two years with effect from the 19th July, 1916.

Civil Assistant Surgeons.

154. There were five Government Civil Assistant Surgeons ; two employed in the Ajmer-Merwara District, one at Jaipur, one at Khetri and one at Bharatpur.

Military Sub-Assistant Surgeons.

155. Eleven Military Sub-Assistant Surgeons were employed with the Imperial Service Corps in Rajputana as in the previous year. Of these, six are on Field service with their Corps.

Civil Sub-Assistant Surgeons.

156. At the close of the year 140 Government Sub-Assistant Surgeons remained on the roll, including 4 Sub-Assistant Surgeons transferred temporarily to Military duty on account of the War ; against 151 on 31st December, 1915. Out of 151 Sub-Assistant Surgeons, two retired on pension, 7 were transferred to the United Provinces of Agra and Oudh, 1 to Bihar and Orissa, and 1 to the Central Provinces.

157. There were four Lady Doctors employed in the following Native States as in the previous year :—

Kotah	1
Jodhpur	1
Bikaner	1
Jaipur	1

158. The number of Female Sub-Assistant Surgeons attached to the Female Hospitals is only 6, against 8 in 1915. There was no Female Sub-Assistant Surgeon in the Zenana Hospital at Bikaner during the year under report. Female Sub-Assistant Surgeon Mrs. Patwardhan in charge of the Hospital for women at Bharatpur resigned her appointment on the 27th August, 1916.

Female Hospitals and Dai Class.

159. *Ajmer.*—Two Lady Doctors have remained attached to the Mission Hospital for women at Ajmer throughout the year. Much good work has been done by these ladies and their subordinates, both in the Hospital and in Zenanas. The number of patients treated and the other medical work done is shown under Mission Hospitals.

160. *Beawar.*—Female Sub-Assistant Surgeon Miss Q. Houlton has been in charge of the Female ward of the Charitable Dispensary at Beawar throughout the year. There was an increase in the number of out-door attendance as compared with the figures of 1915, due to Malaria after the heavy rainfall, and the popularity of Miss Houlton.

161. 836 operations were performed, against 621 in the previous year. Of these, 68 were important Major operations as shown below :—

Delivery in tedious Labour cases by manipulation or Forceps	7
Removal of Retained Placenta	3
Curetting of uterus for Endometritis and its attendant conditions	6
Operations for cataract	8
Operations for Trichiasis	27
Other operations on the eye for Hypopion, Glaucoma, Corneal Opacities and Pterygium	5
Litholapaxy for Vesical Calculus	1
Ligaturing of Piles	2
Paracentesis of Abdomen for Ascites	5
Excision of breast for Carcinoma	1
Rhinoplasty	2
Laparatomy	1

162. The Female Sub-Assistant Surgeon is zealous and popular, and doing good work, which is appreciated.

163. *Native States.*—The returns received from the Female Hospitals in the Native States of Rajputana show on the whole a general increase, both in in-door and out-door attendance : which is due in great measure to increase of Malarial fevers owing to heavy rainfall.

164. *Jodhpur.*—Mrs. Stirling, M.B., B.C.H., B.A.O. (Dublin), returned from leave and resumed charge of the Jaswant Hospital for women at Jodhpur on the 20th January, 1916, from Female Sub-Assistant Surgeon Miss H. Paul. 82 in- and 3,656 out-patients were treated against 61 in- and 2,978 out-patients in the previous year.

165. *Kotah.*—Miss J. Newton, L.R.C.P.&S. (Edinburgh), and L.F.P.S. (Glasgow), has been in charge of the Victoria Jubilee Hospital, Kotah, throughout the year. The number of in-patients treated in the Hospital was 237, and of out-door patients 7,478; against 227 in-door and 6,272 out-door patients in 1915.

166. 312 operations were performed, against 343 in the previous year.

167. 21 Midwifery cases were treated in the Hospital. 15 Midwifery cases were treated at their homes by the Lady Superintendent, 8 by Female Sub-Assistant Surgeon, and 51 by both the Midwives attached to the Hospital.

168. No Dai class was held at Kotah in 1916. Three Dais were sent to the Ajmer Dai Training Class. Of these, two only were admitted. one was sent back on account of old age and loss of vision. Of the two admitted, one refused to remain and left of her own accord.

169. *Jaipur.*—Miss S. E. Sykes, M.D.(Brussels), L.R.C.P.&S. (Edinburgh), and L.F.P.S. (Glasgow), has been in charge of the Female wards of the Mayo Hospital, Jaipur, throughout the year. There was an increase in the number of in-patients as compared with the figures of 1915. Operations on women were 1,011, against 1,120 in the previous year.

170. The building of the new block for families in memory of the late Lady Hardinge is nearing completion.

171. Her Excellency Lady Willingdon visited the Hospital on the 18th February, 1916.

172. On November 10th, 1916, the Hospital was honoured by a visit from Their Excellencies the Viceroy and Lady Chelmsford.

173. Female student Nangi continues her studies at the Agra Medical School in the Female Sub-Assistant Surgeon Class as a Jaipur State student.

174. No Dai Class was held at Jaipur during the year. Three Dais were sent to the Ajmer Dai Class for training in July, 1916: one, with a young infant in her arms, was not admitted to the class. Of the two admitted one was discharged on 4th October 1916 after being confined of twins which monopolised her entire attention and time.

175. *Bikaner.*—Miss J. Marsh, L.R.C.P.&S. (Edinburgh), L.F.P.S. (Glasgow), and M.D. (Brussels), has been in charge of the Zenana Hospital at Bikaner throughout the year. 225 in- and 12,784 out-door patients were treated; against 199 in- and 7,084 out-door patients in 1915.

176. 118 Major and 496 Minor operations were performed, as compared with 105 Major and 439 Minor operations in the previous year.

177. There is no Female Sub-Assistant Surgeon in the Hospital.

178. *Tonk.*—The work of the Walter Female Hospital at Tonk was carried on by Female Sub-Assistant Surgeon Imaman during the year, under the supervision of the Male Assistant Surgeon, Tonk State. There was a decrease in in-door attendance as compared with the figures of 1915, which is no doubt due to the want of a Lady Superintendent.

179. 31 Major and 316 Minor operations were performed, against 25 Major and 358 Minor operations in the previous year.

180. *Alwar.*—Female Sub-Assistant Surgeon Bala Bai has been in sole charge of the Dufferin Hospital at Alwar. 289 in- and 17,865 out-patients were treated, against 315 in- and 18,279 out-door patients in 1915.

181. 67 Major and 1,051 Minor operations were done, against 102 Major and 1292 Minor operations in the previous year.

182. *Bharatpur.*—Female Sub-Assistant Surgeon Mrs. Patwardhan held charge of the Hosaital for women at Bharatpur up to the 27th August, 1916, when she resigned her appointment. Since then Male Sub-Assistant Surgeon Ram Sahai of the Victoria Hospital there has been working in her place in addition to his own duties. 306 in- and 4,198 out-door patients were treated, as compared with 306 in- and 3,979 out-door patients in 1915. The increase in the number of out-patients is due to increased sickness after heavy rainfall.

183. *Udaipur.*—The Walter Zenana Hospital, Udaipur, has remained closed since the 15th January, 1913. Female Medical aid, as stated by the Residency Surgeon, Mewar, is urgently needed for the Pardahnashins and other women of the State.

184. Dai Class, Ajmer.—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dai Training Class, Ajmer, throughout the year. The four pupils who were mentioned in last year's report as being under instruction continued to work till the end of the Session, when they were examined by the Civil Surgeon, Ajmer, on the 29th April, 1916. All of them passed and were granted certificates; and the usual honorarium.

185. Six pupils were admitted into the current year's class, of whom one came from Jodhpur, one from Jhalawar, 1 from Jaipur, and one from Kotah: and two were admitted locally.

186. During the year 21 in-door and 60 out-door maternity cases were treated. In addition, 121 persons sought advice and treatment for diseases incidental to women.

Imperial Service Troops.

187. The Hospital of the Native States Imperial Service Troops are all well equipped: they are under the medical charge of Military Sub-Assistant Surgeons; except those at Jodhpur, which are under the Medical charge of

State enlisted Assistant Surgeons. The Mewar Imperial Service Squadron at Udaipur has been under the medical charge of the Civil Sub-Assistant Surgeon attached to the Lansdowne Hospital.

188. The Alwar and the Bharatpur Imperial Service Infantry, the Bikaner Camel Corps, and the Jaipur and the Bharatpur Imperial Service Transport Corps are still on Field Service on account of the War, accompanied by Military Sub-Assistant Surgeons.

LUNATICS.

189. *Ajmer.*—There were 2 lunatics in the Central Jail, Ajmer, on 1st January, 1916, and 24 were admitted during the year; a total of 26. Of these, 9 were transferred to the Lahore Lunatic Asylum, 1 to the Agra Lunatic Asylum, 8 were made over to their friends and relatives, and 2 discharged as weak minded. Six lunatics remained in the Jail at the close of the year.

190. *Native States.*—138 Lunatics were treated against 177 in 1915; of these 22 were cured, 18 discharged otherwise, 2 transferred to Agra Lunatic Asylum (from Kotah), 1 made over to relatives, 23 died and 72 remained in the Jails at the close of the year.

191. There are special Lunatic Asylums in—

Jaipur	Jodhpur
Alwar	Bikaner.

FAMINE.

192. Famine Dispensaries at Bar, Barmer, and Phalodi and a Poor-house Dispensary at Jodhpur, remained open up to May, July, August and October respectively.

193. In all the above Dispensaries 71 in-door and 5,211 out-door patients were treated: and 324 operations were performed.

APPENDIX A.

Review on the Ajmer Jail Report for the year 1916.

Charge.—The charge of the office of the Superintendent, Central Jail, was held by Lieutenant-Colonel Robert Charles Macwatt, I.M.S., throughout the year.

2. *Population.*—At the commencement of the year there were 413 prisoners, including convicts and undertrial prisoners. The number of prisoners admitted to the Jail during the year was 1,662 against 1,890 in the year 1915, of whom 849 were convicts, 806 undertrial, and 7 Civil prisoners. The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

—	1915.	1916.
Convicts	926	868
Undertrial	923	804
Civil	12	7
TOTAL	1,861	1,679

The number of prisoners remaining at the close of the year was 396 against 413 in 1915—

Convicts	357
Undertrial	39
Civil	...
	396

The daily average number of prisoners was 431·83, *i.e.*,—

Convicts	398·84
Undertrial	32·37
Civil	0·62

3. The following table compares the disposal of convicts (868) during the year under review with that of the preceding year :—

—	1915.	1916.
Disposal of Convicts—		
Released on appeal	53	38
Released on expiry of sentence	659	553
Released on payment of fine	57	54
Released under remission rules for good conduct	118	182
Released on account of sickness	...	...
Transferred to other jails	37	35
Died in Jail	2	3
Executed	...	...
Transferred to Lunatic Asylum	...	3
Escaped	...	...
TOTAL	926	868

4. Excluding the 88 convicts received from other jails, the remaining 761 convicts admitted in the Jail are classified as under :—

Hindus		543
Mahomedans		206
Christians	European	1
	Eurasian	3
	Native	6
All other classes		2
		761

According to age classification, 12 were under 16 years, 644 between 16 to 40 years, 95 between 40 to 60 years, and 10 above 60 years of age.

According to sex, 704 were males, 57 females. Of the 704 male convicts, the majority were labourers, agriculturists and domestic servants, as will be seen by the details in the margin.

Agriculturists	173
Labourers	369
Shop-keepers and traders	40
Domestic servants	76
Government servants	78
No occupation	28
TOTAL	704

5. Of the 761 convicts admitted in the Jail, 62 were awarded simple imprisonment, 681 rigorous imprisonment, and 18 rigorous imprisonment with solitary confinement.

The number of convicts sentenced to various terms of imprisonment was as follows :—

PARTICULARS.	Simple imprisonment.	Rigorous imprisonment.	Rigorous imprisonment with solitary confinement.	Rigorous imprisonment with whipping.
Not exceeding one month	48	207	1	...
Above 1 month and not exceeding 3 months	10	164	1	...
„ 3 months „ 6 „	2	125	3	...
„ 6 months and not exceeding 1 year	2	125	5	...
„ 1 year „ 2 years	...	26	4	...
„ 2 years „ 5 „	...	17	4	...
„ 5 „ „ 10 „	...	15	...	...
Sentenced to transportation for life	...	2	...	...
Sentenced to death	...	...	...	...
TOTAL	62	681	18	...

6. *Previous convictions.*—The number of previously convicted prisoners admitted during the year under review was 189 as against 213 in the previous year, their percentage to the total number of convicts admitted being 24·84.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 346·18, of whom 25·14 were employed as prison officers, 42·84 as prison servants, 13·84 on gardening, 35·55 on

preparing articles for consumption in Jail and 218·87 as manufacturers. The daily average number exempted from labour was 8·15.

8. *Conduct of prisoners.*—The number of jail punishments of all kinds inflicted was 520 as compared with 470 in 1915. They are classified as below:—

By Criminal Court	4
By Jail offences :—	
Solitary confinement	41
Solitary confinement with reduced diet	12
Reduced diet	7
Corporal punishment	3
Other „	453
	520

9. There was no escape during the year under review.

10. *Health.*—The general health of the prisoners was good throughout the year. The number of admissions to the Jail Hospital was 191 against 144 in 1915. There were 3 deaths as against 3 in 1915.

11. There was one juvenile prisoner in Jail on 1st January 1916, 9 boys were admitted during the year under review making a total of 10 juveniles of whom 9 were released and one was transferred to Agra Central Prison.

12. The profits from Jail manufactures amounted to R100-2-9 against R2,917-9-4 in 1915 and the average earning per head of prisoners employed on jail manufactures was R0-7-4 against R15-3-4 in 1915. The decrease in profits is attributed to the enhanced cost of raw materials.

13. *Expenditure.*—The total expenditure in guarding and maintaining the prisoners, including that incurred (1) by the Public Works Department on the buildings and repairs and (2) by Magistrates in guarding and maintaining under-trial prisoners amounted to R37,445-8-7. The average cost per prisoner during the year was R74-12-2 against R73-13-4 in the preceding year.

L. W. REYNOLDS, *I.C.S.*,
Commissioner, Ajmer-Merwara.

GENERAL SUMMARY.

Showing the Distribution of the Prisoners of all classes confined in the Ajmer Central Jail during the year 1916.

Total	145,976	398·84	376	761	1,137	88	...	1,225	34	1	38	553	54	...	...	182	...	3	...	...	3	357	

* Of this number 12 boys under 16 years. † Of this number girls under 15 years.

NOTE 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.

2.—Debtors and others detained for default of Government revenue will appear in No. 8.

3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.

4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.

5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.

6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.

It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.

7.—When the gangs are employed extra-murally under the orders of Government, No. 1632—48, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

R. C. MACWATT, *Lieut.-Col., I.M.S.*,
Superintendent, Central Jail, Ajmer.

Remarks by Lieutenant-Colonel J. Manners Smith, V.C., C.V.O., C.I.E., Hon'ble the Agent to the Governor-General, Rajputana, and Chief Commissioner, Ajmer-Merwara.

The year under report has been marked by an abnormally high mortality owing to the outbreak of plague and a virulent type of fever. These outbreaks were directly connected with the phenomenally heavy rainfall. With the advent of the hot weather plague has died down and it is hoped that the epidemic will not revive in the present year to anything approaching the same extent.

One satisfactory feature is the increasing popularity of inoculation, to which the public are now largely resorting both in Ajmer-Merwara and in many of the States.

The epidemics have thrown much extra work on Colonel MacWatt and the other medical officers in Rajputana whose services I desire to acknowledge.

The introduction of sanitary reforms in Ajmer continues to engage the attention of the authorities. The Municipal Regulation is being remodelled with a view to increasing the effective control of the Committee in sanitary matters. The chief obstacles in the path of progress, however, are difficulties of a financial nature: these difficulties can hardly be expected to diminish during the war.

REPORT

ON

SANITATION, DISPENSARIES, AND JAILS IN RAJPUTANA FOR 1917

AND ON

VACCINATION FOR THE YEAR 1917-18.

SECTION I.—SANITATION AND VACCINATION.

METEOROLOGY AND ITS RELATION TO FOOD SUPPLY.

Rainfall in Ajmer-Merwara.

1. During 1917 in Ajmer-Merwara the rainfall was abnormally heavy. Frequent and good showers occurred throughout April and May, the result being a very mild hot weather. The monsoon arrived early in June and lasted long. In Ajmer 48·30 inches of rain were registered, against 28·30 inches in 1916; being 23·34 inches above the average of the previous six years. All the tanks and wells throughout the district received more than a sufficient supply.

Rainfall in Native States.

2. The rainfall recorded in Rajputana generally was excessive, and practically continuous from June to the end of October. Almost all the tanks throughout Rajputana filled rapidly; and much damage was sustained by the breaching of many of the Bunds. The water level in the wells rose considerably; nearly to the old water level. Owing to heavy and continuous rain the Kharif crops were greatly damaged and in many places spoiled altogether. Grass has been fairly abundant. The Rabi crops are excellent.

VITAL STATISTICS, BIRTHS AND DEATHS.

Births in Ajmer-Merwara.

3. 18,455 births were registered in Ajmer-Merwara in 1917, against 19,398 in 1916, a decrease of 943.

4. Of the total births registered, 9,835 were males and 8,620 females. The birth rate was 36·81 per mille of population against 38·68 per mille in 1916. The percentage of male to female births was 114·10 as compared with 108·96 in the previous year.

Deaths in Ajmer-Merwara.

5. In Ajmer-Merwara 51,623 deaths were registered, against 20,296 in 1916; an increase of 31,327 due chiefly to plague and malaria which existed in severely epidemic form throughout the district, and to the prevalence of Small-pox. The death rate per mille of population was 102·96, compared with 40·48 in 1916.

6. The mortality from Small-pox was 1,275, against 705 the previous year, an increase of 570. The disease appeared in January, and was most prevalent in April when 297 deaths were reported. The mortality among children under 5 years of age was 41 per cent. of the total deaths, against 57 per cent. in 1916.

7. 34,300 deaths from "Fevers" were reported, as compared with 15,350 in 1916: accounted for by the heavy rainfall and the consequent outbreak of Malaria in epidemic form.

8. 1,187 deaths were recorded from Bowel diseases against 851 in the previous year, an increase of 336, due no doubt to the wetness of the season.

9. The percentage of male to female deaths was 99·77 against 106·45 in 1916.

Number of Cholera cases and deaths reported in Ajmer-Merwara and in Rajpulana during the year 1917.

10. The above table shows the total number of cholera cases and deaths reported in Rajputana during the year 1917.

Ajmer-Merwara.

11. According to this, with the exception of 11 cases and 9 deaths reported in Ajmer City in June, July and August, Ajmer-Merwara District was free from the disease.

Native States.

12. 89 cases with 60 deaths were reported from the Native States of Rajputana against 6,770 cases and 4,177 deaths in 1916.

13. In Jaipur 37 seizures with 36 deaths were reported from 22nd March to 13th October, 1917. Of these, 36 cases and 35 deaths occurred in Jaipur City including 1 case in the Central Jail and 1 fatal case in Sambhar town, as compared with 921 attacks and 847 deaths in the previous year.

14. In Bharatpur 41 seizures with 19 deaths were reported in 3 towns in September and October, 1917. Bharatpur City was free from the disease.

15. In Karauli 11 cases with 5 deaths were reported in September, 1917 in 1 village.

16. The usual precautionary and preventive measures were adopted.

17. As the Cholera outbreak in Rajputana was slight no map has been attached to the report.

SANITATION.

Ajmer City Conservancy.

18. The sanitary condition of Ajmer City and suburbs is still far from perfect. Endeavours are being made by the Municipality to increase the number of foul water and rubbish carts which are scarcely sufficient to meet the wants of an increasing population: and more public latrines and urinals which are required will be provided when circumstances permit. The difficulty in obtaining iron, the high prices ruling on account of the war, and the financial state of the Municipality suffice to retard progress in this respect.

19. Galvanised Iron movable receptacles for the collection of solid and liquid matter have been provided in almost all private latrines.

20. Many old private latrines which were insanitary have been improved by opening ventilators and carrying out structural alterations.

21. The covered drains in the city and suburbs are insanitary and in great need of improvement. The matter is under the consideration of the conservancy Sub-Committee.

22. The slaughter house, meat and beef markets and the butchers' shops still leave much to be desired: and required improvements when funds permit.

23. The nightsoil from private houses is collected by birat sweepers who carry it in receptacles to the tramway collecting station: their work is unsatisfactory.

24. The nightsoil and rubbish as also the foul water of Ajmer is conveyed by steam tramway from the collecting station to the trenching ground, about $3\frac{1}{2}$ miles distant.

25. The Municipality cannot afford to pay a qualified Assistant Health Officer. The Civil Surgeon of Ajmer, who is much overworked, along with the conservancy Sub-Committee spends several hours a week in settling questions of insanitation and visiting sites which are reported as unhygienic: but the authority of the Sub-Committee would appear to be very limited; and, in many cases, resolutions passed by them cannot be carried into effect with the expedition necessary in sanitary matters, on account of want of summary powers, or by reason of technical or legal difficulties. The result is that there is undue delay in remedying some of the most flagrant cases of insanitation. Municipal rules are under revision and it is hoped this defect will soon be removed.

26. The shortage of sweepers is a cause of grave anxiety and hindrance to the work. Their ranks have been further depleted by the epidemics of plague and malaria which have visited Ajmer during 1917.

27. Several absorption pits have been constructed as an experimental measure for dealing with surplus water from hydrants and other sources: the results, so far, are encouraging.

28. A large part of the expenditure on sanitation is incurred in carting sullage water gratuitously from the houses of citizens up hill to the tramway terminus. Surface drainage of the city and suburbs is urgently required and a conservancy tax should be introduced, to be paid by all householders, to enable the Conservancy Sub-Committee to deal efficiently with sanitary matters.

29. I would strongly urge that an officer of the Indian Medical Service be appointed to Ajmer, who would be of much assistance to the Civil Surgeon and enable that officer to attend to the medical and sanitary wants of the Ajmer-Merwara District: and not the least important of his duties would be attention to the practical sanitation of Ajmer for which he should receive a Municipal allowance at least equivalent to the salary formerly paid to so-called Assistant Health Officers who have generally been super-annuated Sub-Assistant Surgeons of little use in Public Health Matters.

30. On account of heavy and continuous rain the Foy Sagar, Ana Sagar, Bhaonta and Budha Pushkar which are the main sources of water supply to the City and Railway workshops filled to overflowing.

Water supply.

31. The wells, Baoris, and Jhalras in the city and suburbs are also well filled.

32. *Beawar.*—The supply of drinking water in the Jalia Tank is ample for the whole year.

33. The sanitary arrangements are in the same condition as in 1916.

34. The Commissioner, Ajmer-Merwara reports that rules for the improvement of village sanitation were restricted to the same villages as last year.

Native States.

35. *Jaipur.*—For all conservancy purposes the Light Railway performs valuable work. Rubbish and City sweepings are burnt in incinerators. The foul earth and sweepings were deposited in the Gandah Nallah, only a part having been used up in filling pits in some private fields.

36. 65 Latrines were newly constructed and 419 old latrines were repaired.

37. *Mayo Hospital Well.*—The Jhiri well in the Hospital compound was deepened to the extent of 23 feet.

38. Jaipur has an excellent drinking water supply obtained from a series of wells in a river bed and pumped through pipes to the City; there is also a good well water supply which is carefully supervised.

39. *Jodhpur.*—The City Conservancy Steam Tramway worked satisfactorily. Owing to heavy and continuous rainfall all tanks and wells in Jodhpur City and in the districts received an ample water supply.

40. *Bikaner.*—The sanitation of the City is under the care of the Municipality, of which the Principal Medical Officer is a member and the President of the Sanitary Sub-Committee.

41. *Kotah.*—The following improvements have been made in the conservancy arrangements of Kotah City:—

(1) Eight rubbish carts and three urine carts were added to the conservancy stock.

(2) Thirty-one receptacles were purchased for nightsoil.

(3) One Pakka Latrine for males with 37 seats and two Pakka Latrines for females with 33 seats were built to replace old ones which were dismantled.

(4) A compound wall was added to the Slaughter House in Sripura.

(5) Owing to continuous heavy rainfall 24 houses in the City fell in. They were demolished and reconstructed.

(6) All wells and Baoris filled with water.

42. Kotah City shows evidence of continuous sanitary improvements.

VACCINATION.

STATEMENT I.

43. The total number of persons vaccinated in Ajmer-Merwara including Nasirabad fell from 19,429 in 1916-1917 to 13,694 in 1917-1918. There was also a decline in the average number of successful primary operations, the average number of persons vaccinated by each Vaccinator, and in the average number of persons successfully vaccinated per 1,000 of population, which were 16,112, 1,295, and 35·14 respectively in the preceding year. The total number of re-vaccinations in 1917-1918 was 437 against 2,011 in 1916-1917 and that of successful re-vaccinations 362, as compared with 1,507 in the previous year. The decrease under all heads was due chiefly to the severe epidemics of Plague and Malaria in this Division.

44. The number of vaccinators was 15, the same as in the previous year : and one Native Superintendent.

45. The Civil Surgeon, Ajmer inspected 98 vaccinated children against 1,257 in 1916-1917, all of whom were found successful. The Superintendent of Vaccination at Nasirabad examined 680 children, all of whom were found successful.

46. The Native Superintendent inspected 453 villages against 205 in 1916-1917 ; and examined 5,025 vaccination operations, as compared with 3,920 in the previous year.

47. Vaccination in Ajmer-Merwara is not satisfactory ; many infants remain unvaccinated, the parents concealing or refusing to produce them.

General operations in Native States.

48. The Vaccination Returns from the Native States show a falling-off under all heads due to the severe epidemic of Plague and Malaria throughout Rajputana during the season. The total number of primary vaccinations in Native States was 190,290 of which 184,179 were successful, against 244,080 primary and 239,196 successful operations in the preceding year. Re-vaccination also fell from 4,249 in 1916-1917 to 228 in the year under report.

49. There were 163 vaccinators, the same as in the previous year, 1 less in Jaisalmer and Bharatpur, respectively, and one additional vaccinator in Bikaner and Karauli. As vaccinations were performed entirely by the Sub-Assistant Surgeon attached to the Agency Hospital, Deoli, no vaccinator was employed in Deoli Cantonment during the season.

50. *Western Rajputana States.*—The Residency Surgeon reports that an attempt has been made to re-organise the whole system of vaccination in Marwar State and to introduce the method of vaccinating from sterile lymph only. The services of Mr. Ravishanker Vijeyshanker Chhaya were borrowed from Kathiawar and the new methods started from 1st December, 1917. A complete scheme for the re-organisation of the work has been submitted to the State authorities.

51. 17·47 per thousand of the population in the Native States were successfully vaccinated against 22·74 in 1916-1917.

STATEMENT II.

Expenditure on vaccination in Ajmer-Merwara.

52. The total expenditure on vaccination in Ajmer-Merwara was ₹3,181-15-4 against ₹3,147-4-9 in 1916-1917.

53. The cost of each successful vaccination in this division was 49 pies against 34 pies in 1916-1917.

Expenditure on vaccination in Native States.

54. The total expenditure on vaccination in Native States was R34,919-15-1 as compared with R33,312-15-9 in 1916-1917: the increase is due to the fact that glycerinated lymph was obtained on payment from the Government Bovine Lymph Depôts. The cost of each successful vaccination in different States varied from 18 pies in Kotah to 166 pies in Jaisalmer.

55. The following table shows the number of towns and villages inspected and Vaccination seen by Residency or Agency Surgeons in Native States:—

Designation.	Number of towns and villages inspected.	Number of vaccination cases seen.
The Residency Surgeon, Western Rajputana States . .	1	180
The Residency Surgeon, Mewar	8	491
The Principal Medical Officer, Bikaner State . . .	6	2,975
The Agency Surgeon, Eastern Rajputana States . . .	8	1,134

56. The Officiating State Surgeon of Alwar inspected only 445 vaccinations in Alwar City as he could not go out in the district owing to prevalence of plague in the Capital. 1,210 vaccinated children were inspected by the Assistant Surgeon, Jhalrapatan.

57. The Native Superintendents of Vaccinations and other inspecting officers in Native States inspected 69,388 vaccinations against 94,591 in 1916-1917. The percentage of inspected cases found successful among the total number seen in 1917-1918 was 98·39 against 98·69 in 1916-1917.

58. Lymph is maintained throughout the year in most of the important States by arm to arm vaccinations. Glycerinated lymph was obtained during the year from the Government Lymph Depôts and was generally satisfactory.

Section II.—DISPENSARIES.

Statement A.

Number of Dispensaries.

59. During the year there were 179 Hospitals and Dispensaries in Rajputana against 178 in the previous year. The Jodhpur-Bikaner Railway Dispensary at Luni in Marwar was opened on the 27th January, 1917.

60. The dispensaries are classified as under:—

I. State Public	8
II. State Special	13
V. Private non-aided (*i.e.*) Native States	158
Total .	179

61. Besides these there are now six Mission Dispensaries and one Hospital and 8 Dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana.

Structural improvements.

62. *Jaipur.*—The sum of R727 was spent in effecting improvements and additions to the buildings of the Mayo Hospital.

63. *Marwar.*—The new hospital preliminary plans have been made by Mr. Wittet, Government Architect, Bombay; and when they are approved by

the Durbar he will proceed to the detailed plans. The buildings will be erected on a plot of ground between the Railway Station, Jodhpur and the City.

64. *Bharatpur.*—A special Eye ward is under construction at the Victoria Hospital, Bharatpur in memory of His Majesty the late King-Emperor Edward VII.

65. New buildings for the Sikri Dispensary are nearly complete and will be occupied shortly.

66. *Alwar.*—By permission of His Highness the Maharajah of Alwar Shah Ram Gopal of Rajgarh constructed a new ward at the Rajgarh Dispensary to commemorate the memory of his deceased father Shah Kanahia Lal, with accommodation for 8 male and 6 female patients, a Female Dressing room, a small orchard and a Masonry Dispensary well at a total cost of Rs. 5,757-13-3.

67. *Kotah.*—Quarters for the Assistant Surgeon, Baran, have been completed and occupied.

68. *Mewar.*—A proposal has been submitted to the Durbar for building a new Dispensary at Chhoti Sadri, with in-door accommodation as the present building is unsatisfactory.

Statement B.

Attendance at Hospitals.

69. During the year under report the number of patients treated at State Public, State Special, and Private non-aided (*i.e.*, Native States) Dispensaries and Hospitals amounted to 1,862,753 against 1,645,798 in 1916, an increase of 216,955. The year has been an unhealthy one and the people have freely availed themselves of the benefits of Hospital and Dispensary treatment.

70. Of the total number of patients 19,343 were in-door and 1,843,410 out-door, as compared with 19,876 in-door and 1,625,922 out-door in 1916. The number of deaths rose from 700 in 1916 to 799 in 1917, and the ratio of mortality rose from 3·52 to 4·13 in 1917.

Statements C (*i*) and C (*ii*).

Diseases treated.

71. In Statement C (*i*) the number of deaths under each head of diseases treated in the in-door department is shown; 19,343 in-patients were treated amongst whom 799 proved fatal; against 19,876 in-patients and 700 deaths in the previous year. The difference of 148 patients between columns 8 and 53 of Statement B and C (*i*) respectively is due to 148 out-door Labour cases being included in Statement C (*i*).

72. 146 Normal confinements with no deaths and 155 Abnormal confinements with 6 deaths were reported from various Hospitals; against 175 with 2 deaths, and 111 with 4 deaths respectively in 1916.

73. 1,843,410 out-door patients treated in 1917 are shown in statement C (*ii*) against 1,625,922 in 1916.

74. The cases treated in the Hospitals and Dispensaries under each chief disease during the years 1915, 1916 and 1917 are as follows:—

Diseases.	1915.	1916.	1917.
Malarial Fever	153,148	251,309	460,599
Diseases of the eye	249,316	279,295	267,410
Dysentery and Diarrhœa	48,263	66,819	60,642
Ulcers	137,125	146,083	152,353
Skin diseases	201,221	187,001	183,883
Syphilis	14,845	15,271	13,604
Injuries	47,663	45,860	43,487
Tubercle of the Lung	1,596	1,598	1,469
Abscess of the Liver	157	130	250

Scurvy.

75. 555 cases of scurvy were treated against 820 in 1916 and 966 in 1915.

Leprosy.

76. 379 Lepers received treatment as compared with 430 in 1916, and 566 in 1915. The Jaipur Residency Surgeon reports that 32 Lepers were treated with Leproline. Some were treated with Sodium gynocardate according to Sir Leonard Rogers' method; patients treated thus derived the same benefit as the others from Leproline.

Plague.

77. The year from 1st April, 1917 to 31st March, 1918, was marked by a very severe outbreak of plague throughout the Province; and the disease still prevails.

78. 116,168 Plague seizures and 98,192 deaths were reported in 2,101 towns and villages infected in Ajmer-Merwara District and in the Native States of Rajputana against 1,633 cases with 1,285 deaths in 59 towns and villages in 1916-1917.

79. The percentage of total plague deaths to population was 2·26 as shown in Table attached, as compared with 1·39 in the previous year.

80. 90,948 Anti-plague Inoculations were done during the year under report at the following places:—

Ajmer City	3,666
Ajmer District	279
Jaipur City	14,028
Kishangarh City	1,017
Marwar State	16,790
Bikaner City	2,945
Sirohi (Abu Road)	628
Alwar	4,000
Tonk	1,865
Shahpura	885
Kotah	8,000
Jhalawar	2,968
Mewar	10,508
Banswara	1,684
Bundi	10,579
Deoli Cantonment	4,018
Kherwara Cantonment	3,270
Bharatpur	2,909
Dholpur	574
Karauli	335
TOTAL	90,948

81. In the Ajmer-Merwara District 13,213 seizures and 9,670 deaths were reported in 271 towns and villages against 856 attacks and 643 deaths in 15 towns and villages in 1916-1917, of these 11,281 cases with 8,194 deaths occurred in 193 towns and villages in Ajmer District and 1,932 cases and 1,476 deaths in 78 towns and villages in Merwara District. In Ajmer city there were 4,910 attacks and 3,330 deaths in 1917-1918, including 2 cases and 1 death in the Ajmer Central Jail, and 5 cases and 2 deaths in the Depot 44th Merwara Infantry, and in Beawar Town 1,025 and 642 respectively from the 2nd April, 1917, the date on which indigenous plague appeared:—

Ajmer-Merwara.

(1) Pamphlets in English, Urdu and Hindi regarding plague prevention, etc. were freely distributed.

(2) Rat traps were issued to the citizens as asked for.

(3) Two sects amongst the citizens the "Sewa Samati" and "Sewa Sang-Gaushala" made their own arrangements for tending and treating Plague patients and for disposing of dead bodies. The Mussalman community arranged for the decent interment of poor Mohamedans who died from plague.

(4) Extra establishment of Inspectors, peons and Inspecting Gangs have been entertained by the Municipality for disinfection.

(5) Anti-plague inoculation was performed in the Victoria Hospital at Ajmer. At first a goodly number of citizens presented themselves for inoculation; and persons from surrounding villages, Chiefships and Estates came in freely.

(6) The occupants of the Ajmer Civil Lines received notices to prevent immigrants from the city and elsewhere from entering their compounds. All compounds, houses and cottages in the Civil Lines are inspected daily by an Inspector.

(7) Disinfection was carried out as necessary.

(8) Evacuation has been readily resorted to in infected towns and villages. The villagers themselves now realised the benefit of the measure.

82. 102,955 cases and 88,522 deaths from plague were reported from Native States against 777 cases and 642 deaths in 1916-1917.

Native States.

83. The epidemic prevailed in all the Native States except Jaisalmer; and 1,830 towns and villages including the Deoli, Kherwara and Erinpura Cantonments were infected, as compared with 8 States and 44 towns and villages in the previous year.

84. *Jaipur.*—Plague continued to prevail in epidemic form in the State from the preceding year. 25,147 seizures and 23,994 deaths were reported in 325 towns and villages. Of these 5,652 attacks and 5,620 deaths occurred in Jaipur City including the Plague Camp.

85. Inoculations were done at the Mayo Hospital, Jaipur and some towns belonging to the nobles in the district.

86. *Marwar.*—Plague continued in epidemic form in the State of Marwar throughout the year. 25,440 cases and 22,937 deaths were reported in 271 towns and villages: of these 2,627 cases and 2,602 deaths occurred in Jodhpur City.

87. The Residency Surgeon, Western Rajputana States, reports that energetic rat baiting operations were started all over the Jodhpur section of the Jodhpur-Bikaner Railway, and two Sub-Assistant Surgeons were specially deputed to conduct the baiting and also to offer inoculations to all who wished to avail themselves of protection. The result of the campaign at Jodhpur was encouraging, only three cases occurred in the area of operations, *viz.*, within the Railway Station yard, Workshops, Railway quarters and Bungalows; while in the city over 100 deaths a day were being recorded.

88. Some 1,400 workmen in the Railway Workshops at Jodhpur were inoculated. Only one case of plague was reported among the men, a carpenter who had refused inoculation. The workmen all lived in and near the city.

89. Senior Grade 2nd Class Sub-Assistant Surgeon Madan Lal worked unremittingly throughout the plague epidemic at Nagaur and Jodhpur, and rendered great assistance to the sick. The Marwar State recognised his services, and presented him with a silver watch for his services during plague at Nagaur.

90. *Mewar.*—The disease lingered from the preceding year until 3rd May, 1917. On the 8th July plague broke out in Chhoti Sadri Town where the first case was imported from Neemuch in Central India. 14,452 seizures and 11,938 deaths were reported in 409 towns and villages including 1,231 cases and 1,218 deaths in Udaipur City from 5th December, 1917, to 31st March, 1918.

91. The Residency Surgeon, Mewar, reports that all the prisoners in the Central Jail at Udaipur were inoculated. One woman, a relative of a Warder who escaped being inoculated, caught plague and died on the 10th March, 1918. One prisoner who was inoculated also contracted the disease on 11th March, but recovered.

92. As far as could be ascertained only 28 inoculated persons contracted the disease, of whom 11 died and 17 recovered.

93. *Alwar.*—Early in March, 1917, Harsana village in the Luchmangarh Tehsil was infected with plague by two plague cases from Jubbulpore. The outbreak lasted till May, 1917. In August it re-appeared in Luchm angarh Tehsil. 9,565 seizures and 7,723 deaths were reported in 183 towns and villages including Alwar City in which 1,767 cases and 1,428 deaths occurred from January, 1918.

94. *Bharatpur.*—Plague existed in Bharatpur State throughout the year. 8,256 attacks with 6,495 deaths were reported in 245 towns and villages, against 57 cases and 35 deaths in 4 towns and villages in 1916. Of these, 403 seizures with 333 deaths occurred in Bharatpur City from 14th December, 1917, including one imported case which occurred in the Imperial Service Infantry there on 16th October, and died on 25th idem.

95. *Kotah.*—Plague was first brought into Mundia village in the Chechat Nizamat by a case from an infected place in the Indore State; and thence it spread to other Nizamats. The first case reported was on 23rd October, 1917. 6,456 seizures and 4,856 deaths were reported in 59 infected towns and villages including 2,773 cases in Kotah City of which 1,880 proved fatal, from 9th January, 1918.

96. The Agency Surgeon, Kotah and Jhalawar reports that the greatest difficulty experienced was the disposal of dead bodies. It was to some extent overcome as volunteers came forward to do this.

97. *Tonk.*—Plague was in existence till the end of April, 1917. It re-appeared in August, 1917 : 4,485 seizures and 3,496 deaths were reported in 56 infected towns and villages, including Tonk City in which 2,100 cases and 1,887 deaths occurred from 26th December, 1917 to 21st March, 1918.

98. *Sirohi.*—Plague visited Sirohi State from 3rd November, 1917 to the 24th March, 1918. 1,751 cases and 1,463 deaths were reported in 41 towns and villages: of these 760 cases and 555 deaths occurred in Sirohi Town. The information as to the number of cases and deaths was not received until April, 1918.

99. 10 imported cases and 7 deaths were detected, and 183 indigenous cases with 179 deaths took place at Abu Road from 18th November, 1917 to the end of the year.

100. *Banswara.*—Plague broke out in Partabpura, a village about 5 miles from Garhi, on the 1st December, 1917 and spread to Garhi and several other villages.

101. The total number of cases reported up to 31st March, 1918 was 1,439 with 1,013 deaths. The State is still plague infected. The total number of villages infected was 31. There was no plague in Banswara Town. Out of 1,684 inoculations done at Garhi 6 were reported to have contracted the disease, of whom two died.

102. *Jhalawar.*—The outbreak of plague was first reported in Bhawaniganj on the 15th May, and continued till the end of the year. In 87 infected towns and villages, 871 seizures and 704 deaths were reported.

103. *Bundi.*—Plague appeared in Bundi State on 22nd November, 1917 and continued till the end of the year. 1,905 seizures and 1,593 deaths were reported in 11 infected towns and villages including Bundi City in which 619 cases and 472 deaths occurred from 1st March, 1918.

104. In Karauli 695 indigenous cases and 554 deaths were reported in 20 towns and villages including Karauli Town in which 95 attacks and 64 deaths occurred.

105. *Shahpura.*—Plague broke out at Amli in Shahpura on 1st October, 1917 and spread to 36 towns and villages. Shahpura Town was infected on 23rd December, 1917 and still remains so. 109 cases and 57 deaths occurred.

106. The total number of cases and deaths for the whole Chiefship was 555 and 331 respectively. Among those inoculated 5 contracted the disease and one died.

107. *Bikaner.*—The first case of plague was imported from Nagaur to Bikaner City. No further case occurred till the 5th February, 1918 when it broke out at Ratangarh, in which 152 cases and 150 deaths occurred. From there it spread to Bikaner City in which from 20th February, 1918, 210 cases and 159 deaths took place, at Churu 219 cases and 208 deaths and at Sujangarh 2 cases and 1 death.

108. One imported case at Reni and one at Rajgarh on 5th and 10th March respectively were imported from Churu.

109. The total number of cases and deaths for the whole State was 585 and 520 respectively. Of the total persons inoculated only 8 died of plague.

110. *Kishangarh.*—Plague continued till July, 1917 and again broke out in September, and ceased in the end of November, 1917. 330 attacks and 244 deaths were reported in 3 towns and villages, including Kishangarh Town in which 259 cases and 193 deaths occurred from 5th September to November, 1917.

111. *Partabgarh.*—Plague visited Partabgarh State on 15th July and died out by the 15th December, 1917. It appeared again in February, 1918. 286 cases and 189 deaths were reported up to the end of the year.

112. *Dungarpur.*—This State was free from plague till the end of January, 1918. The disease was imported to Aspur village from Salumber in Mewar and Garhi in Banswara. 155 seizures and 102 deaths were reported in 10 towns and villages. Dungarpur town was free from the disease throughout the year.

113. *Dholpur.*—The State was free from plague till the 21st December, 1917, when an imported case from Jaipur occurred in Dholpur Town, which proved fatal. 65 indigenous cases and 40 deaths were reported in 5 infected towns and villages.

114. In Kushalgarh Chiefship 31 attacks with 20 deaths were reported in Serwa and Patan villages during November and December, 1917.

115. *Kherwara.*—A Bohra of Kherwara arrived plague stricken from Himmatnagar on 5th December, 1917 and died after a few hours. The total number of seizures and deaths from plague was 81 and 56 respectively. Of these 3 fatal cases occurred in Mewar Bhil Corps, *viz.*,—2 sepoys and 1 follower (sweeper). Of the total persons inoculated 7 were attacked with plague and 4 died.

116. The Medical Officer, Mewar Bhil Corps reports that 355 cases occurred in 26 villages in Kherwara District of which 233 proved fatal.

117. *Deoli Cantonment.*—The first case of plague occurred in the 42nd Deoli Regimental Lines in a washerman's family who brought the infection from Uncha village close to Deoli Cantonment where plague cases were occurring. The disease spread in the Saddar Bazar, Agency Bazar and Regimental Lines. 50 cases and 21 deaths were reported from 7th November 1917 to 21st January, 1918 as per detail below :—

—	Cases.	Deaths.	From	To
42nd Deoli Regiment .	10	1	7th November 1917 .	9th December 1917.
Saddar Bazar . .	30	17	14th November 1917 .	16th January 1918.
Agency Bazar . .	10	3	4th December 1917 .	21st January 1918.

118. In the infected towns and villages of the Native States, evacuation, disinfection, inoculation and segregation were carried out. Evacuation was the most popular of the methods employed against the disease.

119. Pamphlets in English, Hindi and Urdu regarding the prevention and spread of plague were freely distributed throughout the towns and villages.

120. In some places measures for rat destruction were adopted: but the majority of the people in Native States were against it.

121. A plague map showing the districts where outbreaks occurred, the date of the first and last cases and the death rate per 10,000 of population is attached.

Snake Bite.

122. Calmette's Anti-Venene is kept in stock in most of the main dispensaries and used for the treatment of snake poisoning when opportunity offers. No special report has been received on the subject.

Statement F.

123. Shows the classes and sexes of both in-door and out-door patients treated in the dispensaries of Ajmer-Merwara and of Native States. This calls for no comment, as it is merely introduced for statistical purposes.

Statement G.

124. During the year under report 78,692 operations were performed on 78,313 persons in Ajmer-Merwara and in Native States against 80,084 operations done on 79,783 persons in the previous year. Of these cures amounted to 77,010, the number relieved 796, discharged otherwise 194 and 110 as compared with 78,549, 653,232 and 114 respectively in 1916; while 203 remained under treatment at the end of the year.

125. Of the operations performed, 1,907 were extractions of the lens for Cataract, of which 1,684 or 88·30 per cent. were reported successful; 64 Lithotomies, 224 Litholapaxies, and 202 Amputations against 2,464 lens extractions, 61 Lithotomies, 211 Litholapaxies, and 226 Amputations in 1916.

126. 604 Abdominal operations were done, of which 28 proved fatal, as compared with 548 operations with 34 deaths in the previous year. Of these 464 were Paracentesis of Abdomen with 13 deaths, 13 Abscess of the Liver with no death, and 25 Laparotomies with 4 deaths.

127. 1,348 Operations were performed at the Victoria Hospital, Ajmer with 3 deaths against 1,878 operations with 8 deaths, a decrease of 530 chiefly due to Plague and Malaria which existed in severely epidemic form throughout the District. Of these 68 were Extraction of the lens for Cataract, 4 Lithotomies, 14 Litholapaxies, 3 Amputations, 3 Ovariotomies, 19 Radical cure of Hernia and 4 Laparotomies, as compared with 105 extractions of the lens for Cataract, 9 Lithotomies, 21 Litholapaxies, 6 Amputations, 8 Ovariotomies, 8 Radical cure of Hernia and 1 Laparotomy in 1916 as shown in the Table below :—

Operations.	1916.	1917.

128. 3,323 operations of all kinds were performed at the Mayo Hospital, Jaipur, with 13 deaths as compared with 2,670 operations with 20 deaths in 1916. Of these, 457 were extractions of the lens for Cataract, 1 Lithotomy, 65 Litholapaxies and 22 Amputations; all of which were done by Rai Bahadur Assistant Surgeon Daljang Singh Khanka.

129. 7,823 surgical operations were performed in Bharatpur State institutions against 7,675 in 1916. Of these, 380 were extractions of the lens for Cataract, 7 Lithotomies, 8 Litholapaxies and 32 Amputations as compared with 624, 8, 7 and 21, respectively in the previous year. Of the Cataract operations mentioned above, 5 were performed by Sub-Assistant Surgeon I. A. Solomon, Bayana and the rest by the Assistant Surgeon, Victoria Hospital, Bharatpur.

130. 2,138 operations were performed in the Dholpur State institutions against 2,028 in 1916. Of these, 372 lenses were extracted for Cataract.

131. 2,436 operations were performed at the Alexandra Hospital, Alwar against 2,118 in 1916. Of these, 112 were extractions of the lens for Cataract, 31 Lithotomies and 18 Litholapaxies.

132. The Residency Surgeon, Jaipur states that the treatment of Tubercular diseases of the following varieties by means of Tuberculin Bacillary Emulsion (Koch) was continued with satisfactory results :—

Tubercular diseases of bones and joints		18
Ditto	of glands	34
Ditto	of lungs	100
Ditto	of abscess	5
Ditto	of ulcer	8
	Total .	165

Statements H and J.

Financial Statements.

133. Statement H shows the income and expenditure of the Government Dispensaries and Hospitals, and only expenditure on those in Native States.

134. The total income of Hospitals and Dispensaries in Ajmer-Merwara was R25,538 against R25,050 in 1916, this increase is due chiefly to the grant of R500 by the Bombay, Baroda and Central India Railway Company and the recovery of the arrears of contribution from the Beawar Municipality. The invested capital of the Dispensaries in this division remained the same as in 1916. The sum of R500 the amount of invested capital of the Deolia Dispensary has been transferred to the Victoria Hospital, Ajmer.

135. In Ajmer-Merwara the total expenditure rose from R22,723 in 1916 to R22,929 in 1917 under head buildings or repairs and salaries of Medical Officers. All other heads show some decrease as compared with the previous year.

136. *Native States.*—The total expenditure on Hospitals and Dispensaries in Native States of Rajputana amounted to R4,85,648 against R4,72,800 in the previous year. This increase in expenditure is attributed to increased cost of drugs and materials owing to the War. The cost of Europe Medicines increased from R1,12,829 in 1916 to R1,34,819 in 1917; of Bazaar Medicines from R7,650 to R9,008, and of miscellaneous charges from R34,263 to R34,956.

137. Of the total expenditure on Hospitals and Dispensaries in the Native States, R87,525 were expended in Jaipur, R77,489 in Marwar, R55,355 in Kotah, R48,308 in Bharatpur, R46,376 in Bikaner, R43,859 in Mewar, R37,163 in Alwar, R15,143 in Jhalawar, R11,812 in Tonk, R8,917 in Dholpur, R7,682 in Karauli, R6,520 in Dungarpur, R5,103 in Kishangarh, R4,467 in Shahpura, R4,438 in Banswara, R4,286 in Sirohi, R4,102 in Bundi, R4,068 in Partabgarh, R3,344 in Jaisalmer and R1,149 in Kushalgarh.

138. The average cost of each case treated in Ajmer-Merwara and in the Native States Hospitals and Dispensaries was 55 pies and 53 pies against 61 pies and 60 pies in 1916.

Mission Hospitals.

139. During the year there were 7 Mission Hospitals in Rajputana, the same as in 1916.

140. The following table shows the total number of in- and out-door patients treated and operations performed in these institutions in 1917 :—

Name of hospital.	Out-door patients.			In-patients.	Operations.	Remarks.
	Old.	New.	Total.			
Ajmer . .	80,959	12,719	93,678	17	2,072	...
Ajmer Women Hospital.	7,274	5,307	12,581	505	1,070	1,680 were visited at their homes.
Nasirabad . .	20,759	8,873	29,632	372	453	
Jaipur . . .	7,385	3,377	10,762	70	161	871 were visited at their homes.
Piploda . . .	9,779	3,307	13,086	...	93	494 were visited at their homes.
Jodhpur . .	21,268	9,436	30,704	76	846	506 were visited at their homes.
Udaipur . .	28,201	14,354	42,555	163	1,273	...
Total .	175,625	57,373	232,998*	1,203	5,968	

* Medical statistics of these Hospitals are for the Mission year from 1st October, 1916 to 30th September, 1917.

Railway Hospitals.

141. 857 in- and 50,003 out-door patients were treated and 1,099 operations were performed during the year in eight Railway Dispensaries of the Bombay, Baroda and Central India Railway within the limits of Rajputana,

viz., 2 at Ajmer and one at Abu Road, Sojat Road, Phulera, Bandikui, Kotah Junction and Gangapur respectively.

Station.	Number of patients treated.			Operations.	Remarks.
	In-door.	Out-door.	Total.		
Ajmer	329	20,676	21,005	239	
Phulera . . .	177	6,481	6,658	63	
Bandikui . . .	130	6,735	6,865	117	
Sojat Road . . .	6	3,136	3,142	275	
Abu Road . . .	125	4,073	4,198	269	
Kotah Junction . .	59	2,240	2,299	60	
Gangapur . . .	31	6,662	6,693	76	
Total .	857	50,003	50,860	1,099	

Jails.

142. *Ajmer.*—Although the daily average number of prisoners fell from 431·83 in 1916 to 357·43 in 1917, the total number of cases admitted to Hospital and the daily average number of sick rose from 191 and 6·38 in 1916 to 317 and 6·52 in 1917 and the mortality from 3 to 4.

143. Three deaths occurred during the year under report among the convicts due to (2) Pneumonia and (1) Tubercle of lungs : and one among the undertrials, the deceased having been admitted to Jail suffering from double Pneumonia, which proved fatal.

144. Additions and alterations to the Jail buildings and annual and special repairs were carried out by the Public Works Department during the year at a cost of R7,234-7-7 against R3,112-8-7 in 1916.

145. The Review by the Commissioner, Ajmer-Merwara, on the strength, classification, health, employment and condition of prisoners, nature of sentences, Jail manufactures, and expenditure of the Jail is given as Appendix A of the Report, together with statements.

Native States.

146. Although the daily average number of prisoners in the Jails in the Native States fell from 4,394·64 in 1916 to 3,885·02 in 1917, the total number of cases admitted to Hospital rose from 1,511 in 1916 to 1,965 in 1917, the daily average sick from 69·55 to 81·51, the mortality from 81 to 93 and the ratio per mille of average strength from 18·43 to 23·94 due to Malaria after heavy and continuous rainfall.

147. The only Jails in Rajputana in which epidemic disease occurred was the Central Jail, Jaipur, *viz.*, cholera one case and Udaipur Central Jail, *viz.*, plague one case, both of which recovered.

148. There were no deaths in the Jails at Sirohi, Karauli, Shahpura, Jaisalmer, Partabgarh and Dungarpur.

149. *Jaipur.*—At the Central Jail there has been no overcrowding throughout the year. The total number of average strength fell from 580·05 in 1916 to 530·32 and the total number of admissions to hospital from 132 to 121 but the mortality rose from 6 in 1916 to 13 in 1917 and the ratio of deaths per mille of average strength from 10·34 to 24·51.

150. In the District Jail there were 5 deaths or 38·56 per thousand of average strength as compared with 3 deaths or 13·83 per mille of average strength in 1916.

151. *Jodhpur.*—The daily average number of prisoners fell from 645·11 in 1916 to 577·57 in 1917; the daily average of sick from 9·88 to 7·69, the mortality from 8 to 7 and the ratio of deaths per mille of average strength from 12·40 to 12·12.

152. The deaths were due to the following causes :—

Dysentery one, Tubercle of Lung two, Pneumonia two, Respiratory one, and all other diseases of the digestive system one.

153. *Bharatpur.*—The total admissions to hospital rose from 271 in 1916 to 283 in 1917, the daily average sick from 9·30 to 11·39, the mortality from 6 to 22 and the ratio of deaths per thousand of average strength from 17·77 to 71·63.

154. *Alwar.*—There was no overcrowding throughout the year. Although there was an increase in the total number of admissions to hospital and daily average number of sick as compared with the previous year, the mortality fell from 12 in 1916 to 9 in 1917 and the ratio of deaths from 20·51 to 18·26. The deaths were due to the following causes :—

Dysentery	1
Pneumonia	1
Tubercle of lungs	3
Anæmia	1
Diseases of the Circulatory System	1
Diseases of the Respiratory System	1
Diseases of the Urinary system	1

155. *Udaipur.*—There has been overcrowding in the Jail throughout the year. The total number of admissions to Hospital and daily average number of sick rose from 109 and 7·74 respectively in 1916 to 140 and 9·55 in 1917 but the total number of deaths and ratio per mille of average strength fell from 14 and 25·84 to 4 and 7·38 in 1917. The Residency Surgeon, Mewar, reports that the health of the prisoners during the year has been good except for guinea worm, which broke out among them as the result of bad drinking water from a Baori in the City during 1916 on account of the Jail well having dried up.

Qualified Medical Staff.

156. Lieutenant-Colonel W. E. Scott-Moncrieff, I.M.S. (Retired) held charge of the duties of Residency Surgeon, Western Rajputana States, Jodhpur up to 13th May, 1917.

157. Lieutenant-Colonel P. P. Kilkelly, I.M.S. (Retired) assumed charge of the duties of Residency Surgeon, Western Rajputana States, Jodhpur on the 3rd August, 1917 which post he has filled till the end of the year.

158. Major F. E. Wilson, I.M.S., Director, Medical Department, Bikaner relinquished charge of the appointment on the afternoon of 8th August, 1917 on reversion to Military duty in connection with the War.

159. Lieutenant-Colonel R. C. MacWatt, C.I.E., I.M.S., Chief Medical Officer in Rajputana and Civil Surgeon, Ajmer held temporary visiting charge of the Eastern Rajputana States and Kotah and Jhalawar Agency Surgeoncies and Residency Surgeoncy, Jaipur throughout the year; and that of Residency Surgeoncy, Western Rajputana States, Jodhpur from 14th May to 2nd August, 1917 in addition to his own duties.

160. Mr. N. J. Rodrigues, L.R.C.P.&S. (Edinburgh) was in temporary charge of the Northern India Salt Revenue Dispensary at Sambhar throughout the year.

Medical practitioner.

Civil Assistant Surgeons.

161. Five Government Assistant Surgeons were employed as in the previous year.

Military Sub-Assistant Surgeons.

162. Eleven Military Sub-Assistant Surgeons were employed with the Imperial Service Corps at Bharatpur, Alwar, Jaipur and Bikaner as in the previous year. Of these four are on Field Service with the Corps.

Civil Sub-Assistant Surgeons.

163. There were 140 Government Sub-Assistant Surgeons on the roll on the 1st January, 1917 and 4 Medical pupils passed their final examination at the Agra Medical School in May, 1917, total 144. Out of 144 Sub-Assistant Surgeons, 5 were transferred to the United Provinces of Agra and Oudh, 1 to the Central Provinces, 5 retired on pension, 4 died, 1 resigned and 1 was dismissed from the service. Thus at the close of the year 127 Government Sub-Assistant Surgeons remained on the roll, including 5 Sub-Assistant Surgeons transferred temporarily to Military duty on account of the War.

164. There were four Lady Doctors employed in the following Native States as in the previous year :—

Kotah	1
Jodhpur	1
Bikaner	1
Jaipur	1

165. The number of Female Sub-Assistant Surgeons attached to the Female Hospitals is only 7 against 6 in 1916. Female Sub-Assistant Surgeon Mrs. L. A. Hakim was employed to the Hospital for Women at Bharatpur in 1917.

Female Hospitals and Dai Class.

166. *Ajmer.*—2 Lady Doctors have remained attached to the Mission Hospital for Women at Ajmer throughout the year. They and their subordinates have done much good work both in the Hospitals and in Zenanas. The number of patients treated and the other medical work done is shown unde "Mission Hospitals."

167. *Beawar.*—Female Sub-Assistant Surgeon Miss Q. Houlton has been in charge of the Female Ward of the Charitable Dispensary at Beawar through out the year. There is a decrease in the number of both in- and out-door attendance as compared with the figures of 1916, due to the fact that the town of Beawar was infected with plague during the greater part of the year.

168. 603 operations were performed against 836 in the previous year, of these 36 were important operations.

169. A new ward which has been designated "The Lady Hardinge Maternity Ward" has been added to the Dispensary in 1917 at a cost of about ₹3,000.

170. *Native States.*—The returns received from the Female Hospitals in the Native States of Rajputana show on the whole a general increase in both in-door and out-door attendance : which is due in great measure to increase of Malarial fever owing to heavy rainfall.

171. *Jodhpur.*—Mrs. Stirling, M.B., B.C.H., B.A.O. (Dublin) has been in charge of the Jaswant Hospital for women at Jodhpur throughout the year. 85 in- and 4,215 out-patients were treated against 82 in- and 3,656 out-patients in the previous year. 85 Major and 23 Minor operations were done against 21 Major and 49 Minor Operations in 1916.

172. *Kotah.*—Miss J. Newton, L.R.C.P.&S. (Edinburgh) and L.F.P.S. (Glasgow) has been in charge of the Victoria Jubilee Hospital, Kotah throughout the year. There was an increase both in in-door and out-door attendanoe as compared with the figures of the previous year.

173. 261 operations were performed against 312 operation in 1916.

174. 13 Midwifery cases were treated in the Hospital, of these 6 were Normal, 5 abnormal and 2 Abortions.

175. No Dai Class was held at Kotah in 1917. One Dai was sent to Ajmer to attend the Dai Class there. She passed out and has been appointed at Baran to work there as a Female Nurse and a Dai in the Dispensary.

176. *Jaipur.*—Miss S. E. Sykes, M.D. (Brussels), L.R.C.P. & S. (Edinburgh) and L.F.P.S. (Glasgow) has been in charge of the Female Wards of the Mayo Hospital, Jaipur throughout the year. There was a decrease in the number of both in- and out-patients as compared with the figures of 1916. Operations on women were 734 against 1,011 in the previous year.

177. The building of the new block for the families in memory of the late Lady Hardinge on the west side of the operation room at the Mayo Hospital has been completed.

178. Female student Nangi continues her studies at the Agra Medical School in the Female Sub-Assistant Surgeon Class as a Jaipur State Medical pupil.

179. No Dai Class was held at Jaipur during the year. One Dai sent to Ajmer for training in the Dai Class passed her final examination in April, 1917 and returned to Jaipur.

180. *Bikaner.*—Miss J. Marsh, L.R.C.P. & S. (Edinburgh), L.F.P.S. (Glasgow) and M.D. (Brussels) has been in charge of the Zenana Hospital at Bikaner throughout the year. 79 in- and 15,775 out door patients were treated against 225 in- and 12,784 out-door patients in the previous year.

181. There is no Female Sub-Assistant Surgeon in the Hospital.

182. *Tonk.*—Female Sub-Assistant Surgeon Imaman has been in charge of the Walter Female Hospital at Tonk throughout the year, under the supervision of the Male Assistant Surgeon, Tonk State. There was a decrease in in-door attendance as compared with the figures of 1916, which is no doubt due to the want of a Lady Superintendent.

183. Seven Major and 261 Minor operations were performed against 31 Major and 316 Minor operations in the previous year.

184. *Alwar.*—Female Sub-Assistant Surgeon Balabai has been in sole charge of the Dufferin Hospital at Alwar, 336 in- and 20,156 out-patients were treated against 289 in- and 17,865 out-patients in 1916.

185. 100 Major and 1,132 Minor operations were done against 67 Major and 1,051 Minor operations respectively in the previous year.

186. Four dais were sent to the Ajmer Dai Class for training.

187. *Bharatpur.*—Male Sub-Assistant Surgeon Ram Sahai of the Victoria Hospital there was in charge of the Hospital for Women at Bharatpur up to 4th May, 1917 when Lady Doctor Miss Jardine was appointed She, however, resigned after two months' service. In August Female Sub-Assistant Surgeon Mrs. L. A. Hakim was appointed to the charge of the Hospital, which post she still holds.

188. 303 in- and 4,504 out-door-patients were treated as compared with 306 in- and 4,198 out-door patients in 1916, the increase in out-door attendance is attributable to malaria on account of heavy rainfall.

189. *Udaipur.*—The Walter Zenana Hospital at Udaipur has remained closed since the 15th January, 1913. Female medical aid is badly wanted for the pardanashin and other women of the State.

190. A Compounder from the Lansdowne hospital there looks after the surgical instruments and appliances.

191. *Dai Class, Ajmer.*—Mrs. M. Kane, Lady Superintendent, has been in charge of the Dai Training Class, Ajmer, throughout the year. The six pupils who were mentioned in last year's report as being under instruction worked till the end of the session when they were examined by the Civil Surgeon, Ajmer, on the 30th April, 1917. All of them passed, and were granted certificates and the usual honorarium.

192. Eight pupils were admitted into the current year's class, of whom 4 came from Alwar, 2 from Jodhpur, 1 from Shahpura and 1 from Jhalawar.

193. During the year 18 in-door and 68 out-door maternity cases were treated. In addition 98 persons sought advice and treatment for diseases incidental to women.

194. No local Dai classes have been held in the Native States of Rajputana during the year under report. Most of the Native States send their pupils to the Dai Class, Ajmer, for training.

Imperial Service Troops.

195. The hospitals of the Native States Imperial Service Troops are all well equipped. With the exception of those of the two regiments of Imperial Service Lancers at Jodhpur they are under the medical charge of well qualified Military Sub-Assistant Surgeons. Each regiment of the latter is under the medical charge of a State enlisted Assistant Surgeon. The Mewar Imperial Service Squadron at Udaipur has been under the medical charge of the Civil Sub-Assistant Surgeon attached to the Lansdowne Hospital.

196. The Alwar and the Bharatpur Imperial Service Infantry, the Bikaner Camel Corps, and the Jaipur and the Bharatpur Imperial Service Transport Corps are still on field service accompanied by Military Sub-Assistant Surgeons.

Insane.

197. *Ajmer.*—There were six lunatics in the Central Jail, Ajmer, on 1st January, 1917 and 20 were admitted during the year, a total of 26. Of these 10 were transferred to the Lahore and Agra Lunatic Asylums, 7 made over to their friends and relatives and 6 discharged as weak minded. Three lunatics remained in the Jail at the close of the year.

198. *Native States.*—145 lunatics were treated, against 138 in 1916: of these 37 were cured, 20 discharged otherwise, two transferred to Lahore Lunatic Asylum (from Jodhpur), 2 made over to relatives, 16 died and 68 remained in the jails at the close of the year.

199. The Residency Surgeon, Mewar, reports that insanes are kept at Mohtaj Khana in Udaipur City under Police supervision. They are in no way under him.

R. CHARLES MACWATT,
Lieut.-Col., I.M.S.,
Chief Medical Officer in Rajputana.

AJMER,
The 5th June 1918.

APPENDIX A.

Review on the Ajmer Jail Report for the year 1917.

Charge.—The charge of the office of the Superintendent, Central Jail, was held by Lieutenant-Colonel R. C. Macwatt, I.M.S., throughout the year.

2. *Population.*—At the commencement of the year there were 396 prisoners including convicts and undertrial prisoners. The number of prisoners admitted to the Jail during the year was 1,377 against 1,662 in the year 1916, of whom 795 were convicts, 576 undertrial and 6 civil prisoners.

The number of prisoners discharged during the year under review from all causes as compared with the previous year is as under :—

—	1916.	1917.
Convicts	868	791
Undertrial	804	580
Civil	7	6

The number of prisoners remaining at the close of the year was 396.

The daily average number of prisoners was 357·43, *i.e.*—

Convicts	326·97
Undertrial	30·13
Civil	0·33

3. *Disposal of convicts.*—The following table compares the disposal of convicts 791 during the year under review with that of the preceding year :—

—	1916.	1917.
Released on appeal	38	76
„ expiry of sentence	553	446
„ payment of fine	54	30
„ under remission rules for good conduct	182	202
„ on account of sickness	...	1
Transferred to other Jails	35	31
Died in Jail	3	3
Transferred to Lunatic asylum	3	2
TOTAL	868	791

4. Excluding the 194 convicts received from other Jails, the remaining 601 convicts admitted into the Jail are classified as under :—

Hindus		418
Mohammadans		178
Christians	Europeans	2
	Eurasian	1
	Natives	2
		601

of these 555 were males and 46 females.

5. Of the 601 convicts admitted into the Jail 66 were awarded simple imprisonment, 524 rigorous imprisonment, 10 rigorous imprisonment with solitary confinement and 1 rigorous imprisonment with whipping.

6. *Previous convictions.*—The number of previously convicted prisoners admitted during the year under review was 109 as against 189 in the previous year, their percentage to the total number of convicts admitted being 18·14.

7. *Employment of convicts.*—Excluding sick and convalescent from whom occasional labour is taken, the daily average number of convicts sentenced to labour on working days was 317·61.

8. *Conduct of prisoners.*—The number of Jail punishments of all kinds inflicted was 268 as compared with 520 in 1916.

9. There was no escape of convicts during the year but two undertrial prisoners escaped owing to the faulty construction of the ward—a defect which has now been remedied.

10. *Health.*—The general health of the prisoners was good.

The number of admissions to the Jail Hospital was 317 against 191 in 1916. There were 4 deaths in 1917 as against 3 in 1916.

11. There was no juvenile prisoner in Jail on 1st January 1917. 13 boys were admitted during the year under review. Out of these 13, 12 were released and one remained at the close of the year.

12. The profits from Jail manufactures amounted to R855-15-1 against R100-2-9 in 1916, the average earning per head of prisoners employed on Jail manufactures being R6-2-7 against R0-7-4 in 1916. This increase is due to the recovery of arrears in this year and to the better working of the Jail Factory.

13. *Expenditure.*—The total expenditure in guarding and maintaining the prisoners including that incurred

(1) by Public Works Department on the buildings and repairs, and

(2) by Magistrates in guarding and maintaining undertrial prisoners

amounted to Rs. 34,227-7-7.

The average cost per prisoner during the year was Rs. 75-8-4 against Rs. 74-12-2 in the preceding year.

14. The Superintendent draws attention to the difficulty of recruiting the necessary Jail Establishment. The increased rate of pay which was sanctioned during the year under review does not appear to have proved sufficiently attractive. The difficulty of obtaining recruits is not confined to the Jail Establishment alone and if existing conditions continue a further improvement in the conditions of service will be imperative if efficiency is to be maintained.

L. W. REYNOLDS, *I.C.S.*,
Commissioner, Ajmer-Merwara.

GENERAL SUMMARY.

Showing the Distribution of the Prisoners of all classes confined in the Ajmer Central Jail during the year 1917.

(*Vide* Instructions issued with Jail Department Circular No. 42 of 1885.)

* Whether a Central Prison, District Jail or Subsidiary Jail. NOTE.—When Civil prisoners are in a separate place of confinement and under some authority other than that of the Jail Department—such, for example, as the Nazir of the Civil Court, they should not be included in these statements.

STATEMENT No. I.—*Statement showing the number and disposal of convicts in the Central Jail at Ajmer for the year 1917.*

1	2	3	4	5	6	7		8	9		10						11	12	13	14	15	16	17
						Received from other Jails.			Transferred to other Jails.		Released during the year.												
						A	B		A	B	A	B	C	D									
														By order of Government.									
Sex.	Total aggregate number of prisoners during the year.	Daily average number of prisoners.	Remained on the last day of year.	Imprisoned during the year.	Total.	To undergo sentence.	In transit for transportation *en route* to other Jails, etc.	Total population.	To undergo sentence.	For transportation beyond seas, etc.	On appeal.	On expiry of sentence.	On payment of fine.	E On account of sickness.	F On account of epidemics.	G For good conduct.	Transported beyond sea.	Transferred to Lunatic Asylum.	Escaped.	Executed.	Died.	Remaining on the last day of the year.	Remarks.
Male	113,427	310·76	339	*555	894	189	...	1,083	30	1	69	412	26	...	...	194	...	2	...	...	3	346	
Female	5,918	16·21	18	†46	64	5	...	69	...	...	7	34	4	1	...	8	...	...	...	...	...	15	
Total	119,345	326·97	357	601	958	194	...	1,152	30	1	76	446	30	1	...	202	...	2	...	...	3	361	

* Of this number 10 boys under 16 years. † Of this number 3 girls under 15 years.

NOTE 1.—This and the other statements numbered 1 to 7 only convicted prisoners are to be included.
2.—Debtors and others detained for default of Government revenue will appear in No. 8.
3.—The "Total," column 6, is obtained by adding together the totals of columns 4 and 5, and represents with sufficient accuracy the number of different individuals who have been in prison during the year.
4.—The "Total population," column 8, is the sum of columns 6 *plus* 7, and necessarily includes many who are counted more than once.
5.—The "Daily average number," column 3, is obtained by adding together the number presented on each day of the year, *vide* column 2, and dividing the whole by the number of days in the year.
6.—When prisoners are transferred from one Jail to another on their way to undergo transportation beyond seas, they should be entered by the transferring Jail in column 6 B; and by the Jail which received them they should be entered in column 7 B. When prisoners sentenced to transportation beyond seas are despatched from any Jail, so that they will leave the Province without passing through any other Jail in it, they should be entered in column 11.
It will be observed that transportation applies only to those prisoners sent *beyond seas*. Transportation to a Central Prison is regarded merely as a transfer.
7.—When the gangs are employed extra-murally under the orders of Government, No. 1632—46, dated 28th October 1869, they should be considered as forming a separate Jail, and the name of the Jail, that is, of the place where they are employed, should be entered in italics in each statement.

R. C. MACWATT, *Lieut.-Col., I.M.S.,*
Superintendent, Central Jail, Ajmer.

AJMER CENTRAL JAIL:
The 10th February 1918.

STATEMENT No. II.—*Statement showing the religion, age, and previous occupation of the convicts in the Jail at Ajmer for the year 1917.*
